Timeline IT invention start-up companies Google Facebook, co-chairman and co-CEO at Google Inc., Facebook Inc., Apple Inc., Daimler-Chrysler AG, Daimler AG.

1.) Agreement 1998 with Apple Facebook Google and Daimler-Chrysler AG 50 billion EUR, 10 billion per company, paid in 2016 in sum 50 billion EUR. Foundation Turkey Wealth Fund with 50 billion EUR 2016

2) Agreement 2011 with EU 80,64 billion per year with the beginning of 2012.

Timeline of Dipl.-Ing. Engin Günana IT-Invention and Wealth 1984-2024

Industry spying 1984 – 1998 (agents)

Spying through German- EU Turkish and Middle East Intelligence Agencies, military and NATO manager

Spying scope: Aerospace-Technology Artificial Intelligence and IT-Technology (agents)

Arianne Space Shuttle, Astra Satellite System, Airbus A320, family, GSM 1G, Internet <https://www>, Artificial Intelligence, Windows, Google modules and search algorithm. Startup Google Inc. Facebook Inc.

Industry spying 1998 – 2010 (audio recognition)

Spying through German- EU Turkish and Middle East Intelligence Agencies, military and NATO manager

Spying scope: AI and IT-Technology

Daimler AG, Mercedes Benz AG, VAN, Truck, Google, Facebook, iPhone, Wi-Fi, Google Translation, Google Maps, Google Navigation in 244 languages, Chrysler Group, merger strategy DaimlerChrysler AG versus cooperation strategy Renault Daimler Nissan B2B sector AI application in all disciplines development purchase production and sales, reduce variants increase common parts internal and external with cooperation.

Industry spying 2011 – 2022 (thought recognition)

Spying through German- EU Turkish and Middle East Intelligence Agencies, military and NATO manager

Under focus of Aero Space Technology, ASTRA Satellite System, Satellite Technology AIRBUS A320 family and in follow complete Airbus family, ARIANNE Space Shuttle, Internet, Google AI modules, GSM 1-5 smartphone iPhone Samsung Huawei, Wi-Fi, mesh generators for FEM calculation, CAD, CAM, CAS Systems, transfer Cray super computing to offices and Workstation. Activate B2B sector with cooperation through Artificial Intelligence through max coupling of mathematics physics and informatics disciplines. Technology and unit elements in powertrain passenger cars, VAN Trucks and Buses. Increase equal parts reduce variants divergence through surfaces and design. We transformed AI and FEM Technology couple algorithm to vehicle car industry and face the market with cooperations, pilot project with the best result was Daimler-Renault-Nissan Cooperation and we pushed Business to Business B2B and B2C AI application.

Strategy was reduced in Technology disciplines with best solution and much success. Therefore, we protect and concentrate further developments to technical conditions. European Union, grow since 1990 with Dipl.-Ing. Engin Günana Aerospace Technology, AI- and IT-Technology about 600000 -700000 billion USD, under legacy integrity.

Subject of lawsuits

Germany organizes E. Günana EU income payments, EU paid about 1048 billion EUR (2012-2024) to Mercedes Benz Car Group AG and Mercedes Benz Car Group AG send to recipient Dipl.-Ing Engin Günana bank account address in Turkey

Engin Günana bank account address: İşbank Çayirova, customer No: 480956609, TCKN: 14168572408, , Swift Code (BIC) ISBKTRISXXX, IBAN TR35 0006 4000 0022 4270 3774 74, address: İşbank Çayirova (division 2427), Fatih Caddesi No 63 A, 41420 Çayirova/Kocaeli Turkey.

But Turkey government didn't registration the E. Günana EU income payments, at E. Günana bank accounts address and IBAN number, but occupy the payments secretly put in a pool and bypass to other customers bank accounts.

European Union grow economical and financial about 600000 – 700000 billion USD since 1985 through digital Technologies with Dipl.-Ing Engin Günana IT inventions. This is the reason of Dipl.-Ing Engin Günana high income about 80,64 billion EUR per year, from European Union.

Open Intellectual property und property right is a business model with Intelligence and thoughts make possible read intellectual property rights and copy rights for professionals and managers.

Violation of agreement between European and Union Engin Günana since 2016, means market condition and market costs.

Therefore, European Union, Germany and Turkey management should pay real education and consulting cost about 30000 – 40000 EUR/month since 2000, Responsible for this financial crime are European Union, Germany and Turkey.

Because of financial crime, stolen salary, stolen income, stolen asset and unpaid service cost of professional consulting services for state and economy in European Union Turkey and Middle East

- 1) Through external meetings with c and communication with input audio and video signals from manager experts professionals and society and digital output signal from Dipl.-Ing. Engin Günana with Get-Response Management Function
- 2) Through internal meetings with digital input signals from manager experts professionals and society and digital output signal from Dipl.-Ing. Engin Günana with Get-Response Management Function
- 3) A mixture of 1) and 2)
- 4) Spying from millions of managers, experts, professionals and society with daily prepared condition from 5000 organized Turkish military unit for Dipl.-Ing. Engin Günana for solution quantity

An agreement between European Union/Brussel and Dipl.-Ing. Engin Günana from 2010 with the main content 'read and scan Dipl.-Ing. Engin Günana thoughts ensured Dipl.-Ing. Engin Günana monthly income about 30000 EUR/month (consulting/education cost) from 224000 (Daimler AG) Mercedes Benz Car Group employees but resized to 224 million European Union private households and 30 EUR/month.

European Union/Brussel income consider Dipl.-Ing. Engin Günana monthly consulting/education cost about 30000 EUR/month and 80,64 billion EUR/year from 224000 Daimler AG employees resized to 224 million European Union private households which reach 30 EUR/month for 1 private household and paid from European Union/Brussel to

Get-Response Management Function is a spying and recognition module of intellectual property for professionals and manager at state- and private industry but for society too, according spying services with audio and visual input signals through voices and view and coupled condition at field and environment or directly over communication chip with digital interaction and interference at IT-Technology at IT-Infrastructure with computer Notebook IOS modern smartphones iPhone, Samsung, Huawei IOS Android and Application.

Digital output signal with Get-Response Management Function and digital thought recognition from professionals and managers at state, private industry and society. Spying services with audiovisual input signals with conditions and output signal with results quantity of thoughts, in which thoughts were transformed in speech (German Turkish English).

State and economy transform 'problems' with audio and video input signals (Reality TV Function) and define conditions, brain analyses and determine the situation give solution quantity classified and categorized in priority and decided in function of manager what should to do, transfer this experience over thought responses and Get-Response Management function chip to recipient.

Both functions allowed problem input signals physical or digital with Reality TV Function and or Get Response Management Function interaction and response with solution quantity with physical or digital output signals over thoughts with Get-Response Management Function, transformed in audio output signal for manager and professional general for user.

Input signals in audio and video signals and output signals in thoughts which can be transformed in audio signals too. Scanning and listening (transformation) of Dipl.-Ing. Engin Günana thoughts are an equivalent of intellectual property rights realized with an operation and implantation in USA.

Legally integrity

Dipl.-Ing. Engin Günana is a private legacy person with Office in USA Washington DC White House 1600 Pennsylvania Ave NW Washington DC, 20500 United States and act against German and European Union Turkey and Middle East.

Günana Engin

Sehr geehrter Herr Günana,

in vorbezeichneter Angelegenheit haben wir Ihre Familienakte vom Amtsgericht Böblingen zur Einsicht erhalten.

Ausweislich der Akte stellten Sie, vertreten durch die Kollegen Dachs, Bartlinger und Spohn, am 22.02.2016 Scheidungsantrag. Mit Schreiben vom 25.02.2016 hat Ihre Ehefrau ebenfalls einen Antrag auf Scheidung und Verfahrenskostenhilfe gestellt.

Am 10.10.2017 fand vor dem Amtsgericht Böblingen eine mündliche Hauptverhandlung statt, an der Sie und der von Ihnen beauftragte Rechtsanwalt nicht teilnahmen.

Auf Antragsseite hat Frau Melek Günana sowie ihr Anwalt teilgenommen.

Die Personalien und die Staatsangehörigkeit der Antragsgegnerin wurden festgestellt.

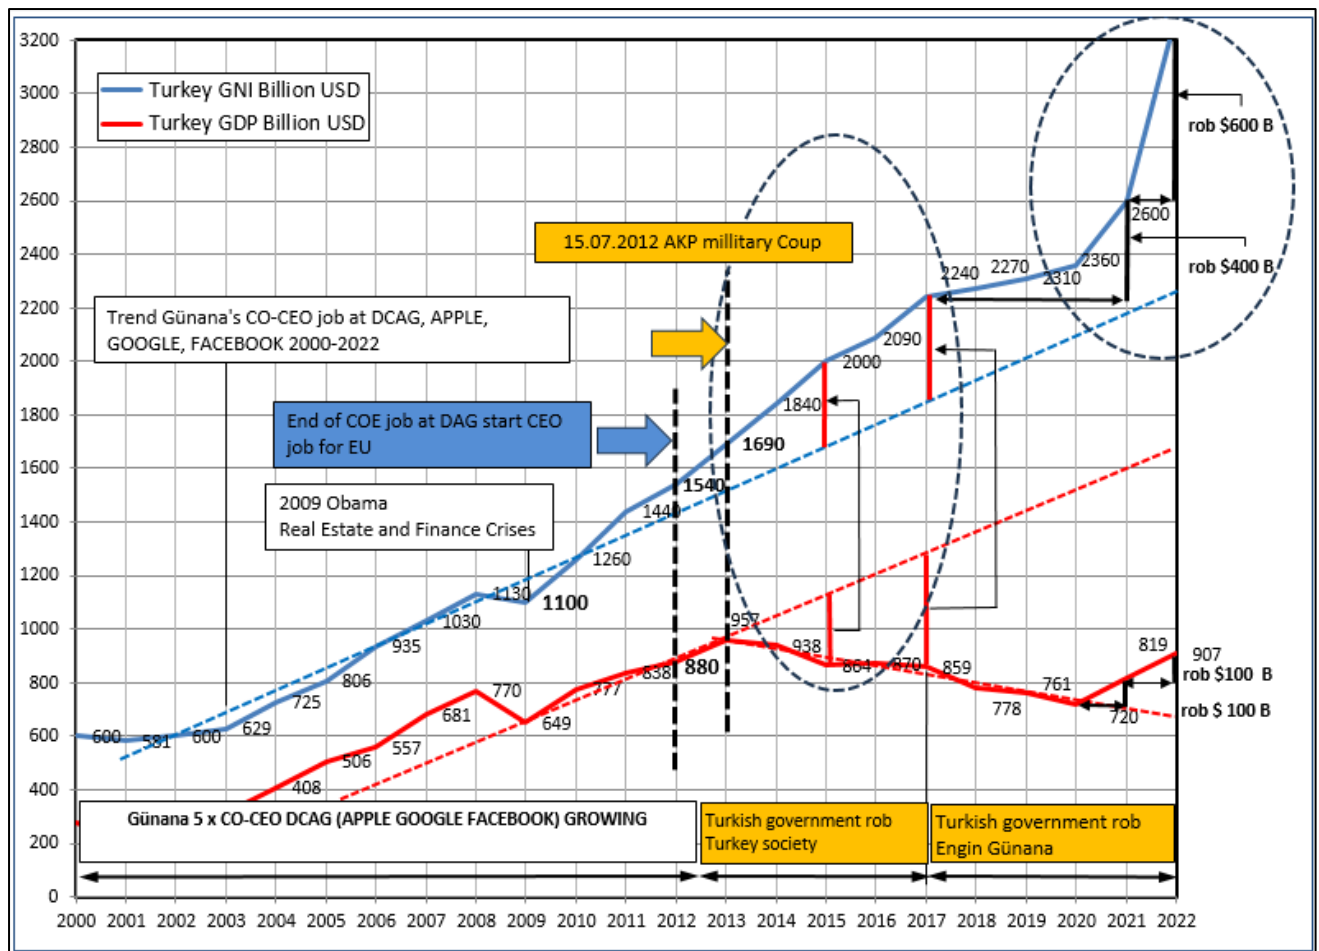

Sie wurde dann gemäß § 128 FamFG angehört.

Es erging dann am 10.10.2017 Teilend- und Teilversäumnisbeschluss in welchem Sie geschieden wurden.

Der Versorgungsausgleich wurde durchgeführt.
