1984-1992 University Stuttgart and Foundation AI-Internet-Google

AI

Artificial Intelligence one of the most important foundation after FEM-Method-Analysis from Prof. Prof. Prof. John Agyris at Static and Dynamic Institute for Industrial application at faculty Aerospace-Technology at University-Stuttgart. 1984-1986 development and application Artificial Intelligence at Linguistic-Institute with support from Mathematic-Institute, Informatics-Institute and Aerospace-Technology-Institute. Discretization and modelling languages to Finite-Elements build Element-Libraries and translation sentences with excellent AI algorithm from language element-library, which consider orthography.

FORTRAN Libraries and INTERNET

FORTRAN PROGRAMMING and importance of FORTRAN-Libraries. FORTRAN-Libraries are program collections about decade of years. Every Institute at Stuttgart University had different subroutines. My Idea was connect all institute computers to reach the every Fortran Libraries with Subroutines at Stuttgart University and Germany

Than the way from Germany Libraries from other countries. The idea of worldwide computer network and Internet was born and we define Internet address with <https://www> at meeting at Stuttgart University with Student group and give to Prof. Messerschmid Faculty Aerospace-Technology Institute IRS (Institute für Raumfahrt Systeme) Stuttgart University. During Daimler AG graduation at 1992, i forced worldwide computer connectivity and Internet with support from EDV-Team Dr. Eckert at Dr. Kern and Prof. Dr.-Ing. Bharat Balasubramanian (India) Daimler AG. We developed UNIX; define Hexadecimal-code for text documents and data header in ASCII-Code.

1992 From AI Element-Libraries to Encryption and Terror Politic

During we developed Artificial Intelligence, build sentence elements, sort and collect in specific element libraries and developed the most complex part of AI algorithms to connect and couple automatic elements to sentences with Finite-Element-Method element generator with orthography rules, we determine that National Intelligence Agencies use alphanumeric encryption methods.

Encryption methods to realize encryption information with symbolic and word combinations, graphical, color and symbolic contents. Turkey destroy me with order from Germany and European Union to steal my foundations bankruptcy me downsize me to usable data in group /all/ but use and applicate foundation AI, Internet, Google, GSM, iPhone and Wi-Fi Turkish society. A graphical interpretation of Artificial Intelligence algorithm is expose as a sculpture at Stuttgart Feuerbach Maybachstrasse

Terror Groups Terror Organization and AI Encryption

Secret information encryption with AI method under using Libraries with alphanumeric-, color- and signs- element libraries.

Germany start at first with a Turkey AKP and Terror-Network Organization to shrink US Government force with the Terror attack at 11.09.2001. I am convinced especially for this task and target Daimler AG fusion with Chrysler Inc. at 1998 with the target to destroy US Government force status symbol World Trade Center. 3 years are enough to plan bribe and preparation the building. Target Adolf Hitler's revenge from 1945. With this target, we should analyses the cold blood behavior from politician leaderships and terrorists. US Government and Great Britain solve Germanys MORSE encryption and prevent Germany dangerous submarines

Germany start another way of war with secret genetic manipulated agriculture and seeds, different virus types in and infiltrate with terror networks AKP Turkish military Anti-Hitler-Coalition and BRISC countries. To push European Union to top European Union begin to settle at this target and make with Turkey agreement at 2011/2012. The result was AKP and Turkey military attack at 15.07.2012 with the meaning 15 to remind EG 15 and my foundation Hexadecimal-System, 2000 kill unknowledge AKP members to constitution a dictatorship with government regulation Unix, my foundation at 1992-1994 to connect with Internet <https://www> the world manage date with Unix and data rights to owner/group/all.

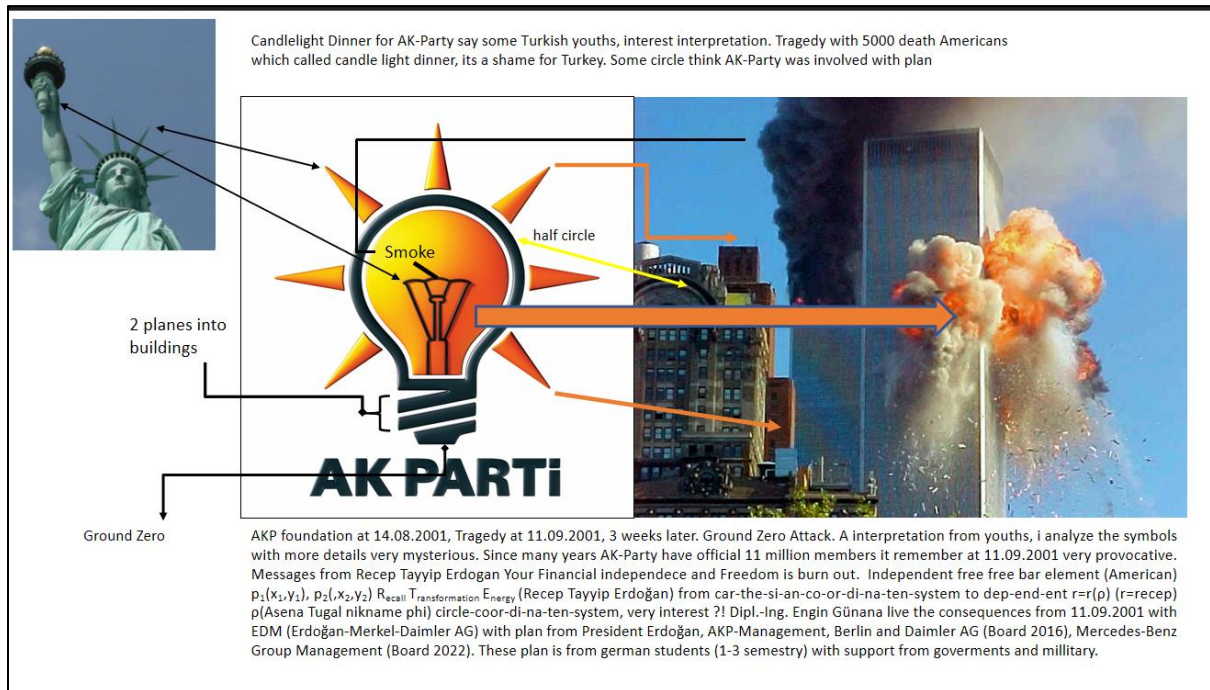

Turkish government use exactly this regulation to steal asset, money, and life from all. All means exclusive President Erdogan President Erdogan Team AKP Organization (The owner and admin) Furthermore AK Party Member (group).

Revenge Politic and the role of Private Industry

14.08.2001 AKP Foundation and Terror attack 11.09.2001 to WTC to prevent USA growing among other things with my foundation Internet, Artificial Intelligence, Google (translation, search engine navigation), iPhone and iPad GSM Wi-Fi and digital data streaming with digital satellite technology ASTRA. The merger of Adolf Hitler and Osama Bin Laden.

15.07.2012 with Erdogan and Kılıçdaroğlu and AKP-CHP, constituted dictatorship with support from Germany, transform regulation and rules to Adolf Hitler and National Socialism politic decisions. Constitution condition of two countries Germany and Turkey. Erdogan and Kılıçdaroğlu AKP and CHP controlled and regulated justice, finance, healthcare, security, army and police, make decision with EU for Private Household education with Reality-TV-Function but steal secret digital manager competence and expert knowledge with Get-Response Management Function. The illegal agreement with EU to use a high-end educated undercover agent (best case) to prevent government expenditures and increase profit through misusing government institutions justice, finance, security, healthcare and steal parallel secret and digital with Get-Response Management Function intellectual property manager competence

and expert knowledge. The same concept to Germany and government. Germany save (earn) over 1000 Billion EUR expenditures and earn Turkey get over 1000 Billion EUR EU-TV fees payments from EU with national government program from two countries during private economy use free Get-Response Function.

History dependence

Started at 20.01.2016. Encryption Nutation and Political Application

Is President Erdogan and AK-Party foundation at 14.08.2001 a victim or the greatest Terror Organization? After Erdogan's and AKP's massively prevention of IT-Technology foundation since AKP foundation at 14.08.2001, transformation Adolf-Hitler National Socialism Politic to Turkey and AKP-Organization, let his daughters study in USA, even though he is political an Anti-American, hide and reject the greatest foundation of 20 century, i am convinced Erdogan and AKP and Turkey are guilty.
