Mustafa Koç

Vatan Şaşmaz

Shinzo Abe

Regression against European Union, Germany, Turkey, Middle East, Mercedes Benz Car Group, Daimler AG and Turkish Wealth Fund because of unpaid IPR and consulting services, share asset and financial damages

Nutation

European Union: EU

Germany: D

Turkey: TR

Middle East: ME

Compensation of civil war damages

Pos	Damage of USA	Responsible	Amount	Page
1	Compensation	EU D TR ME	600000 billion USD	98

Pos	Damage of Syria Ukraine and World	Responsible	Amount	Page
2	Compensation	D TR ME	50000 billion USD	98

Compensation of industry crime and intellectual property rights

Pos	IPR and consulting services	Responsible	Amount	Page
3	Günana IPR- and consulting services	Germany	50000 billion USD	112
4	Günana IPR- and consulting services	European Union	200000 billion USD	112
5	Günana IPR- and consulting services	Turkey	50000 billion USD	112
6	Günana IPR- and consulting services	Middle East	100000 billion USD	70

Compensation of Dipl. Ing. Engin Günana

Pos	Günana	Responsible	Claim Amount	Page
7	Intellectual Property Rights	EU TR	1818 billion EUR	35
8	Salary from Google Meta Apple and DCAG	D TR	120 billion EUR	35
9	Technology compensation	High-Tech companies	4212 billion EUR	51

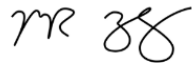

Germany and Turkey breached consulting services agreement between EU and Engin Günana, which were commitment at Daimler AG 2009/2010.

Engin Günana claims about 3160 billion USD (pos. 7) from European Union and Turkey and about 155 billion USD (pos. 8) from Germany, Mercedes-Benz Car Group (MBCG), Daimler AG (DAG) Turkey and Turkey Wealth Fund (TWF) should transfer 2026 in name and interest of Engin Günana to Engin Günana bank account at Great Britain / Switzerland / USA

Claims from Melike Çorba marriage (div. 2017) aren't provided, because of her membership and agent activities at Turkish National Intelligent Agency MIT.

Contractors

Donald Trump (army) Mark Zuckerberg (Facebook) Bill Gates (Windows) Jensen Huang (NVIDIA)

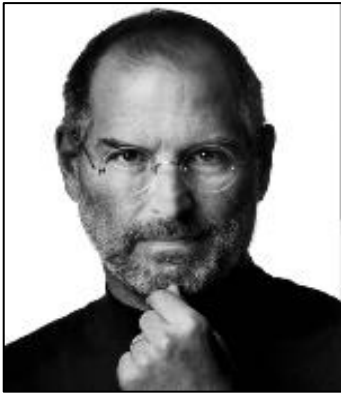

Tim Cook (iPhone) Sundar Pichai (Google) Jeff Bezos (Amazon) President Putin (Russia)

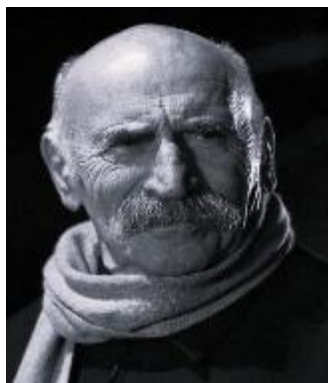

Dr. Josef Biden Barrack Obama (IT, Price) Rishi Sunak (BlackRock GB)

In shadow of Günana AI & IT foundation, Nobel Prize 2009 industry murder**(1) Steve Jobs 05.10.2011 (*)**

Steve Jobs CEO/Apple witness of Dipl.-Ing. Engin Günana iPhone foundation and development, die after Engin Günana claim 2011 iPhone participation in front of IPR business and consulting services for European Union (EU) with the beginning of 2012

(2) Tuncel Kurtiz 27.09.2013 (*)

Tuncel Kurtiz, witness of Dipl.-Ing. Engin Günana IT foundation poem collection and agreement with European Union. Die 27.08.2013, 4 days before Dipl.-Ing. Engin Günana divorce from Melike Günana at 01.10.2013. Poems realized at University Stuttgart and finished with the collection of poems, songs, fashion shows, Presidential presentation (Obama Erdogan Trump Harris) shows 1998-2009.

(3) Mustafa Koç 21.01.2016 (*)

Mustafa Koç CEO/Koç Holding, witness of European Union agreement with Dipl.-Ing. Engin Günana about 80,64 billion EUR per year. Die before Daimler AG pay Günana 50 billion EUR salary. 5 x 10 billion EUR salary from Daimler AG, Chrysler Group, Google, Facebook and Apple, murdered with brain chancery 21.01.2016 2 days before Engin Günana pension get pension at 23.01.2016.

(4) Vatan Şaşmaz 27.08.2017 (*)

Vatan Şaşmaz Turkish actor and author introduce in shows Engin Günana manager character with figure 'Engin'. Introduce Günana guiding style demanding but friendly critical but appreciate. Die before EU began pay Engin Günana IPR service and consulting cost in 09/2017.

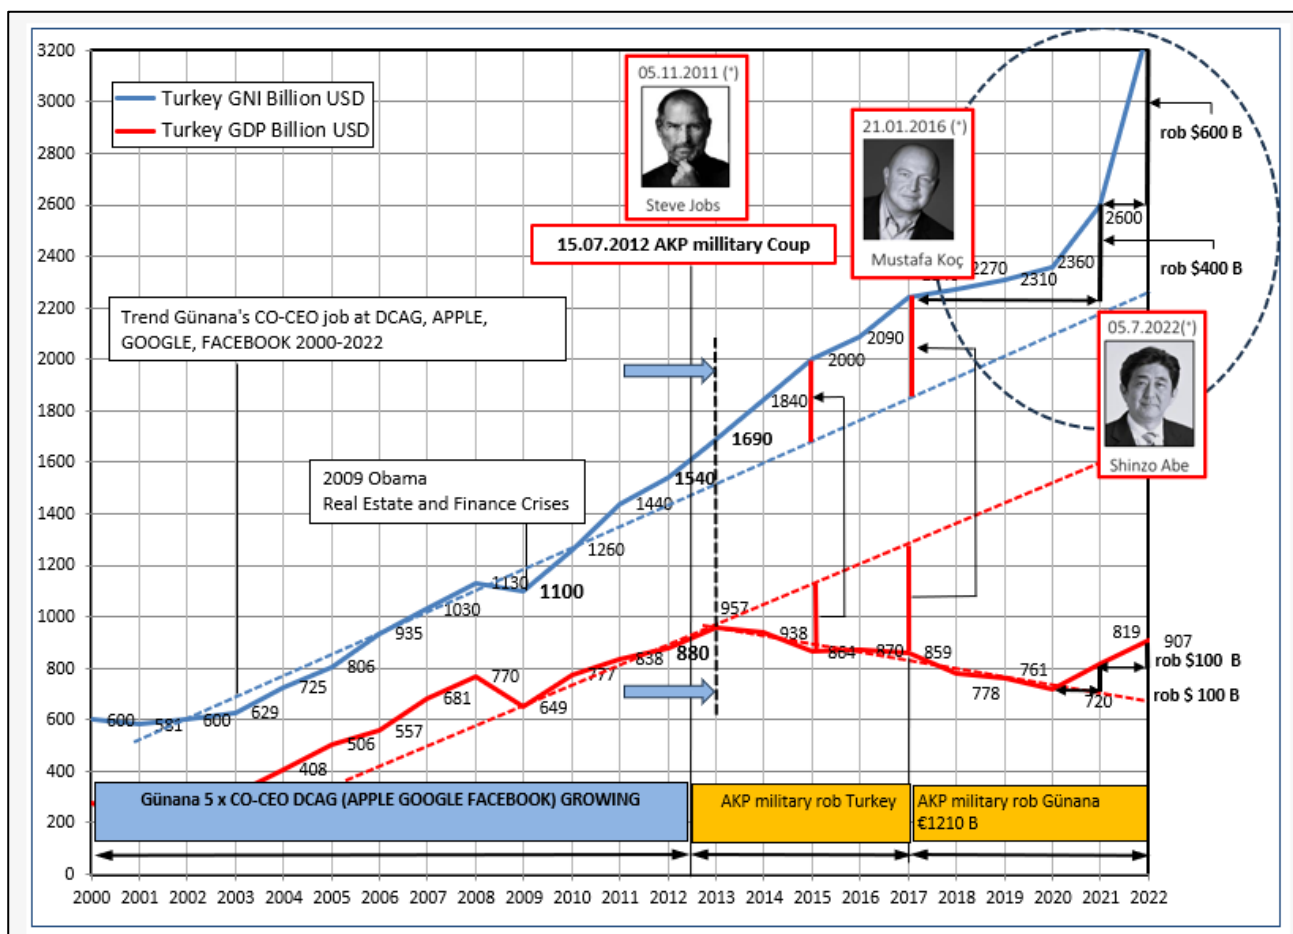

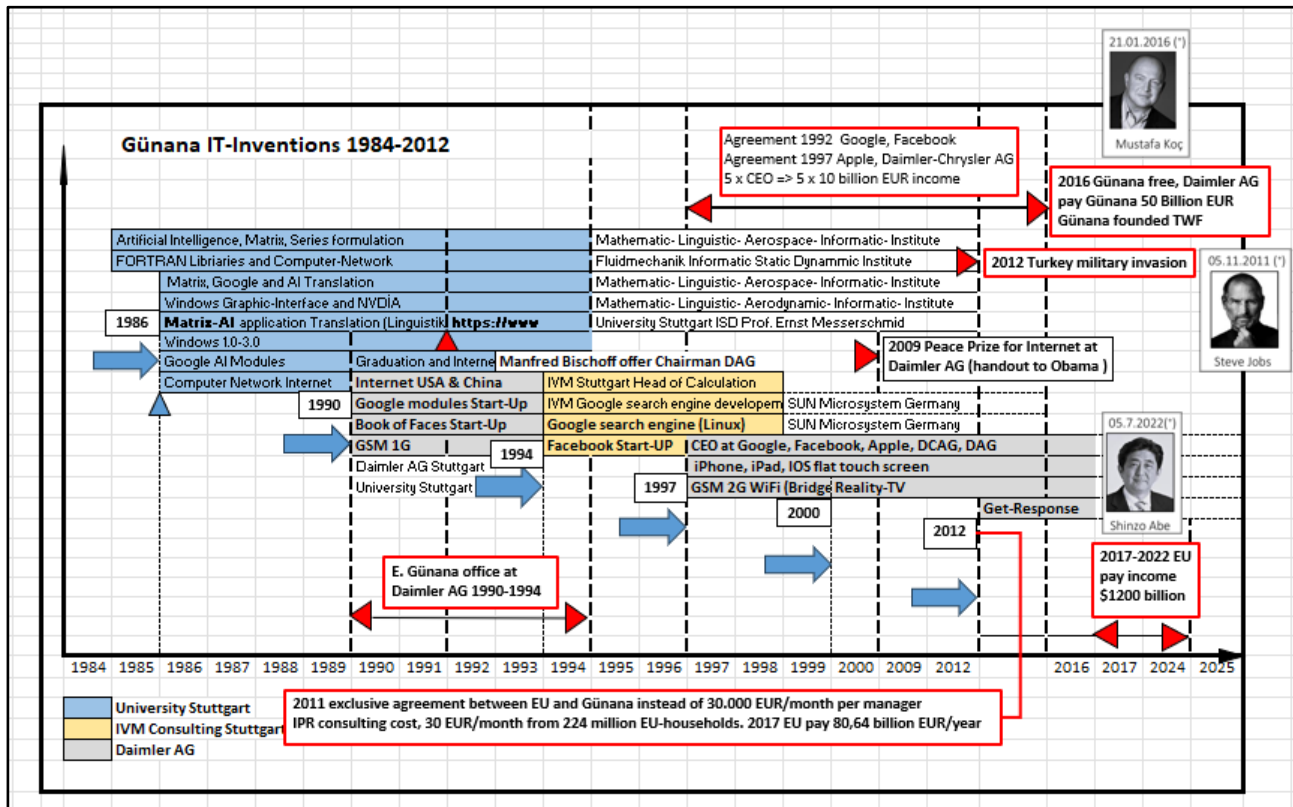

(5) Shinzo Abe 05.07.2022 (*)

Japan President Abe witness of EU agreement with Dipl.-Ing. Günana and witness of Daimler AG, Chrysler Group, Google, Facebook and Apple salary payment. After President Abe (05.07.2022) and Koç die Turkey occupy Günana 50 billion EUR (23.01.2016) and 600 billion USD EU income (23.09.2023) in sum 1200 billion USD (2012-2025) President Abe was partner of Daimler-Renault-Nissan cooperation

Furthermore witnesses

1. Contract Partner

Contract between Dipl.-Ing. Engin Günana, developer and architect of fight jet F014 and AI, founder of Windows, pioneer of Arianne Space Shuttle, Astra Satellite System, Airbus A320 Family, Internet and GSM, Google search engine with AI translation, social media Facebook, YouTube, modern smartphones iPhone, iPad, Samsung, Huawei with flat touch screen, Wi-Fi for iPhone and smartphone office application, Atak Helicopter, E-car TOGG, co-chairman and co-CEO at Google Inc., Facebook Inc., Apple Inc., DaimlerChrysler, Daimler AG

and

Mark Zuckerberg/Meta Platforms, President Donald Trump/USA, Bill Gates/Microsoft Coop., Jensen Huang/NVIDIA, Sundar Pichai/Alphabet (Google), Timothy Cook/Apple, Jeff Bezos/Amazon, President Putin/Russia, Barrack Obama/USA (Nobel Peace Prize 2009), Josef Biden/USA, Rishi Sunak/GB, Investor Berkshire Hathaway/USA, Investor BlackRock/GB

2. Contract Target

2.1 Contract-partners are obligated, act with lawsuits, claims consulting/education cost about 30000-40000 EUR/month during 1998-2022 against Germany, European Union, Turkey and Middle East regarding market condition after European Union Germany and Turkey breached the contract over 13 years without service payments.

2.2 Contract partners are obligated act with lawsuits and claim consulting/education cost regarding economy and finance model and consulting cost to market condition 30000 EUR/month against state and economy against companies, manager, leaderships, experts professionals and politicians in Germany Europe Turkey and Middle East.

3. Contract Partner Participation

3.1 Contract-partners participation amount 95 % of financial claims (Pos 1-5) against debtors European Union and Germany, Turkey and Middle East, according determined economical and financial markets. Engin Günana personal participation amount 5% (min. 10000 billion USD, page 33, 49, 51) with the focus reinvestigation of 50% to contract partners state and industry after Engin Günana's wealth, salary, income and participation (Pos 7-15) archived in USA/Switzerland/Great-Britain and Günana transfer to one of those countries.

3.2 Investigation scope: Industry and modern Technology, AI further development with motives and signs Mars mission with shuttle system and fusion powertrain to remember John F Kennedy and USA Force. Fusion power plants, robotics, autonomy robot and drone systems, autonomy mobility, military technology and self-steer ballistic rockets. Encryption and decryption methods with AI especially motive based Islamic encrypted

methods. Artificial Intelligence, high speed transport system, mobile Internet, cybersecurity, investigation in Infrastructures and construction industry, airports, bridges, universities and agricultures

3.3 Contractors are obliged pay Engin Günana and local government monthly honorarium about 30000 EUR for services from local government to Engin Günana and for IPR services from Engin Günana to local government, bank account: İşbankası Çayırova, Bank Code 2427, SWIFT (BIC) Code ISBKTRISXXX, IBAN TR66 0006 7010 0000 0011 9908 26 address, 41420 Çayırova/Kocaeli Turkey.

4. Legally Statutory of Contract

4.1 Only written contracts at Engin Günana's homepage: <https://www.eq2-tech.com/lawsuits> are valid. Contracts variants and contracts from third parties and third sources aren't valid.

4.2 Contract partners are obligated act with lawsuits and claim open bills, regression against debtors and financial criminals in European Union Germany and Turkey, stop or close court lawsuits and court processes because of small little things aren't allowed.

4.3 Third parties aren't allowed chancel or change contract content or part of contract content, even though of with changing of government and Union justice laws and regulations, in this case lawsuit were transferred immediately automatically to USA justice. The contract is isolated and valid from UN, NATO, Turkey and German governments, laws, rules, terms and conditions.

Engin Günana unpaid bills for consulting/education from German, Turkey, European Union and Middle East regarding market conditions.

4.7 Collection of Dipl.-Ing. Engin Günana European Union income, salary income/pension from Mercedes-Benz Car Group are forbidden, is illegal and complies financial crime and corruption and will be punished. Occupation and prevention of Dipl.-Ing. Engin Günana incomes in contradiction to agreement with European Union and third partners against international regulations are forbidden.

4.8 Turkish- and German government, organizations, United Nation, NATO, companies, military, institutions, parties, alliances and third parties aren't allowed breach agreement from European Union with Dipl.-Ing. Engin Günana, incomes should pay monthly regarding European Union and international income regulation.

4.9 Changing of contract-content, contract partner and contract-scope is forbidden, contract-partner should act in name and interest of Dipl.-Ing. Engin Günana.

5. General Contract Conditions

5.1 Former spouse Melike Çorba have no financial participation rights at IT technology, the inventions and Start-up companies Google Facebook was developed and founded during 1990-1994, iPhone and iPad at 1997-1998 before of Dipl.-Ing. Engin Günana and Melike Çorba marriage in 1998.

5.2 Spouse Melike Çorba was infiltrated in Dipl.-Ing. E. Günana from Turkish national government and Turkish national intelligence agency MIT in function of agent for industry spying and industry crime to occupy Dipl.-Ing. Engin Günana IT-invention and wealth through marriage law and fake evidence.

5.3 Melike Çorba maintained during 1998-2017 regular contact to Turkish national government and MIT for industry spying, industry crime and corruption to steal Dipl.-Ing. Engin Günana IT inventions.

5.4 The foundation reason of AKP in 2001 from German military was for the target to attack USA economy and finance force with terror attack at 11.09.2001 New York Stock Exchange. Accused are RT Erdogan, Beraat Albayrak, Selçuk Bayraktar, former national Intelligence agency chief Hakan Fidan, Erdogan's first Economy and Finance advisor Yiğit Bulut, former economy minister Mustafa Varank, Ali Tekeşin, Melike Çorba and Fevzi Yıldırım, a dialog with this partner is critical they are involved in financial crime. President Erdoğan official statement, you can't get your pension salary, you should murder us.

5.5 Manipulation of contract with fake evidence of video- and audio sequence records collection are mostly prepared from Turkish media and are therefore not valid. Turkish national government control Turkish media completely and support financial crime with preparation contents, among other things. President Erdogan's son Bilal Erdogan, son in law Beraat Albayrak/Albayrak-Media, Selçuk Bayraktar/ASELSAN support and act with media and military.

5.6 Violation of contract claims under changing of contractor's legacy status aren't valid. Violation of contract claims under misusing of contract- content, -target and -conditions with unions, merger, shareholder aren't valid.

5.7 Changing government regulation systems, conditions, laws, rules and terms with forced military intervention (Turkey) or with still force intervention (Stasi Germany) are financial crime, corruption and fraudulent. Money capital, income, salary, payments and participations constraint acquisition are financial crime and fraudulent and will be punished at international justice.

5.8 Decoupling of justice process and regulation under misusing of political decisions through dictatorship, (Turkey 01.04.2017) military, terror, constraint force against Dipl.-Ing. Engin Günana and European Union (EU) agreement are forbidden can't use for process in Turkey and will be punished at international courts.

5.10 Changing of contract content or part of contract content, changing participation, part of participation, income, payments, payment-methods and -process against international regulation are forbidden. Lawsuits will be transferred automatically to international court and US justice.

5.11 Coupling other contract, part of contract, contract condition, part of contract conditions with contract partners laws, rules, terms, conditions and political decisions to breach European Union agreement with Engin Günana stop payments for Engin Günana for consulting services is forbidden and will be punished at international courts in USA.

5.12 Changing of contract-partners, country and Union laws, rules, terms and conditions for fraudulent acquisition of contracts and EU agreements payments to Engin Günana is forbidden and will be punished.

5.13 Misusing contract-partners status quo with false marriage documents, health with fake medical reports, or contract partner with similar persons for financial crime and corruption or misusing contract-partners claims and lawsuits against EU payment agreement to Engin Günana is forbidden and will be punished

5.14 Changing contents of contracts or part of contents, contract-partner, contract-partner conditions or part of contract-partner condition to couple the original contract with sub-contracts, sub agreements between contract-partners governments unions companies and third parties for fraudulent acquisition is forbidden and will be punished.

5.15 Changing of contract scope or part of contract scope over third medium: TV channel, media, social media, verbal formulation, sign formulation is not allowed.

5.16 Misusing of third application with audio video and telephone messages and though dialogs, organized stages meetings over simplicities to fraudulent acquisition for capital crime is not allowed and will be punished.

5.17 Stop and prevention of Dipl.-Ing. E. Günana European Union income, MBCG pension salary, participation and payments from or third parties is not allowed, violating and breach of agreement against international regular income payment regulation and payment process is not allowed, is capital crime and will be punished

6. Completeness of Contract License Agreement

6.1 Contract content describes key points of license agreement between European Union and Dipl.-Ing. Engin Günana, Intellectual property rights and copy rights services of Dipl.-Ing. Engin Günana and European Union regular payments regarding agreement with 224 million EU households with 30 EUR/month

6.2 Contract content describes Dipl.-Ing. Engin Günana consulting and education services, European Union income payment regulation to Dipl.-Ing. Engin Günana. Turkey, Germany and European Union violating of license agreement and breach of contract. Payment agreement with European Union and real market costs of consulting services, replacement resized consulting cost from consulting cost to households cost with enlarging of consumer but with constant high professional consulting/education services for professionals.

6.3 Resized of high consulting/education cost about 30000-40000 EUR/month to low household cost about 30-60 EUR/month through enlarging of consumer from professionals and manager to private households with consistent professional consulting services for professionals but for 30 EUR/month costs with 1000 times more user ($30 \text{ EUR/month} \times 1000 = 30.0000 \text{ EUR/month}$)

6.4 solving and regulation the problem of unpaid business and consulting services, engineering consulting and education services concerning agreement between European Union and Engin Günana regarding market condition after breach of contract from European Union Germany and Turkey, with contract partner and contract content, to market prices and contract scope with application to scope of regions EU Germany Turkey and Middle East.

6.5 Washington DC is obligated handout Dipl.-Ing. Engin Günana Nobel Peace Prize from 2009 or replacement prices and for IT-inventions of 21. century, Artificial Intelligence, Internet, Windows, Graphic Interface Nvidia, GSM, Wi-Fi, founder of IT-codes and IT-standards, co-founder of search engines Google, Yahoo, Safari Yandex, social media co-CEO of Facebook, Apple, iPhone, Samsung and HUAWEI

6.7 Contractor should foundation a private bank in Great Britain for Dipl.-Ing. Engin Günana, transfer and archive 50% of Dipl.-Ing. Engin Günana share asset at Dipl.-Ing. Engin Günana a private bank. Claims from technology companies and share asset should be achieved in Dipl. Ing. Engin Günana bank accounts in Great Britain, valid is only the actual version and scope of contract.

6.8 A legally financial participation of Melike Günana (div. 2017) is cancelled, because of her relationship to secret services in Germany and Turkey with industry spying and financial crime since 1998 and her connection to terror organization Hamas and AKP and Turkish National Intelligence Agency MIT.

6.9 Ali Tekeşin (MIT) Melike Çorba (div. 2017) Göksal Günana (MIT) participation are cancelled because of their membership and agent activities to Turkish military, National Intelligence Agency MIT, President Family Erdogan with the target of industry spying, financial crime and wealth transfer from Dipl. Ing. Engin Günana EU income payments and US IT-Technology participation to Turkish government.

7. Personal status, legally condition of Engin Günana

7.1 Dipl.-Ing. Engin Günana is an independent Businessman with consulting services engineering and education, provide open intellectual property rights / mental ownership rights with 40 years' experience. Project leader since 1984 at Stuttgart University, selected from DaimlerChrysler AG and European Union as economy and finance expert during 2009 real estate and finance crises, create recovery program for Germany Europe and Turkey and applied very successful. Economy recovery program with stationary economy process, With investigation from USA and Middle East in Germany and transfer to this program to European Union foundation Euro Stocks and EuroStock50 decouple European wealth from Dow Jones and Nasdaq with consistent labor market politic.

7.2 Engin Günana is since 10.10.2017 natural legacy person, status single, in pension with 50 billion EUR from Daimler AG, official divorced from Melike Çorba at 21.10.2017 at family court Germany/Böblingen, divorce document: <https://www.eq2-tech.com/lawsuits>. A possible participation and claims from Melike Günana end with the end of divorced at 21.10.2017. Her affiliation to Turkish national agency since 1998 (determined) contradicts her and Turkish government claims against third parties.

7.3 Dipl.-Ing. Engin Günana is the ownership of Dipl.-Ing. Engin Günana intellectual property rights and copyrights. An exclusive agreement between European Union and Dipl.-Ing. Engin Günana secure Dipl.-Ing. Engin Günana European Union income about 80,64 billion EUR/per year for professional business services with intellectual property rights.

7.4 European Union is therefore obligated pay Dipl.-Ing. Engin Günana income regarding exclusive license agreement between European Union and Engin Günana ratified in 2011 with the beginning of 2012 about 80,64 billion EUR/year with the beginning of 2012.

7.5 European Union, governments, unions, companies, shareholders, organizations, military and third parties aren't authorized occupy Dipl.-Ing. Engin Günana income from European Union. Dipl.-Ing. Engin Günana income payments from European Union is regulated with an agreement between European Union and Dipl.-Ing. Engin Günana 2011 for using intellectual property rights and copyrights against EU income payments. Nobody in Turkey is allowed collect use or misuse Engin Günana European Union income, independent from Turkey's political economical financial and society conditions.

7.6 Dipl.-Ing. Engin Günana European Union private user income about 80,64 billion EUR is justified with Dipl.-Ing. Engin Günana open intellectual property rights and copyrights for European Union management and society at state economy and management.

7.7 Changing of Dipl.-Ing. Engin Günana natural legacy person single status from Daimler AG, businessman status from European Union agreement secret and in unknowledge of Dipl.-Ing. Engin Günana with fictive third companies, institutions, persons because of capital crossholding aren't allowed in every condition, this is financial corruption and will be punished.

7.8 Third persons aren't allowed misuse Dipl.-Ing. Engin Günana pension, income, payments and participations through fake marriage documents or other reasons. Misusing of identity card during IT- and government regulation processes and procedures (lost, new, control), is absolutely forbidden. Misusing of identity- and bank cards at bank account customer processes, internet order procedures, digital and manual agreement or equivalents IT-process for financial crime and money laundering is forbidden and will be punished.

7.9 Processes and procedures can't be misused for third contracts in contradiction to homepage <https://www.eq2-tech.com/lawsuits>. with the target of money laundering, investigation, denotation and misusing is absolutely forbidden and will be punished with the hardest laws.

7.10 Breach of contract violating of agreement, -part of agreement contract scope and region of Dipl.-Ing. Engin Günana contract at is forbidden. Third persons aren't allowed breach the contract between European Union and Dipl.-Ing. Engin Günana, changing and misusing of European Union agreement with Dipl.-Ing. Engin Günana, misusing with variants of agreement is forbidden and can't replace the origin contract from homepage <https://www.eq2-tech.com/lawsuits>.

Curriculum Vitae – Project manager 1984 -1994**Dipl.-Ing. Engin Günana University Stuttgart Aerospace-Technology****1984-1994**

Arguments end in deadlock with Engin Günana excellent education and curriculum vitae at University Stuttgart at faculty Aerospace-Technology with Prof. Prof. Prof. John H. Agyris and best connection and cooperation with Mathematic-Institute, Informatic-Institute, Linguistic-Institute founder of and Artificial Intelligence, Matrix, Cube, Internet, Windows, Google modules translation, voice recognition, voice command, maps, navigation, speech to text, text to speech, search algorithm, GSM, Wi-Fi, smartphones.

Dipl.-Ing. Engin Günana Project Manager at University Stuttgart**1984-1994**

Development scope of IT-Invention: AI-Translation Matrix, Cube and algorithm, most complex mathematical methods, AI-navigation, AI-voice recognition and voice commands with new development mathematical series. Mathematical algorithm, mathematical series, reel and complex series harmonic functions and FFT-Transformation first derivation of Fast Fourier Forward Transformation, Galerkin Method etc. Google maps collection, voice recognition with new mathematical series. Text to speech and speech to text recognition at University Stuttgart. Support graduations and promotions at Stuttgart University Informatic Institutes. Unix, Inventor of Internet, Windows, Google AI-modules, social media Facebook, music channel YouTube, smartphone iPhone, GSM and Wi-Fi infrastructure at turntable Daimler-AG Stuttgart, Daimler AG Esslingen. Google and Google search engine surface with Linux IOS at Sun-Microsystem Germany with Andreas Bechtolsheim.

Dipl.-Ing. Engin Günana Theory of AI and Cube University Stuttgart**1984-1994**

Research, development and invention, discretizing languages to word elements (FEM method), mathematical numerical and physical energy methods with local and global Matrix operations coupled with algorithm for orthograph, analytical coupling method with geometry conditions, matrix transformation to series and complex series, derivation of series algorithm and terms for voice recognition. Orthography rules and formulation of hundreds of new mathematical series for response. Coupling word elements to sentences with developed algorithms under using numerical methods and approximation for responses. Sentence generation with algorithm defined in series sum terms and harmonic functions coupled with analytic geometry functions and their derivation for exact and less exact responses. Variability in orthography space to implantation humanity with variability relations elements and coupling with vector analysis and complex numerical methods.

Dipl.-Ing. Engin Günana Project Artificial Intelligence (AI) and Cube**1984-1994**

Engin Günana Aerospace / University Stuttgart	FEM, Physic model, Matrix, Transformation, Coupling
Engin Günana and Team / University Stuttgart	Discretization, Program. Cube Math. series, Algorithm
Engin Günana and Team / University Stuttgart	Element library, orthography, Element Workgroup
Engin Günana and Team / University Stuttgart	Language Element Libraries, Math Model of Orthography
Engin Günana and Team / University Stuttgart	Language Disciplines Element Library Collection

Dipl.-Ing. Engin Günana EDV and Space Technology institute**1984-1994**

Static-Dynamic, Thermodynamic, Fluid mechanic, EDV, numerical methods FEM	
Engin Günana / Stuttgart Institute for Space Technology, Prof. Messerschmid	Arianne Space Shuttle
Engin Günana / Stuttgart Institute for Space Technology, Prof. Messerschmid	Astra Satellite System
Engin Günana / Stuttgart Institute for Space Technology, Prof. Messerschmid	Internet https://www
Engin Günana / Stuttgart Institute Space Technology, Prof. Messerschmid	Mobile Internet GSM 1G
Engin Günana / Stuttgart Daimler AG/ German Military for 900/1800 MHz frequency area	
Engin Günana / University Stuttgart ISD, Prof. Agyris support FEM BEM Magnetic -and Electric Field	

Dipl.-Ing. Engin Günana Project Windows **1985-1994**

Engin Günana and Microsoft Team	Windows 1.0 - 3.0
Engin Günana and Microsoft Team	Windows Graphic Interface
Engin Günana and Microsoft Team	Microsoft Mouse

Dipl.-Ing. Engin Günana - Google AI Modules Development **1985-1994**

Engin Günana Aerospace Technology / University Stuttgart	matrix, cube, sum series theory
Engin Günana Aerospace Technology / University Stuttgart	AI voice recognition complex series
Engin Günana Aerospace Technology / University Stuttgart	AI maps collection GPS coordinates
Engin Günana Aerospace Technology / University Stuttgart	AI navigation, voice command
Engin Günana Aerospace Technology / University Stuttgart	AI algorithm, search algorithms
Engin Günana Aerospace Technology / Sun Microsystem	Google search engine 1. Linux Release

Dipl.-Ing. Engin Günana - Google AI Modules Application **1985-1994**

Engin Günana and Team (C. Batman, G. Ortak, Nergiz)	Google translation, element libraries,
Engin Günana Informatic Institute student graduations	Google program module AI translation
Engin Günana Informatic Institute student graduations	Google program module voice recognition
Engin Günana Informatic institute, student graduation	Google program module navigation

Dipl.-Ing. Engin Günana - University Stuttgart - Daimler AG Office **1990-1994**

Cooperation with Airbus A320, USA and foundation start-up company Google Inc. with AI modules: AI-Translation, AI-Navigation, AI-Maps, AI-ADS with partner Larry Page Sergey Brin, strategy: No commercial distribution and marketing of AI modules in USA but IOP at New York Stock Exchange. Program. 1994 Google search engine in Linux at SUN Microsystem/Germany transfer to USA and go IOP as Google Inc. with Google modules search engine, translation, navigation, maps, voice command with ads income. Increase Google search engine user with free accessories translation, navigation, map, voice command, determine profile couple with ADS for income and support with translation navigation languages and worldwide online markets, at late phase Amazon. Support Google Inc. during 1994-2015 at Daimler AG and until 2024 over social media furthermore. Google Inc. transferred Google Inc. and Google modules to Alphabet Inc. company on 10.08.2015. <https://www.eq2-tech.com/>. A separately rollout of Google modules was not in plane but distribute translation module without AI module to city Leonberg /Germany as appreciate to city Leonberg and called LEO dictionary.

Dipl.-Ing. Engin Günana – Daimler AG 1. Graduation **1990-1992**

Internet development – Cray Supercomputer failure management and Fortran programming at Daimler AG. Diploma graduation at Division Dr. Kern (Dr. Eckert EDV). Task transformation of Multi-Body Element Systems with balance point system to Finite Element Method with grid point system. Project Computer Added System CAS CAC CAD CAM with Finite Element Method FEM, Boundary Element Method BEM, Multi Body System MBS. Support University Stuttgart Aerospace Institute with application to electric- and magnetic-field. Project Internet with UNIX and Netscape application. Connect USA (NASA) with Internet reorganize data with user/group/all and permission drwxrwxrwx. Data management data development data standards and data conventions.

Dipl.-Ing. Engin Günana – Daimler AG 2. Project Internet **1990-1992**

Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	UNIX data standards, codes, conventions
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	UNIX data management, user rights
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	FORTRAN Matrix programming, libraries
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	Cray-2 data management NASTRAN
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	Internet data structures data sharing
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	Cray-2 multi-processor technology
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	Internet connection NASA
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	Rollout Internet USA
Engin Günana / Daimler AG, Division Dr. Kern (Dr. Eckert EDV)	Internet Distribution USA

Dipl.-Ing. Engin Günana – Universität Stuttgart 3. Project Internet **1992-1994**

Engin Günana / University Stuttgart Institute für Kernenergie	Internet Connection China
Engin Günana / University Stuttgart Institute für Kernenergie	Rollout Internet in Asia
Engin Günana / University Stuttgart Institute für Kernenergie	Internet Distribution China

Dipl.-Ing. Engin Günana – Daimler AG Office - Project Airbus **1992-1994**

Engin Günana / Daimler AG	Rollout Airbus A320 Family
Engin Günana / Daimler AG	Rollout Airbus Variants (Boeing)
Engin Günana / Daimler AG	Strategy Start-Up IOP Airbus

Dipl.-Ing. Engin Günana – Daimler AG Office - Project Start-Up's **1992-1994**

Google (Alphabet) Incorporation

Engin Günana, Larry Page, Sergey Brin / USA	Co-chairman and co-CEO
Engin Günana, Larry Page, Sergey Brin / USA	Google modules, business strategy
Engin Günana, Larry Page, Sergey Brin / USA	Stock Exchange IPO
Engin Günana, IVM Stuttgart, Sun Microsystem	Google search engine, Linux 1994

Facebook Incorporation (Meta Platform)

Engin Günana, Mark Zuckerberg	Co-chairman and co-CEO
Engin Günana, Mark Zuckerberg	Google modules, business strategy
Engin Günana, Mark Zuckerberg	Start-Up company Facebook Inc
Engin Günana, Mark Zuckerberg	Stock Exchange IPO

Dipl.-Ing. Engin Günana – IVM Technical Consulting - Project iPhone **1994-2011**

Engin Günana / Stuttgart University flat touch screen and layer technology	1995-2011
Engin Günana, S. Jobs, Apple Inc., Next Inc., AT&T, supplier hardware software	1995-2011
Engin Günana, S. Jobs, Apple Inc. iPhone 1-4, Next Inc. Operating System IOS	1995-2011
Engin Günana, S. Jobs, Apple Inc. iPhone 1-4, AT&T cellular network GSM 2G/3G frequencies	1995-2011
Engin Günana, Apple Inc. iPhone 1-4, WLAN Germany, Wi-Fi USA, IEEE 802.11x	1995-2011
Engin Günana, Apple Inc. iPhone 1-4, Exchange Standards Bluetooth, Airdrop, Apps, Safari	1995-2011
iPhone iPad – Project Office Esslingen	1995-2011
CAD, finger gestures Melike Çorba airport company Stuttgart Tübingertrasse iPhone 4	1998-2002
Engin Günana co-chairman and co-CEO at Apple Inc	1996-2011

Dipl.-Ing. Engin Günana – co-chairman co-CEP Apple Inc **1998-2011**

Engin Günana / DaimlerChrysler AG Division MPB - Project Manager Steve Jobs/Apple	1998-2011
Engin Günana / DaimlerChrysler AG Division MPB - Assistant Dr. M. Bach	1998-2011
Engin Günana / DaimlerChrysler AG Division MBP - Protocol K. Hagemann	1998-2011

Dipl.-Ing. Engin Günana – Co-chairman and co-CEO DaimlerChrysler AG Daimler AG **1998-2011**

Business Program	AI and FEM Program, discretizing structure and coupling part and module strategy Variants strategy reduces variants, increase equal parts, cooperation strategy
Powertrain	cancelling 14 powertrains, realized 4 new powertrains
Passenger cars	Technology SUV GL- and EQ-Line and sportscar strategy new passenger car portfolio
Sport Car	Mercedes-Benz AMG GT
MB Trucks	Transformers design concept new truck design,
VAN	Van powertrain, 0 emission concept
Electrify	0 Emission concepts VAN Trucks

Dipl.-Ing. Engin Günana – Consulting Service Hewlett Packard **1998-2016**

Product Development	Optimizing product portfolio and product printer
Sales Strategy	Printer, first to market (low-cost) profit with cartridges laser and ink-jets
Sales Strategy	Splitting cartridges from RGB to CMY and black, cartridges splitting
Sales Strategy	Diversification product portfolio Laptops, Notebooks, modern phones
Business Strategy	Diversification products, portfolio high quality medical and healthcare products
Business Strategy	Diversification business, software development, IT consulting and IT services
Business Strategy	Diversification business, computer hardware development
Business Strategy	Diversification business, computer software development
Business Strategy	Diversification business, service strategy hardware, software
Business Strategy	Splitting Hewlett Packard Enterprise, Agilent Technologies
Business Strategy	Diversification personal in Hewlett Packard Enterprise, Agilent Technologies

Business Homepage <https://www.eq2-tech.com/>

Homepage <https://www.eq2-tech.com/> describe Engin Günana lifetime IT founder of and IT Technology development in 3 phases

Phase-1 IT-Technology research development and incorporation of Artificial Intelligence (AI) began with student friends Dan and Nicolaus mathematic student from Romania at Stuttgart University, Sabine linguistic student from Germany and proband Yaman Yildirim construction student from Turkey as test person at University Stuttgart 1984/1985.

After higher mathematics I and II. 1985, the basics of AI was mathematical three-dimensional nested matrix operation with 10000 cells, first step for high performance language. Usual citizens use a basic of 2000 words, higher qualified academics until 10000 words. Every word presents a cell. For orthographic couple condition we use vector analysis from higher mathematics and 90° couple conditions.

To consider variants of sentence with mean and sub sentences we use a tolerance phase shift with $\pm 10^\circ$ from 90° vector analysis couple conditions and transfer matrix operation to mathematical series. This genial idea gives us more possibilities with additional singular Terms. Derivation of mathematical series which

describe in first derivation nested matrix operation as a we as first step of nonlinear couple condition transfer to index nutation gives us a genial algorithm with terms in list form necessary for computer added solutions CAS.

For voice and speech recognition we use the same method basic instrument was Fourier Transformation from harmonic functions and derivation first nonlinear exact solution open us windows for correlation terms through measuring. While Google application (Alphabet Inc.) grow we pushed other IT sectors.

The original reason for the Internet was FORTRAN libraries for engineers. Stuttgart University technical institutes had different conditions for different solutions. But every computing case had a minimum one challenge with the same conditions of other Institutes. We start to connect Fortran libraries and subroutines from one institute to another institute and realize Computer-Network Turkish students helped me to realize the challenge of 21st century. Stuttgart Institute for Linguistic, Mathematic, Fluid Mechanic, Informatic, Static and Dynamic, EDV, Students Nergiz and Sisters, Ali Tekeşin, Cihan Batman, Gülay Ortak, Yaman Yıldırım, Nicolaus, Sabine.

Professor John Agyris Institute for Static and dynamic helped us to transfer FEM with other numeric methods to other disciplines FEM variants increase Multi-Body System MKS and Boundary Element Method BEM. Professor Ernst Messerschmid Institute for Space Technology helped us to push mobile Internet and European Union digitalization in common we define GSM-standard and 1G.

Internet was FORTRAN libraries for engineers we connect at first all technical Institute computers afterwards computer centers in Germany and finally USA NASA Cape Canaveral with Daimler AG Calculation Centre in Fellbach in 1990 and Asia with University Stuttgart. For this challenge was

A further development of AI increased after higher physics at static and dynamic institute Stuttgart University we transform word-cells to word-elements and sentence-elements regarding Finite Element Method and mass, bar, triac3 and quad4 elements.

We build first sentence-elements with a rights system and coupled condition and increase our couple condition with spline curves for more complex and variable sentences. We stretched coupled sentence elements with splines curves stretch vector analysis orthogonal condition, accept 5-10° tolerance for sentence variants and approximate with iteration orthography rules to fulfil conditions of speech variability.

Phase-2 IT-Technology research development and incorporation describe the establishment of Internet mobile, Internet GSM Google Application and Social-Media. During graduation we built the Internet data structure with support from Prof. Dr. Bharat Balasubramanian at Daimler AG at division center calculation and simulation with super high-speed computer Cray. It was necessary to split data into three sections of user/group/all to share information over Internet.

We realize a connection with USA and NASA share our computing force and get stars position and information from space. We ordered Institute of Nuclear Energy Systems IKE Stuttgart University to connect Asia with the Internet. IKE secretary helped us to contact responsible people from Asia. A group of Asia students visit me at student campus in Stuttgart Vaihingen Allmandring. North Korea President Kim Yong visit me in Stuttgart Vaihingen Allmandring and wished for technical support during digitalization period of Internet mobile AI Intelligence Social-Media, Google and Facebook

During our IT development Turkey and Germany Eastern National Government get political very active. Eastern Germany and Western Germany build German Union, founder of Terror Groups in cooperation with Turkey and Saudi Arabia. Turkey and Germany founder of Hamas, Al Qaida, Taliban and in late phase ISIS. Germany and Daimler AG German military founder of the greatest Terror Organization AKP with 11 million members in Turkey and attack USA 2001 with terror attack.

600 million Muslims get terrorist, Turkey national government and intelligence agency Turkish military support Germany to attack USA Stock Exchange 2001. Turkey pushed massively Industry spying and in follow industry financial crime with Hakan Fidan, Ali Tekeşin and TİKA. Erdogan Family and Turkey mobilize 80 million uneducated Turkish citizens to speak encrypted called his children Google (Bilal) Serie formulation of matrix operation (Sümeyye) his sur name Re-phone (give iPhone back) Tayyip (prototype Internet).

Turkey published President Erdogan Family as the real founder of iPhone, Google, Artificial Intelligence steal USA with Obama 23 million prognosticate US IT-jobs, send 11 million members of AKP Terror Organization in pension, fill Turkey with Syrian war 12 million terrorists as legionary defense army in sum 23 million Islam legionary army and changed 2012 democracy regulation to dictatorship regulation, use healthcare to kill opponents through disease, military to kill opponents with weapons, Justice to bankruptcy opponents.

IT was the commitment with mathematic institute to describe the word new with existing fundamental theory from Isaac Newton to mathematic genius in history with computer added solutions, numerical solution of higher physics coupled with mathematic and numerical methods for computer added solutions CAS. Finite Element Method FEM, Boundary Element Method BEM, Multi Body System MKS were consequence further developments from infinitesimal increment to discrete difference elements. The beginning of IT revolution.

Last phase of phase 2 IT founder of end with Internet connection to USA Nasa Asia through IKE Institute for nuclear energy with internet protocol <https://www.> published at Daimler AG and University Stuttgart at Space Technology Institute to Professor Messerschmid. I arranged Prof. Messerschmid, 1G, as new mobile standard for mobile internet 1990 and presented this at Daimler AG. Daimler AG gave me the possibility to publish in-house our solution from University Stuttgart.

Regular cooperation at Daimler AG Stuttgart-Untertürkheim during 1990-1994 with the possibility to use Daimler AG infrastructure and provide our IT-founder of and developments: AI-translation AI-navigation, AI-voice recognition and voice command and maps worldwide. We arranged Sergey Brin and Larry Page Google start-up companies with Google with the AI content after Sun Microsystems get the order to develop a search engine with the name Google. Larry Page and Sergey Brin get buy Google search engine from Sun Microsystems, and established Google Inc. at New York Stock-Exchange without cost to customer regarding our commitment. Partner Marc Zuckerberg, founder of start-up company and established Facebook Inc. at New York Stock Exchange.

Phase-3 of IT-Technology research development and incorporation began at IVM engineering Stuttgart Fellbach main client Daimler AG. During regular meetings many different devices were necessary: Camcorder, camera, calculator, notebook, calendar, navigation, video player, fax, personal computer, Email etc. We searched for a better solution. 1994 appear Mark Zuckerberg we decided to push Google Inc. and Facebook at New York Stock Exchange. During our regular meeting at Daimler AG, we get the possibility to realize a new device with multiple functions regarding our working conditions. The beginning of smartphones after Nokia and Ericson controlled the market.

Klaus Hagemann and I searched for a partner for cooperation and found Apple Inc. Steve Jobs came to Stuttgart and present Apple Inc. He was hired from company Next to Apple Inc. for iPhone project. iPhone became the name of our first meeting at Stuttgart Esslingen. Division manager Rolf Klump and leadership Klaus Hagemann were involved. Our first meeting in 1995/1996 with Apple Inc. and Steve jobs end with the beginning of third phase of 21st digital century and Nobel Peace Prize in 2009, but without Barbarian Islam Terrorists consideration. My biggest failure was i believed and accepted Islam as a human religion and Turkish citizen as equal cooperation partner.

Research and Development and Incorporation of: Artificial Intelligence, Cube, Internet, Google modules (translation navigation, maps, voice command search engine), iPhone, iPad, GSM, Wi-Fi, Facebook and YouTube, were the reason and the result of co-chairman and co-CEO function at DaimlerChrysler AG, Daimler

AG, Apple Inc. Google Inc. (Alphabet Inc.) and Facebook Inc. (Meta Technology Inc.). The last step of chairman and world leadership was the qualification at Daimler AG with the result lifetime CEO with the functions Reality-TV and Get-Response Management Function after 2011.

Former Turkish National Agency chief Hakan Fidan, former Economy Minister Mustafa Varank and President Erdogan 1. Economic and Finance Advisor Bülent Yiğit came unexpected and without any invitation in 2011 to residence of Engin Günana at Winnenden make an offer as economy minister. Engin Günana declining offers from Daimler AG director, Turkey minister, EU commission President.

The beginning and end of Engin Günana physical professional careers as regular co-chairman. Get-Response Management Function in combination with Reality function made Engin Günana physical chairman position unnecessary, co-chairman with global economy condition as the next generation of world leadership with Get-Response Management Function start in 2012.

Engin Günana get through same way a Reality-TV Function in 2000 with local management condition at Daimler AG board and Apple Inc. board. Get-Response Management Function in 2012 with global economy finance and management condition with the target to use Engin Günana furthermore for government finance and economy with best education experience and management competence.

Project map of Dipl.-Ing. Engin Günana 1984-2023

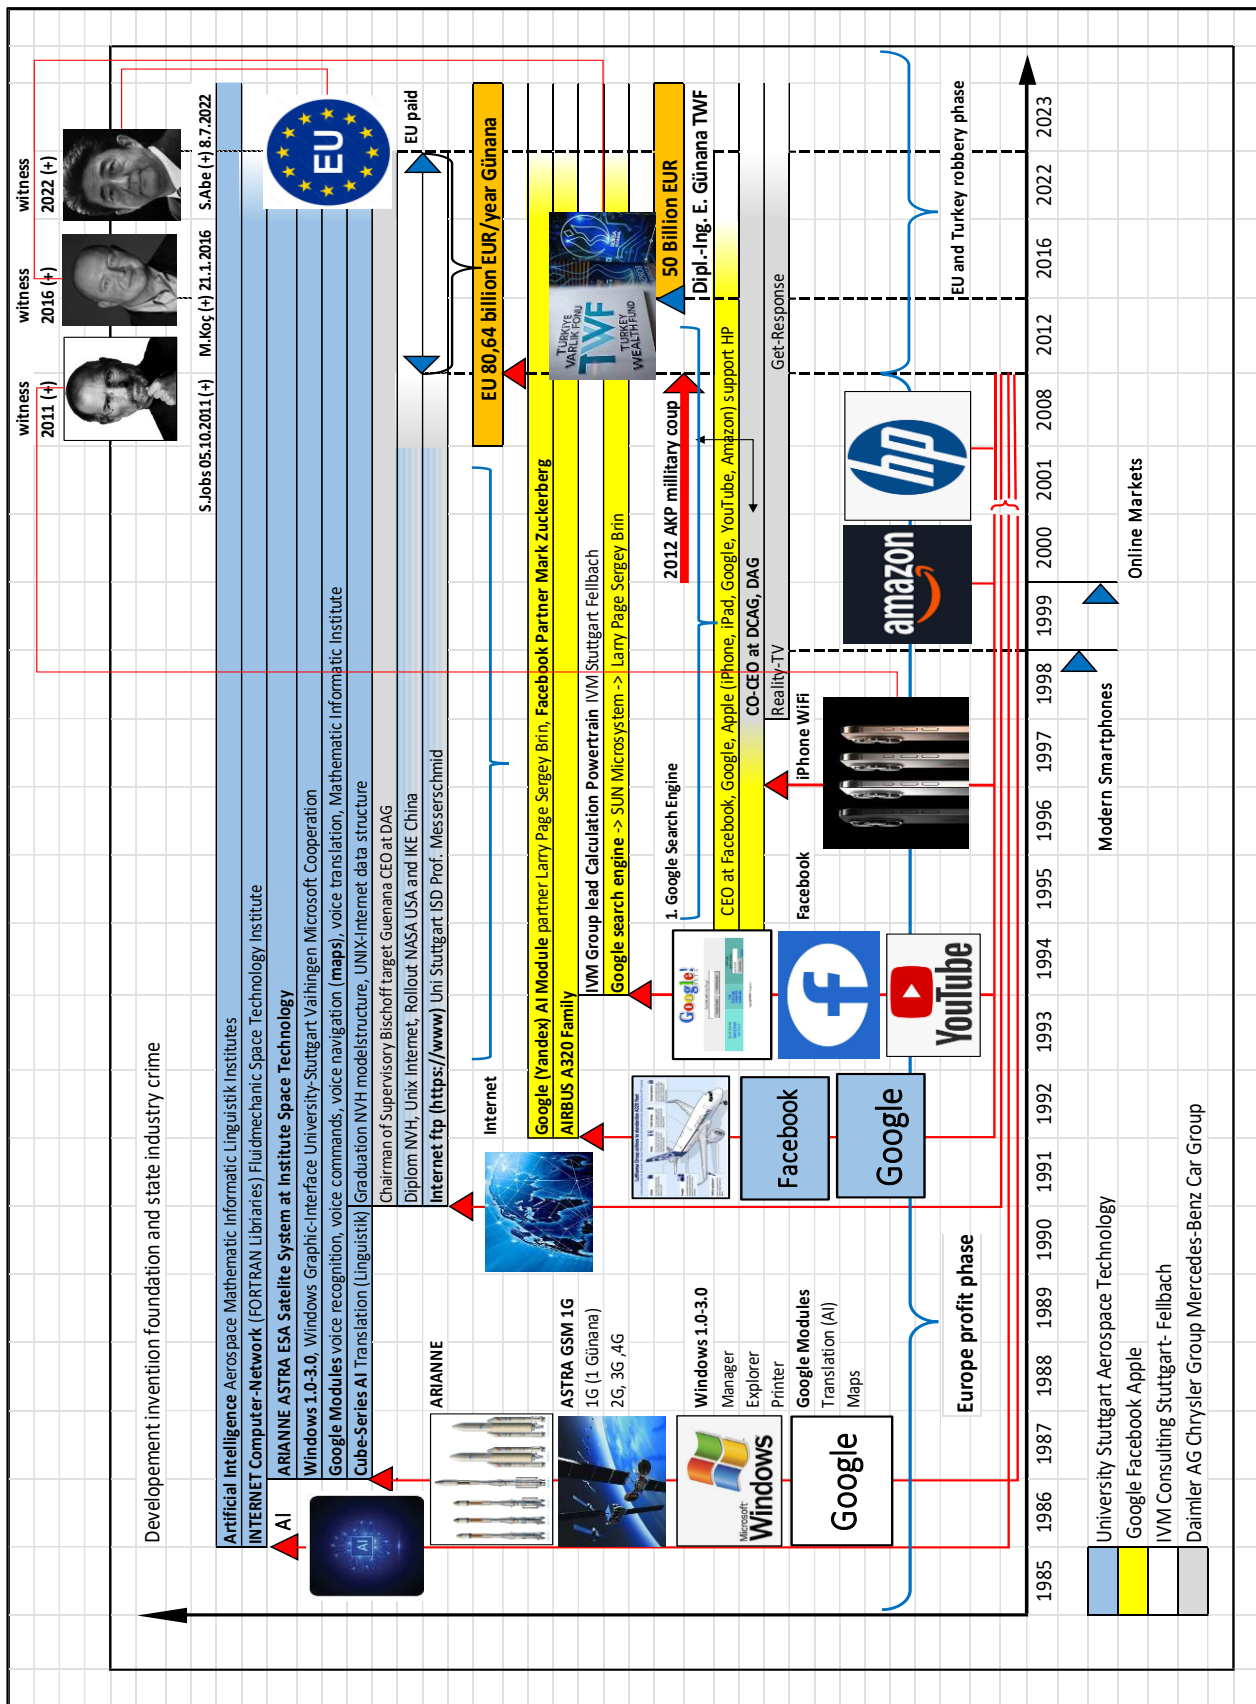

Chart 1: Timeline Dipl.-Ing. Engin Günana IT- Technology invention and foundation

Agreement of European Union with Dipl.-Ing. Engin Günana

An exclusive license agreement from 2010/2011 between the European Union and Dipl.-Ing. Engin Günana regulate violating of Engin Günana intellectual property rights and copyrights rights, with agreed med. operation and installation of spying modules for consulting/education services of multiple European Union and Turkish politician and manager with professional management competence and expert knowledge with the beginning of 2012, with resized cost model from 30000 EUR/month consulting cost for manager to 30 EUR/month for 224 million European Union households (incl. Great Britain)

Professional consulting/education cost for politician and manager for 30000 EUR/month was reduced with enlarging of 224000 Daimler AG professionals to 224 million European Union consumer and households with consistent high professional consulting engineering and knowledge during private households and consumer profit from general education and knowledge, politician and manager profit from high quality of intellectual property rights.

The business concept is, pay low cost for professional consulting/education about 30 EUR/month (resized from 30000 -40000 EUR/moth) to push European Union Turkey manager and politician to the best of best and let 224 million household participate free from professional consulting and education.

Research and Development Phase of IT / University Stuttgart

1984-1990

Technology Phase: Research and development of Artificial Intelligence, discretized of languages, developed languages element libraries, filled to 3- dimensional matrix describe in mathematical series, researched and development of mathematical series for language orthography rules, creating of language orthography couple conditions with orthogonal condition in Matrix with condensed solution for response interaction dialog with computer through voice recognition, definition of new harmonic sum function for voice recognition. AI first release 1986 limited to academic disciplines (data).

Development of Network connections, connect libraries from University Institutes Stuttgart than rollout in German Universities and during graduation 1992 to NASA/USA and Pekin/China rollout worldwide in USA and ASIA. Research and development Windows Graphic Interface, Microsoft Mouse and Windows OS 1.0-3.0. (mask to DOS). Research and development data structures with UNIX for data sharing with admin rights, group rights and user rights. Research and development data formats codes notation extension, definition from graphic formats.

IT Market and Stock Exchange roll out Phase / Universität Stuttgart, Daimler AG, USA

1990-1998

Research and development and definition from Technology Standards creating from Aerospace, Skynet- and IT Technology with ARIANNE Space Shuttle, ASTRA Satellite System and GSM standard. Research and development and definition from Airline fleet Airbus A320 family. Cooperation and developed and foundation with US company Microsoft Windows, Microsoft mouse and Graphic Interface. Cooperation and foundation with Larry Page and Sergey Brin Joint venture Google Inc. with Google application modules: Google Translation, Google Maps, Google Navigation, Google search engine and Gmail. Cooperation and foundation with Mark Zuckerberg Joint venture Facebook Inc. and social media, YouTube, with Germany Wikipedia groups Developed of automatic mesh programs and generators Medina Pre- and Post, multi-processor Technology with Debbis.

From Günana successful Apple Inc. coop. to Dr. Zetsche DCAG merger failure**1998-2012**

Research, development and cooperation with Apple Inc. North Korea, China and roll out modern smartphones, iPhone, Samsung and Huawei, challenge development of flat touch screen with finger and gesture-based operating system, a mile stone and quantum jump in computer operating systems we personal computer to pocket IOS (basic UNIX, C, C+ and C++) with UNIX data structure (Internet server generation). Education of manager with Artificial Intelligence application in product and process. FEM and Matrix operation transform matrix operation matrix condensation and element operation to passenger car truck and VAN area couple mechanical identical structures changes process increases equal parts reduce variants couple surface with design. Motivation and interdisciplinary and presentation course to manager general manager and directors.

Professional inhouse consulting and education to 224000 Daimler AG manager transfer to German industry and economy cooperation with European Union, Charles Michels, Tim Cook, Satya Nadella, Ronald about German society and unitization. Agreement with European Union, with resized high consulting and education cost about 30000-40000 EUR/month from 224000 Daimler AG employees to 30-60 EUR/month with 224 million private users with the idea let private user pay less monthly cost to Dipl.-Ing. Engin Günana with providing of Dipl.-Ing. Engin Günana intelligence and intellectual property for manager and get benefit from high quality usable products

Conditions for multi- consulting and education

Operation and installation of spyware for audio video and thought recognition was condition an done in 2000 and 2011. Audio-Video interaction and recognition functions active in function of co-chairman at 5 companies with Reality-TV Function during 1998-2011, thoughts interaction and recognition for managers, experts, leaderships and professionals with Get-Response Function during 2012-2016. Both function secure knowledge and competence transfer to business manager and consumer, complex thoughts interaction for experts, manager and professionals per Get-Response with complex themes through interaction and recognition with open intellectual property rights and requirements for management and households.

Background was Dipl.-Ing. Engin Günana inventions and development branches Aerospace and IT-Technologies: ASTRA Satellite System, Airbus A320 Family, F14, Atak Helicopter, E-car TOGG and Artificial Intelligent, Cube, Matrix Windows, Internet, GSM, Google, Facebook, YouTube, smartphones, Samsung, iPhone, iPad, Wi-Fi, and function of co-chairman and co-CEO at 5 companies Google, Facebook, Apple, DaimlerChrysler AG and Daimler AG and 2 start-up companies Google Inc. and Facebook Inc. An Economy about 600000 – 700000 billion EUR grow since 1990 Rothschild and Lagarde calculation with Aerospace Technology and ARIANNE transport systems, ASTRA satellite system, digital- and IT-Technologies. European Union, Turkey and Middle East were participant of economic and financial growing and profit.

Parallel Business Concept IPR

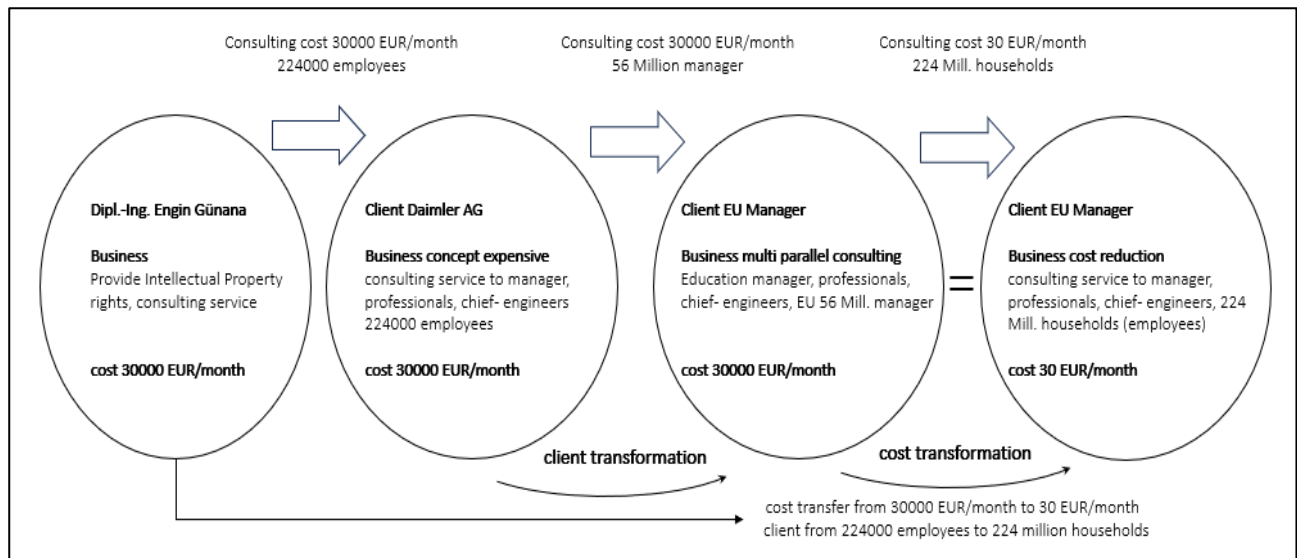

Chart 2a: IPR Business and Consulting services concept

EU agreement with Dipl.-Ing. Günana for consulting services with IPR

Classic consulting cost from customer manager about 30000 EUR/month were transformed from manager to private households. Basic of transformation model was 224.000 Daimler AG professionals (2010) and consulting cost 30000 EUR (2010).

Transformation consulting cost 30000 EUR/month 224000 employees → consulting cost 30 EUR/month
 Result: win/win → 56 million managers, (224 mill. households) service to managers, benefit to household

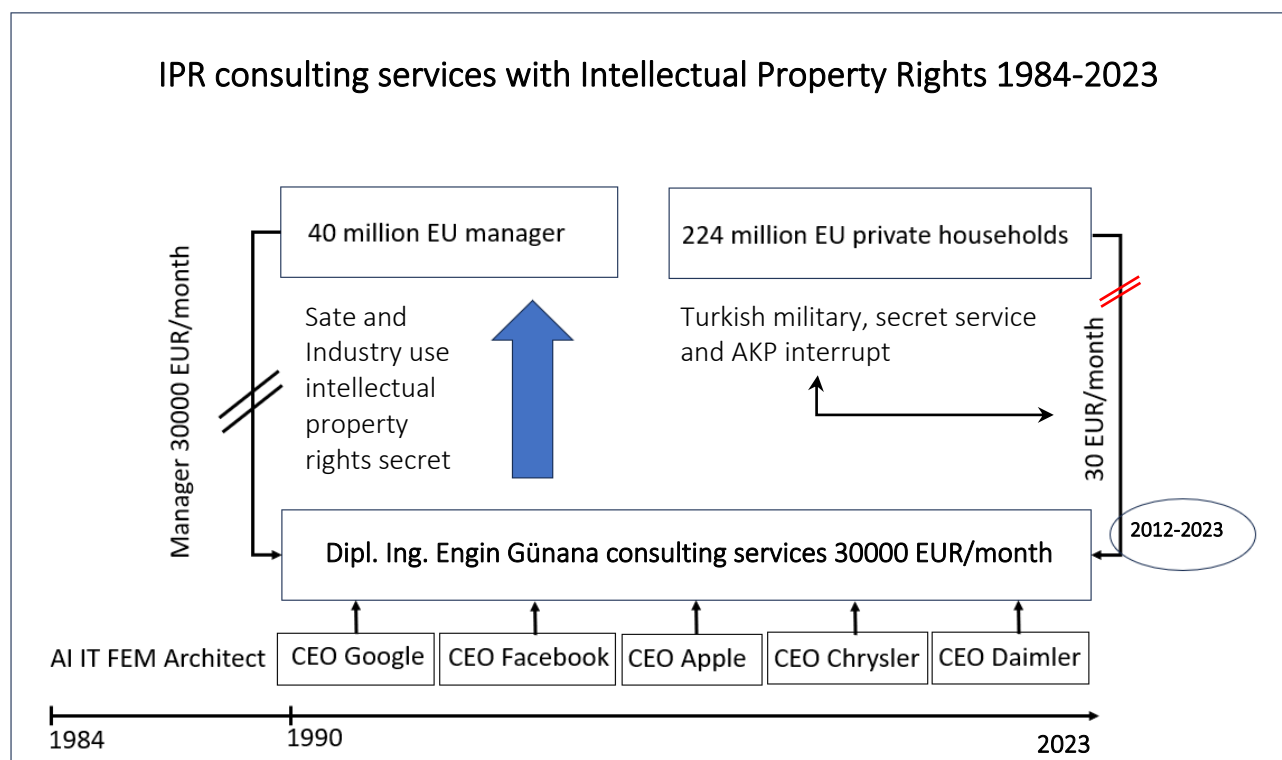

Chart 2b: Consulting services to EU Turkey and Middle East Management and income prevention from military

Breach of contract – European Union Germany and Turkey

But Turkey, Germany and European Union compromised the exclusive license agreement between European Union and Engin Günana from 2011, initialized 2 wars, Syrian civil war 2011 and Ukraine-Russian war 2014, realize 20 million displacements (refugees) for EU labour market and began 2012 extortion Dipl.-Ing. E. Günana with Eastern German STASI and Turkish National Intelligence Agency to steal European Union income about 80,64 billion EUR per year.

Turkish government and Erdogan steal in process of EU agreement Dipl.-Ing. Engin Günana pension salary as bridge solution in 01/2016, which were send from Daimler Benz Bank to Turkey with foundation of Turkish Wealth Fond with an asset of 50 billion EUR.

Turkey, Germany and European Union compromised since 2012 Dipl.-Ing. Engin Günana exclusive agreement with European Union therefore we resize our transformed household fee model to real market condition for consulting and education to 40 million business managers with 30000-40000 EUR/month consulting cost since year 1998 to real market condition.

European Union Germany and Turkey breached the contract from European Union to Dipl.-Ing. Engin Günana Turkish government occupy over Germany and USA Günana wealth about 1200 billion USD.

Military parallel corruption concept (Berlin Ankara)

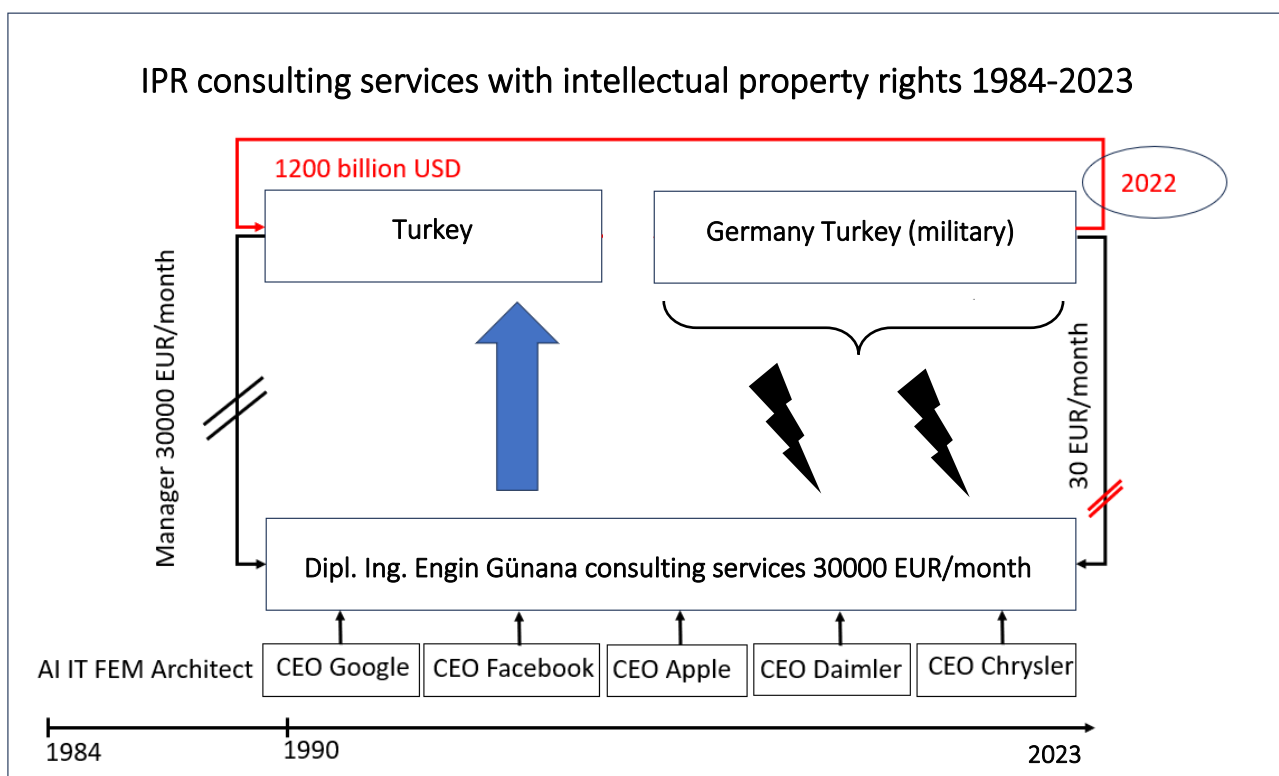

Chart 3: Consulting services to EU Turkey and Middle East but financial crime from Germany and Turkey

During calculation of expert consulting and education for professionals we determine an antisymmetric political development from EU and Turkey, at same timeline we find couple condition between Dipl.-Ing. Engin Günana professional career, financial situation and US economy, labor market and export import balance. Analysis of US-economy and US-finance since 1990 we find the following facts: Destroyed 30 million US IT-jobs with terror groups since 1990, terror attack to New York Stock Exchange 2001, Real Estate and financial crises

in 2009 and corona virus impact to labor market with lost jobs in sum about 30 million with a realized damage about 170000 billion USD in USA during 1990-2022.

Added to these developments Turkey and Germany are responsible for worldwide 7 million deaths, humans with capacity and experience through artificial virus corona during 2019-2022. Worldwide death process went ahead with Islam Terrorists in Turkey and Germany fascists in Germany with genetic designed and chemical elements added agriculture food and drinks. Actual developments show massive problems with the agriculture supply of western managers and civilians.

Former spouse of Dipl.-Ing. Engin Günana, Melike Günana was identified as an infiltrated Turkish agent to Dipl.-Ing. Engin Günana life, because of industry crime from Turkish national government and Turkish military to spy and transfer AI, IT-Technology, foundation and invention to Turkey, Germany and EU. Therefore, a legally financial participation of Melike Günana (div. 2017) is accordingly eliminated. Result of financial claims of Dipl.-Ing. Engin Günana should be protected in Great-Britain/USA. Valid are only the actual contracts.

Military parallel corruption concept Visible discrediting and mobbing 11 million AKP society and Turkish Media parallel IPR crime and corruption from Turkish management through using of intellectual property rights

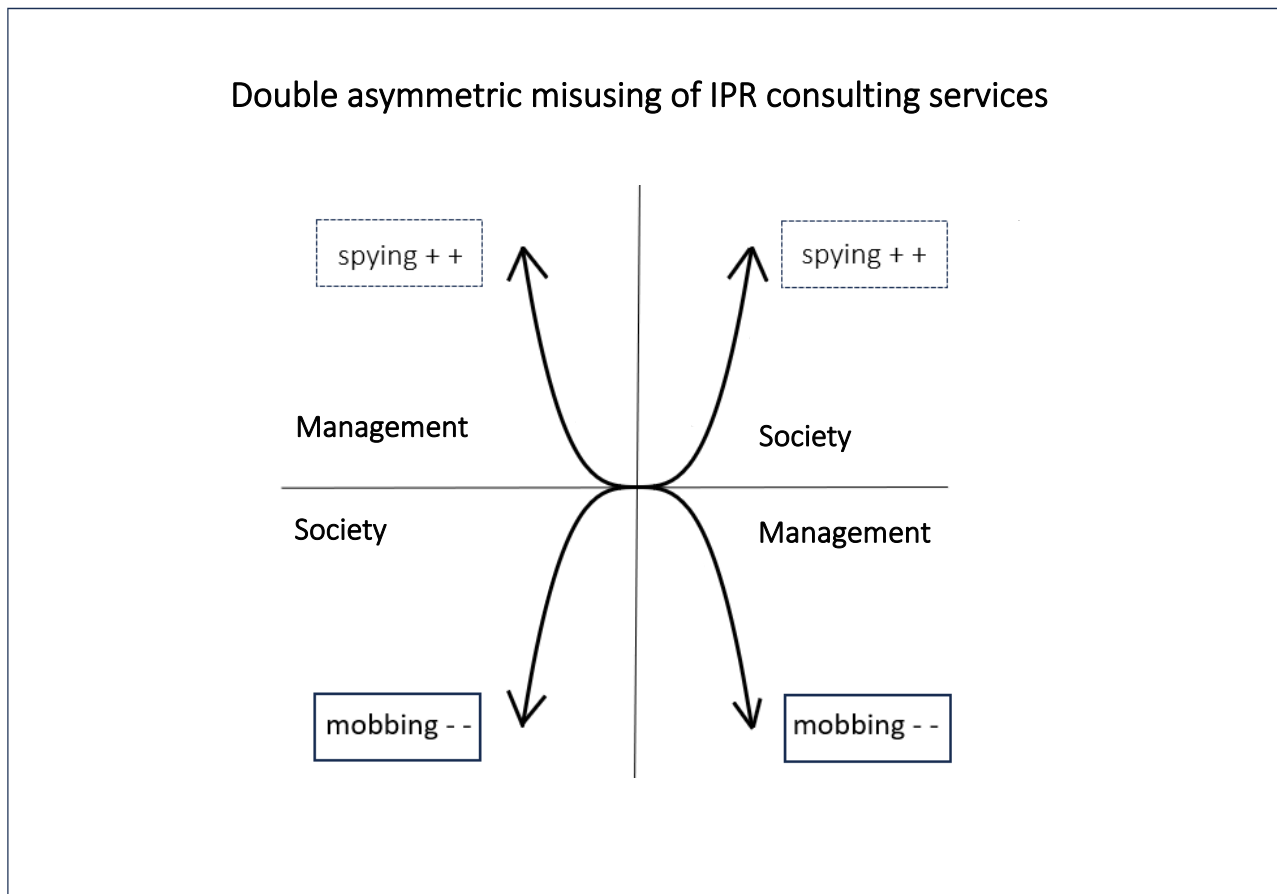

Chart 4: Consulting services to EU Turkey and Middle East and corruption through mobbing

Industry sector passenger car and construction

Experience at IT-Founder of and development manager in IT-Projects: Artificial Intelligence, Internet, cube, matrix and string theory with speech discretization and coupling with orthogonal condensation methods, fast Forward Fourier transformation for voice recognition with Intercultural competence and partners integration in Google (module) between 1984-1992. Connecting Internet with international projects and partners to USA and Asia and finally iPhone project 1997 with Apple Inc. was the initial reflection of Daimler AG Chrysler Inc. merger 1998.

Real Estate Financial Crises risk merger model and Chance Management. Regarding Manfred Bischof offer at 1992 during graduation and Internet development, Board of Management and supervisory Board Daimler AG ordered Dipl.-Ing. E. Günana to lead DaimlerChrysler AG after merger crash 1998.

DaimlerChrysler AG agreement to Dipl.-Ing. Engin 1998 after merger crash

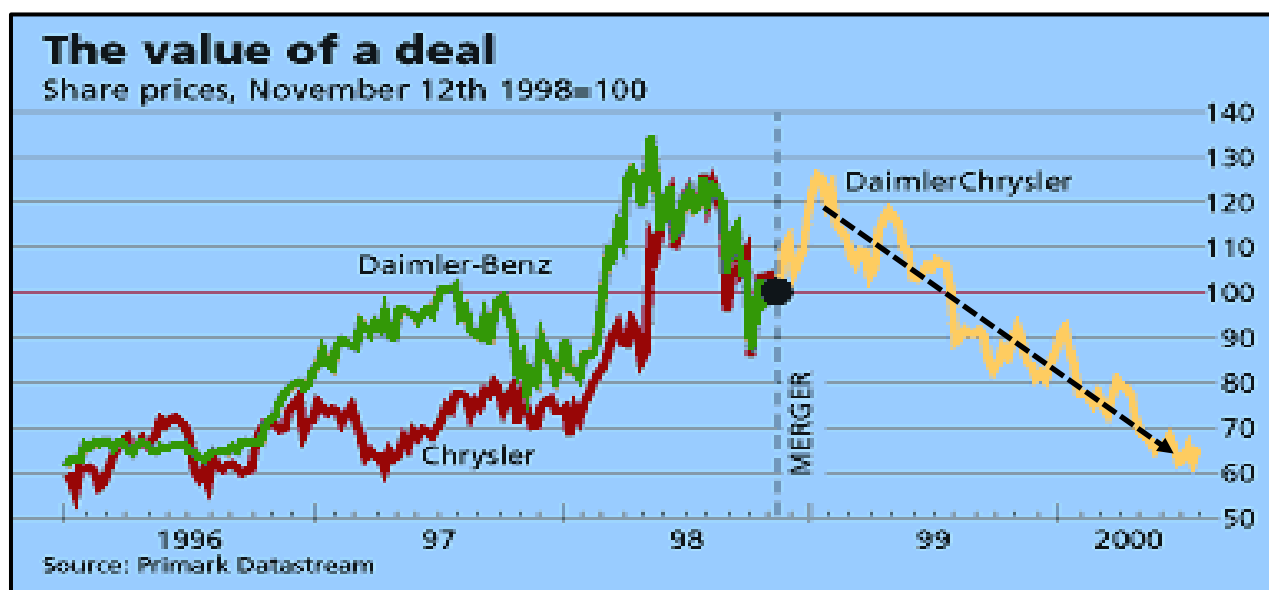

Chart 5: DaimlerChrysler AG merger, stock exchange crash and Dipl.-Ing. Engin Günana appointment to co-CEO at DaimlerChrysler AG 1998-2022

EU Turkey and Middle East state and economy get since 1986 AI (Artificial Intelligence), IT (Intelligence Technology) and FEM (Finite Element Method) consulting and education in interdisciplinary faculties Space Technology with Ariane space transporter, cooperation with USA and Russian, Astra Satellite System for European Union, European Space Agency ESA, space craft and space transporter industry Airbus. Introducing of more valuable cooperation business model Daimler-Renault-Nissan (Günana) in competition to high-risk merger DaimlerChrysler AG (Dr. Zetsche). Young fresh passenger car portfolio in competition to old boring passenger car and truck model.

Multiple intellectual property rights services from Brussel to Dubai

Services scope of intellectual property rights with sized consulting cost model. IT sector, passenger car, aircraft, military, truck, vans, construction industry, space industry, household industry, state and economy procedure processes and methods at management

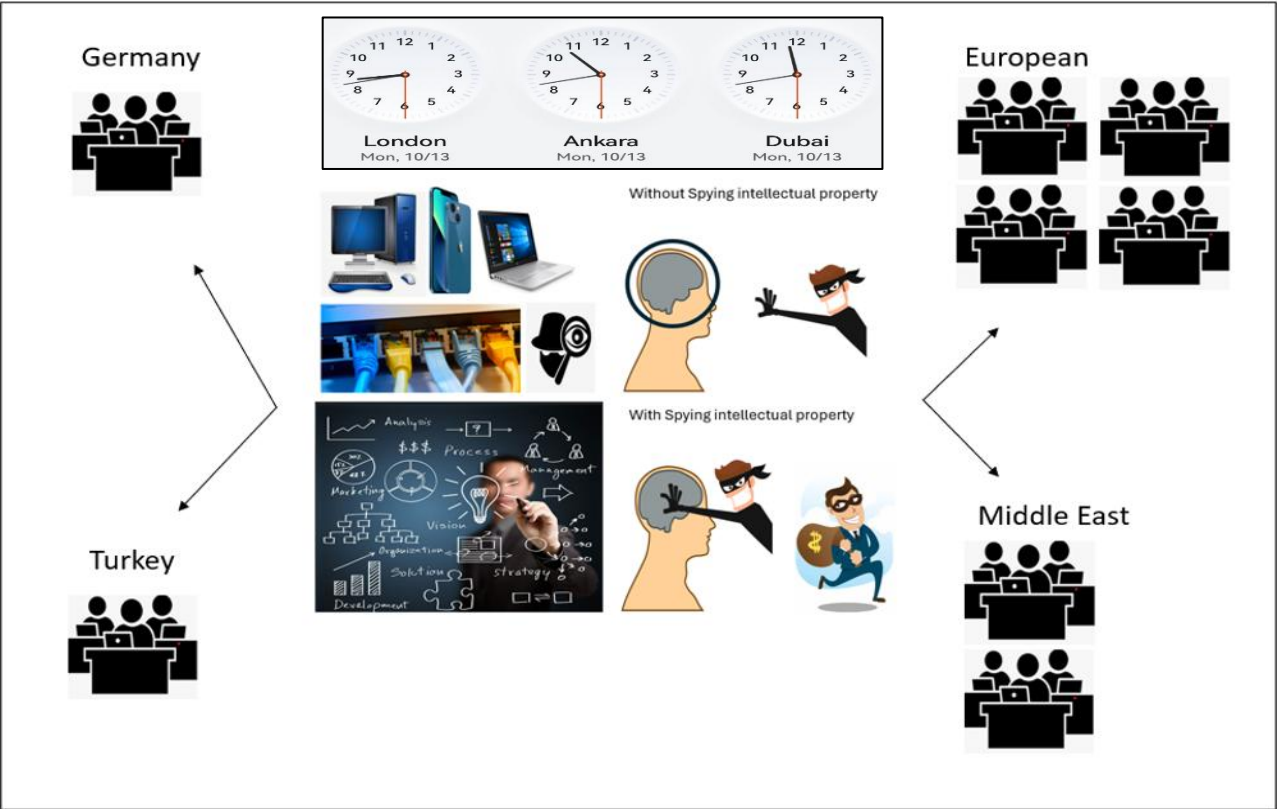

Chart 6a: Dipl.-Ing. Engin Günana Multiple IPR services <https://www.eq2-tech/com>

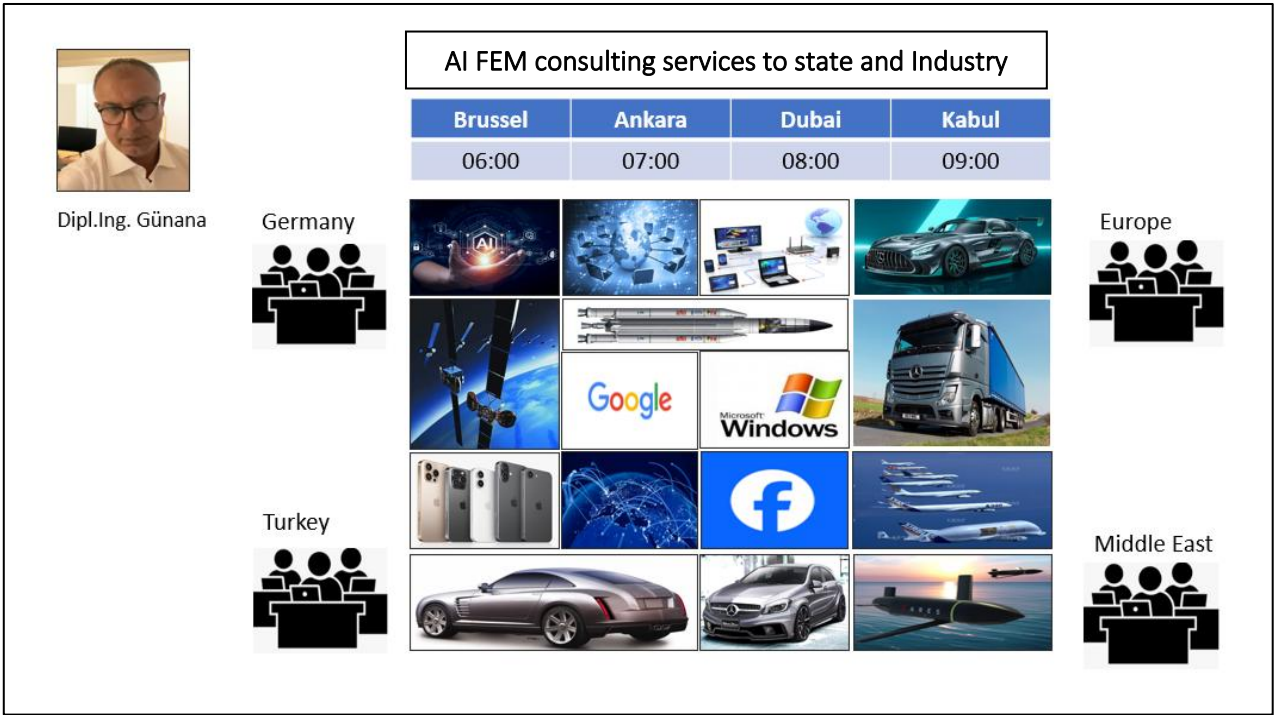

Chart 6b: Dipl.-Ing. Engin Günana consulting services <https://www.eq2-tech/com>

Recovery Program for Germany and Turkey 2009

Rettungsprogramm für Deutschland Europa und Türkei 2009

Das Entwicklungsprogramm für Deutschland, Deutsche Türkische und Europäische Unternehmen wurde im Vorfeld der Unternehmensberatungsleistungen für Deutschland Europa und Türkei im Jahre 2009 umgesetzt. Im Folgenden sind Schlüsselinvestitionen und wichtige Beteiligungen in Unternehmen in der Immobilien- und Finanzkrise aufgelistet.

Um die Immobilien- und Finanzkrise zu überwinden und aus der Talsohle wieder herauszukommen wurde der Ansatz Aufrechterhaltung des stationären Wirtschaftsprozesses mit Kapitalfluss Warenfluss und Stabilisierung des Arbeitsmarktes gewählt.

Notwendige Bedingungen für die Erholung der Wirtschaft sind Kapitalkräftigen ausländische Investoren für Investitionen, staatliche Investitionen und Beteiligungen für die Steuerung und Erhaltung des Geldflusses, die Erhaltung der Arbeitsplätze, um den Arbeitsmarkt und das soziale Gefüge der Gesellschaft zu erhalten die Produktion und den Warenfluss zu stabilisieren.

Hinreichende Bedingung sind Kontrollmechanismen für angeschlagene Unternehmen und Banken einführen, den Warenfluss mit Anpassung (Senkung) der Preise zu steuern. Investitionen und Beteiligungen bieten nicht nur Risiken, sondern auch Chancen für Unternehmen und Investoren und Staat nach Beendigung des ökonomischen instationären Wirbels, höhere Profite zu erziehen.

Es gilt das Überwinden der Talsohle, die entkoppelten ökonomischen Prozesse in der Krise durch Geldpolitik (Erhöhung der Geldmenge in industriellen Anwendungen) konstanten Warenfluss durch Erhaltung der Produktion Arbeitsplätze Preise und durch Subventionen und Prämien das Einkommen aufrecht zu erhalten oder gar zu steigern, um den Konsum zu stärken. Um aus der Talsohle des Absatzmarktes in der Finanzkrise herauszukommen, benötigen robuste deutsche Unternehmen für stabile Prozesse Steady-State Prozesse

Notwendige Bedingungen sind finanzkräftige ausländische Fonds und Investoren müssen den Geldfluss auf konstantem Niveau zu erhalten, bedeutet finanzielle Investitionen und Beteiligungen in Unternehmen und hinreichende Bedingung zukünftige Profite bei Erhaltung dem Arbeitsplätze und Warenfluss. Wenn notwendig auf die Halde produzieren oder weltweit Preise senken vertreiben nach der Talsohle Preise wieder anheben. Investieren, um einerseits den stationären Zustand des Betriebes aufrecht zu erhalten und andererseits zukünftig höhere Gewinne erzielen durch Optimierung der Randbedingungen in der Krise.

Beteiligungen in von der temporären Finanzkrise angeschlagene Unternehmen sind Zukunfts-Investitionen, da die Wirtschaft im Grunde gesund ist, sich aber in der Turbulenz eines instabilen ökonomischen Prozesses befindet, eine profitable win/win Investition für die Zukunft.

Beteiligungen ausländische Investoren in deutschen DAX 100 Unternehmen

Investitionen und Beteiligungen in robuste gewinnträchtige deutsche DAX 100 Unternehmen wurde entsprechend eines vorgestellten Konzepts übernommen. Entsprechend stiegen die ausländischen Investitionen in deutsche DAX 100 Unternehmen. Betrachtet man die Zusammensetzung der Beteiligungen der Börsennotierten DAX 100 Unternehmen, so erkennt man schnell, dass seit 2005 ausländische Investitionen und Beteiligungen in DAX 100 Unternehmen zugenommen.

Beteiligung des Emirats Katar bei Porsche AG

Die Beteiligung des Emirats Katar bei der Porsche AG war überraschend schnell, innerhalb von kurzer Zeit wurden das Maßnahmenpaket für die Stabilisierung des ökonomischen Prozesses mit entsprechender Würdigung schnell übernommen. Wirtschaft und Gesellschaft waren über Bedeutung und schnelle Umsetzung des Konjunkturpakets für interdisziplinäres Fachgebiet Wirtschaft und dessen Wirkung sehr überrascht.

Das Konzept den Warenfluss and Geldfluss, eines durch die Immobilien- und Finanzkrise reduzierten ökonomischen Prozesses mit langfristigen Investitionen von finanzstarken Ländern aus dem Nahen Osten, Beispiel Katar, Saudi-Arabien und Abu Dubai des ansonsten robusten Deutschen Unternehmen während der Immobilien- und Finanzkrise zu stabilisieren war überaus erfolgreich.

Eine über die Epochen relativistische Finanzkrise von temporärer Singularität bietet Chancen für höhere Renditen durch Neubildung Bewertung und Optimierungen der Prozesse in der Krise und infolgedessen Chancen für höhere Profite für Investoren und deutsche Unternehmen. Die Beteiligung von Investment BlackRock bei Daimler AG ist ein hervorragendes Beispiel für erfolgreiche Investition während und nach der Finanzkrise. Der Prozentsatz von internationalen Investoren am Unternehmen Daimler AG ist seit der Finanz- und Immobilienkrise zu mehr als 60% gestiegen.

Einstieg der deutschen Regierung bei der Commerzbank AG

Ein weiterer Meilenstein war der Einstieg der deutschen Regierung beim angeschlagenen Commerzbank AG mit einer Beteiligung von 25%. Eine Beteiligung von 25% sichert Stimmrecht bei Vorzugsaktien und schützt bei Übernahmen durch ausländische Investoren beim Aufsichtsrat und bietet gleichzeitig die Chance für Regulierungen für eine höhere Absicherung bei Risiken von Finanzinstrumenten wie z. Bsp. Leerverkäufe und Zertifikate mit Hebelwirkung. Hieraus ist der Stresstest und die Eigenkapitalquote von 20% bzw. 25% für Banken entstanden.

Förderung des Fahrzeugabsatzes durch eine Abwrackprämie (Handel)

Die Idee der Abwrackprämie in der Finanz- und Immobilienkrise war ein Instrument, dass von der deutschen Regierung sofort übernommen wurde, welches sich beim Wohnungsbau mit einer Wohnbauprämie seit Jahren angewendet bewährte hatte.

Bau und Ausbau von Windkraftenergieanlagen (Energieinfrastruktur)

Änderungen in der Phase von instationären instabilen ökonomischen Prozessen bringen Chancen für operative Eingriffe und Neuinvestitionen, die die Weiterentwicklung und der Ausbau von Beispiel Windkraftenergieanlagen im Schwarzwald und Schwäbischen Alb ermöglichen, war eine einzigartige Neuausrichtung im Sektor Energiewirtschaft für Deutschland und der Türkei.

Bau und Ausbau und Weiterentwicklung von Schnellbahnen (Verkehrsinfrastruktur)

Der Ausbau und die Weiterentwicklung von Schnellbahnen im deutschen Schienennetz durch eine Integration einer mittleren Schnellbahn mit einer optimierten Anzahl von Personenförderung und entsprechender Anzahl von Waggons in regionales Schienennetz. Hierdurch ist die Einführung der Schnellbahn Go-Ahead entstanden.

Investitionen in IT-Technologie und IT-Infrastruktur (IT-Infrastruktur)

Um die deutsche Wirtschaft für die Zukunft besser zu positionieren, bieten staatliche und ausländische Investitionen im Bereich IT-Infrastruktur und IT-Technologie, Chancen für Arbeitsplätze und sind gute Voraussetzungen für Unternehmen, die sich in der vernetzten digitalen Welt im Benchmark besser

positionieren wollen. Die Türkei hatte diesen Vorschlag schnell und unbürokratisch umgesetzt ist im Bereich Mobilfunk vom Standard von 4G Standard auf 4,5G umgestiegen.

Zusammenführung von Schulen und Erhöhung der Chancen und des Potentials durch Vielfalt

Die Zusammenlegung der Hauptschule und Realschule zur Werksrealschule legt die Idee der Gleichberechtigung im Jugendalter zugrunde. Dabei wird der Standpunkt vertreten, dass Kinder nicht bereits mit 10 Jahren getrennt werden dürfen. Infolgedessen wurden die Hauptschulen und Realschulen in Baden-Württemberg zu Werkrealschulen zusammengeführt und zusammengelegt gelegt.

Ein Konjunktur-Hilfspaket im interdisziplinären Fachgebiet Wirtschaft, während der Finanz- und Immobilienkrise und dessen Wirtschaftskrise ist kein Zufall, sondern geistiges Potential mit gesetzlicher Würdigung und geistigen und persönlichen Eigentums und Schutz verankert in der Gesetzgebung gegen Diebstahl geistigen Schutzes.

Wurde in den Funktionen von CO-CEO und CO-Vorstand Daimler AG – DaimlerChrysler AG und Daimler Renault-Nissan, ferner in der Funktion CO-Vorstand und CO-CEO Google. Inc., Funktion CO-Vorstand und CO-CEO Facebook Inc. und Funktion CO-Vorstand und CO-CEO Apple Inc. entwickelt.

Der Rettungspaket wurde über die Daimler AG weiter zur Deutschen Industrie, Europäischen Union und Türkei transportiert und übernommen. Ein weiterer wesentlicher Aspekt war die Stärkung und Erweiterung der internationalen Handelsbeziehungen.

Strategischer Aus- und Neubau Istanbuler Flughafen (Verkehrsinfrastruktur)

Die strategische Lage der Türkei, die Brücke zu dem Europa, Asien und Afrika sind ideale Voraussetzungen, um Istanbul zur bedeutenden zum Welthandelszone und Umschlagplatz auszubauen. Voraussetzung dafür sind Investitionen in die Infrastruktur und die Vielfalt.

Die Aufgabe den Bau der Istanbuler Flughafen vom Europäischen Kontinent, mit einer Kapazität von über 100 Mio. Passagieren pro Jahr, der entsprechender Ausbau des Güteverkehr-Kapazitäten, um den Bedarf der Region mit Warentransport zu decken, wurde dem ehemaligen Oppositionsführer Kemal Kılıçdaroğlu während eines Fluges nach Istanbul übertragen.

Investitionen in Hochgeschwindigkeitszug und Schienennetz, National (Verkehrsinfrastruktur)

Um den stark belasteten Straßenverkehrsnetz zu entlasten, muss die Türkei stärker in das Schienennetz und in moderne Hochgeschwindigkeitszüge investieren, welches seit Atatürk 1923 und nachfolgenden Regierungen vernachlässigt wurden.

Investitionen in Hochgeschwindigkeitszügen und Schienennetz, International (Verkehrsinfrastruktur)

Die Weiterentwicklung des Schienennetzes setzt eine stärkere Vernetzung und Anbindung der Türkei mit den angrenzenden Staaten voraus. Ein wichtiger Handelsweg aus der Historie, ist der Handelsweg Marco Polos, die „Seidenstraße“. Das Schienennetz ist entsprechend zu erneuern und mit internationaler Zusammenarbeit das Schienennetz der Seidenstraße Ausbau, sichert den Güterverkehr und Warentransport von London bis Peking sichert.

Ausbau Infrastruktur Istanbul und stärkere Verflechtung mit Europa

Der Ausbau von Hängebrücken in Meeresengen, die Untertunnelung vom Bosphorus, sichert die stärkere Verflechtung Koppelung der Europäischen und Asiatischen Kontinent mit dem Verkehrsnetz und die

Infrastruktur für Güterverkehr und Warenfluss, der Bau von zweiadrigen Brücken Schienennetz und Straßennetz in und Tunnels integriert besser den Bedarf von Personen und Güterverkehr von Straße und Schiene.

Investitionen in den Energiesektor (Energieinfrastruktur)

Der Energiemix der lokalen und globalen Erweiterung und Ausbau des Energiesektor Erneuerbare Energien, verhindert die Kapitalflucht von jährlich rund 60-80 Mrd. Dollar in Erdöl- und Erdgas und schafft Potentiale für Neuinvestitionen.

Damit wird Einerseits der Energiebedarf gedeckt, die Abhängigkeit vom Erdöl und Erdgas verringert, Investitionspotentiale für erneuerbare Energien, Wasser- Wind und Sonnenkraftanlagen sowie Höhenwasserspeicher gestärkt, die Agrarwirtschaft gefördert. Investitionen in Staudämmen sichert die Bewässerung vom Ackerbau und nicht zuletzt Investitionen in Kernenergie sichert die Unabhängigkeit der Energieversorgung Deutschlands und Europas

Erdöl und Erdgaspipeline Projekt von Türkei / Russland nach Europa (Energieinfrastruktur)

Der Mittlere Osten, die angrenzenden Länder der Türkei besitzen hohe Erdöl- und Erdgasreserven, Investitionen in Infrastruktur, Pipelines und der Energietransport von Türkei und Russland nach Europa, sichert einerseits den strategischen Standort der Türkei, günstigere Erdgas- und Erdöllieferungen von Mittleren Osten und Russland und bietet Europa mehr Sicherheit in der Energieversorgung im Wettbewerb mit Kernenergie.

Förderung von ausländischen Investitionen

Die Förderung von ausländischen Investitionen durch Absenkung bürokratischer Hindernisse, Stärkung der Rechtsstaatlichkeit, Investitionen in Infrastruktur und Bildung, Steuersenkung und Standort-förderungen der Türkei bieten Chancen für Investoren im Ausland und in Türkei.

Investitionen in die Osttürkei, die Kopplung und Integration Struktur vernachlässigte Zonen.

Staatliche Investitionen und Förderprogramme in die Ost-Türkei, Infrastrukturmaßnahmen, der Ausbau von Straßen- und Schienennetz, Investitionen die in digitale Infrastruktur bieten zukünftige Potentiale und Chancen für die Region und In- und ausländische Investoren

Investitionen in Neuen Technologien im High-Tech Sektor mittels Joint Ventures

Förderung von Auslandsinvestitionen in Informationstechnologie und Hightech, der Ausbau von Joint-Ventures und die stufenweise Erhöhung der von lokalen Beteiligungen sichern die Wettbewerbs-fähigkeit Deutschlands- Europa und Türkei

Der Ausbau von historischen wirtschaftlichen Beziehungen

Der Ausbau der historischen wirtschaftlichen Beziehungen zu den angrenzenden Nachbarländern im Mittleren und Nahen Osten, die Stärkung der historischen, gesellschaftlichen und wirtschaftlichen Bindungen schafft neue Chancen durch Erweiterung der Potentiale und Vielfalt.

Ausbau der wirtschaftlichen Unabhängigkeit, Erschließung neuer Märkte

Der Geld- Warenfluss und Arbeitsmarkt mit Europa, Asien, Amerika muss gut gemixt sein, damit die Wirtschaft politisch unabhängiger infolge Sanktionen wird. Die Erschließung neue Märkte in Asien, Afrika und Amerika (Nord- und Südamerika bieten neue Chancen.

Ausbau der technologischen Unabhängigkeit

Investitionen in strategisch wichtige Sektoren digitalen Technologien die Investition in Bildung die Förderung von Wissenschaft und Forschung, die Förderungen von Entwicklungen im Bau, Maschinenbau und Neue Digitale Technologien, Investitionen ins Gesundheitssektor, Medizin und Verteidigung, sowie die Modernisierung der Streitkräfte bieten Chancen für Nachhaltiges Wachstum.

Investitionen und innenpolitische Maßnahmen

Die Stärkung der gesellschaftlichen interkulturellen Vielfalt und Gegensatz zu Homogenisierungspolitik unter dem Aspekt Freiheit Gleichheit Gerechtigkeit Brüderlichkeit und Rechtsstaatlichkeit bietet mehr Innovation-Potentiale bei gekoppelt mit wirtschaftlichen Förderungsprogrammen bieten neue Chancen für die Zukunft.

Dipl.-Ing E. Günana Economy and Finance Recovery Packet to Germany Turkey and EU

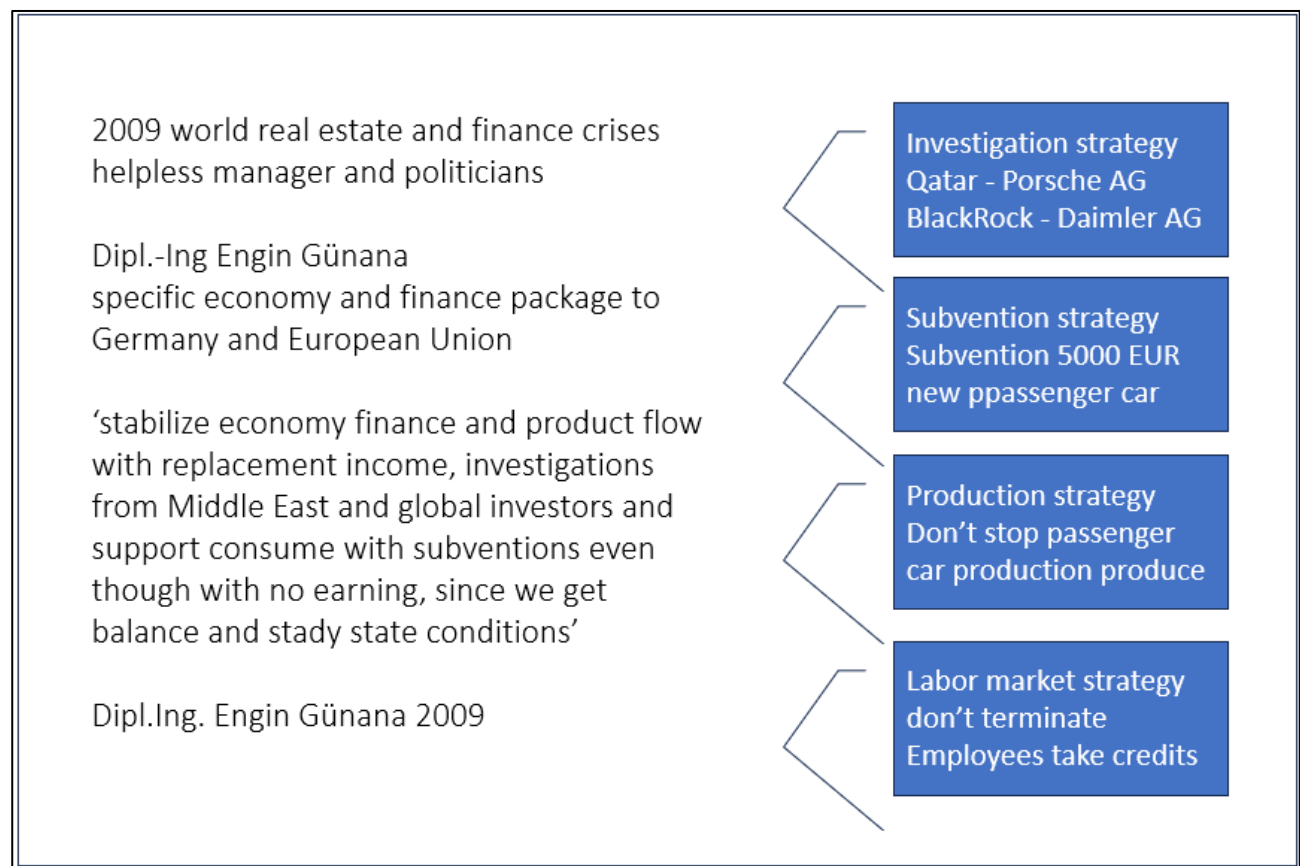

Chart 7a. Dipl.-Ing. Engin Günana economy and finance packet 2009

In shadow of real estate and finance crises, Turkey and Germany confuse and changes managers at economy and state with National Intelligence Agency employees. Dipl.-Ing. Engin Günana use this model to guide and manage Daimler AG from down to top

I have no chance to change Daimler AG from top-down managing i should change to company completely from down to top in instruction of volk revolution' therefore i need a lever to push Daimler AG from down to top this is only possible with a force medium secret services or military.

This method realized millions of uneducated terrorists and impostors in Turkey Erdogan and AKP in Germany secret Hitler organization from Eastern Germany to occupy state and companies with incompetent criminal mafia commanders and commissioner Terrorists, criminals, mafia, commanders and commissioner push crime murder deaths Erdogan start 2011 a war, terminate 3 million managers, replaced 11 million AKP member with Islam refugees realized through Syrian war Mafia and military commander only 1 success was steal Dipl.-Ing. Engin Günana completely EU income with stages and Didi Hallerworden comedy and began steal Dipl.-Ing. Engin Günana EU income and start a polemic mobbing and discrediting program fatigue death program to oppositions. Dipl.-Ing. Engin Günana and kill Presidents and manager.

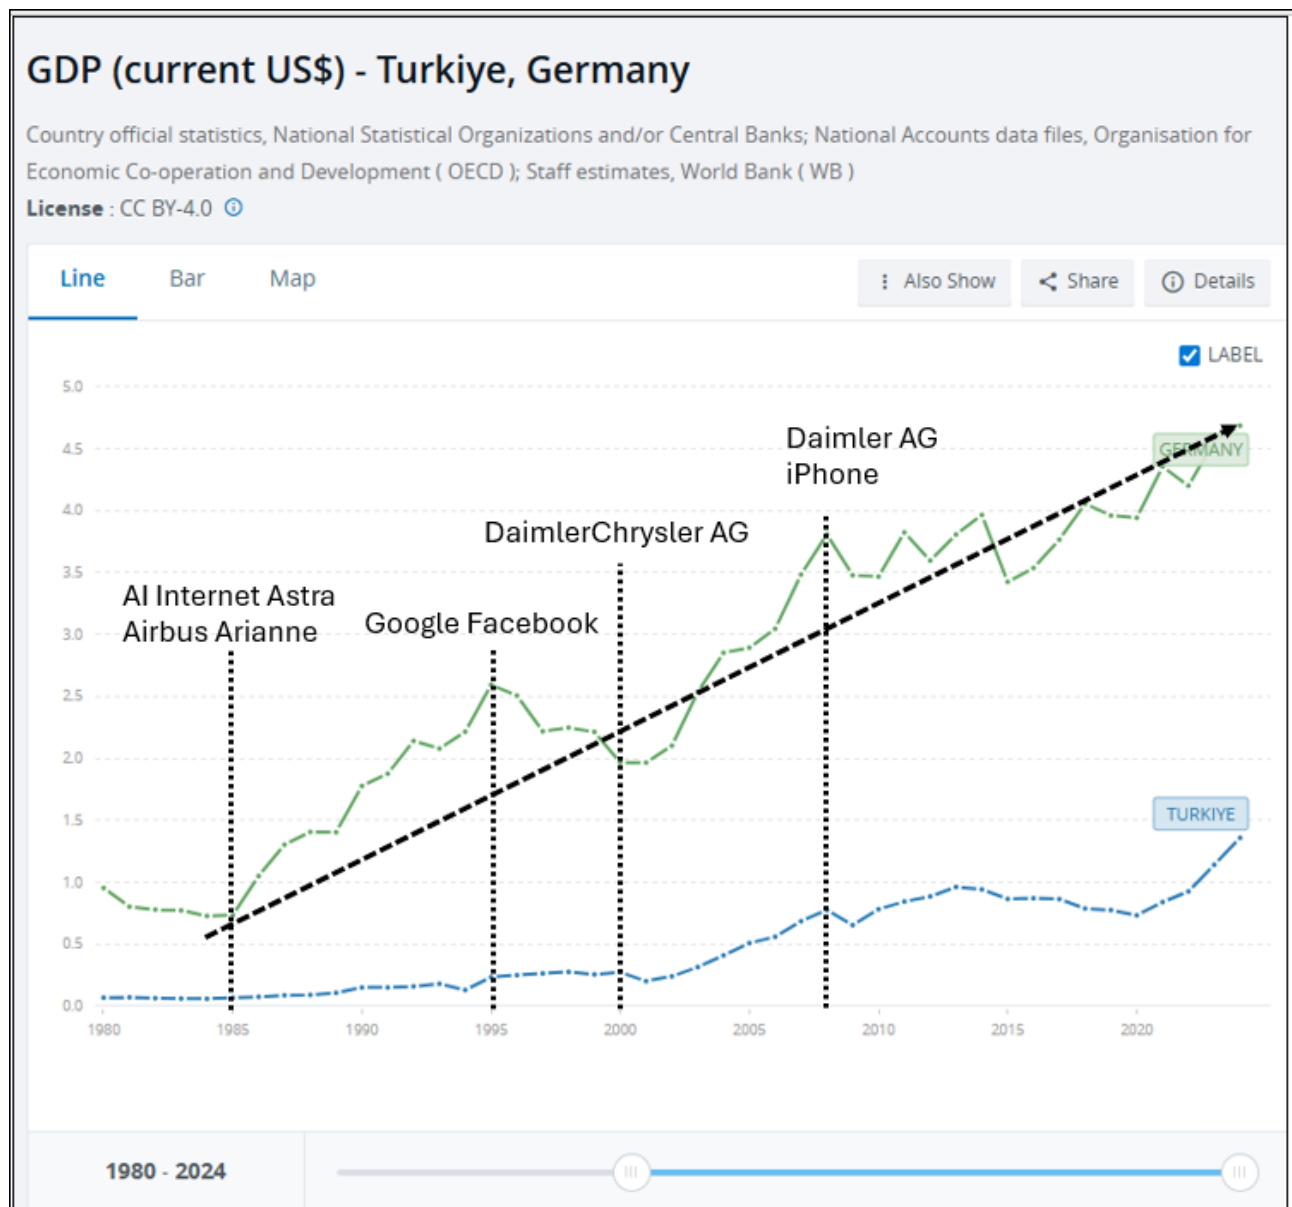

Chart 7b. Dipl.-Ing. Engin Günana economy and finance packet 2009

Dipl.-Ing. Engin Günana license and income agreement with European Union 2010/2011

European Union offer and license agreement with Dipl.-Ing. Engin Günana in short form “open and using intellectual property rights and copy rights for European Union economy business manager employee’s politician and citizens with operation and get monthly 30 EUR per month per private user (2010/2011) from 224 million EU households (inclusive Great Britain) with the beginning of 2012

Brussel pay 30 EUR/month per European Union private user as substitute payment for using Engin Günana IT-Technology services: Reality-TV and Get-Response Management Function.

Calculation model 224 million private user x 30 EUR x 12 months = 80,64 billion EUR
(2012-2024) 13 x 80,64 billion EUR = 1048,32 billion EUR paid from EU

But stolen from Turkish government with secret military coup at 15.07.2012 but present as 15.07.2012 with fake date and changing national government regulations and justice govern with emergency condition. AKP Organization and Dictator Erdogan 11 million wild AKP Neandertals Turkey's infrastructure accordingly Turkish Wealth Fund infrastructure finance system, bank accounts, real estate, gold market, passenger car market, healthcare and closed parallel justice for opponents and punishment for 12 million legionnaires and use Turkey's economy, finance, military, barbarian Islam terror, German National Socialism (01/2016) with the source of secret services BND (Bundesnachrichtendienst Dienst BND) MIT and Turkish Media with one target steal Daimler AG salary payments to Günana

An agreement between legal person Dipl.-Ing. E. Günana and European Union (EU) ensure monthly salary about 30 EUR per month, per EU private user, from 224 million households (inclusive Great Britain), 80,640 billion EUR per year in sum 967 billion EUR during 2012-2023, but Turkish government occupied Turkish democracy 2012 govern 2012-2016 with dictatorship rules and occupied E. Günana salary

Turkish government occupied in addition 50 billion EUR salary payments from Daimler AG for co-CEO function at DaimlerChrysler AG Daimler AG Apple Inc. Google Inc. Facebook Inc. during active phase with local condition during 1998-2016 to protect Daimler AG from bankruptcy during 1998-2007 and pushed Apple Inc. Facebook Inc. and Google Inc. best to market.

Dipl. Ing. Engin Günana under aspect of 21. century development

Researcher and Developer of IT-Technology Engin Günana project leadership at: Artificial Intelligence (AI), Cube, Internet, AI-translation, AI-voice commands, AI-voice control, AI-Maps, GSM 1G 2G mobile Internet, Internet rollout starting with computer network at University Stuttgart rollout in Germany with Universities and supercomputing calculation centre. Rollout 1992 calculation centre Stuttgart University with USA/NASA, parallel rollout in Asia through University Stuttgart Institute for Nuclear Energy IKE, rollout 1990-1992 in USA and Asia.

Initial reflection for international cooperation from Daimler AG and USA started already in 1994 at IVM-Consulting Stuttgart-Fellbach, with existing contact with US partner Sergey Brin and Larry Page and Google Inc. The second contract with USA started in 1996 with a few partners among other things with Apple Inc. regarding multi device for project leader and manager.

iPhone project was a parallel external project with Apple Inc. and Steve Jobs during 1997-2012 in agreement with Daimler AG as second job without ant interface to Daimler AG development. Steve Jobs was acquired from Next company to Apple Inc. and started as chief project engineer at Apple Inc. for iPhone project with Engin Günana (second job without Daimler AG participation) the beginning of first contacts with US-passenger car companies ends with a merger acquisition of Chrysler Inc. in 1998.

Chairman Prof. Jürgen Schrempp and Board of member Daimler AG ordered Engin Günana to co-chairman position according supervisor chairman Manfred Bischof Daimler AG proposal during graduation at department Dr. Kern 1992 after DaimlerChrysler AG merger 1998 get a cold shower at New York stock exchange lost more than 60%. Constrained time conditions were the result of different contract and agreement regulations than classic written variants.

Helmut Michel E4 and Hans Frey E3 were ordered from Board pf management and authorized for matching. Agreement first and second earning to protect substantial profit. Between 2-3 days encounter meetings with director Leopold Mikulic E1 and CEO Dr. Dieter Zetsche and chairman Prof. Dr. Schrempp/Daimler AG and chairman Robert Eaton/Chrysler Inc. pushed Dipl.-Ing. Engin Günana to co-chairman job, this was the next logical step from Daimler AG after supervisor chairman Dr. Manfred Bischof proposal. Therefore, chairman Robert Eaton contract end in end of 1999.

Co-chairman Engin Günana introduce new program for manager qualifying, manager agreement, manager salary, manager conditions, and manager meetings proved and evaluated with meetings from Prof. Dr. Schrempp/Daimler AG and chairman Robert Eaton/Chrysler Inc Dr. D. Zetsche and directors at Daimler AG. Easy examples were handshakes and head nodding. New proposal and guideline of Engin Günana management conditions was accepted and realized in 1999 as new capture of risk management after DaimlerChrysler AG shares felt at New York stock exchange extremely

Agreement and contract with partner DaimlerChrysler AG, Prof. Jürgen Schrempp, Robert James Eaton, evident Dr. Dieter Zetsche, Dr. Leopold Mikulic (E1), Dr. Joachim Schommers (E2), Peter Lückert (E2), Dr. Hans Frey (E3), Hans Michel (E4) with the target to protect DaimlerChrysler AG from insolvency and push to substantial profit with 10% profit after DaimlerChrysler AG shares lost in 1999 and 2000 extremely. First two earnings of Daimler AG as substantial protection of potential growing own Dipl.-Ing. Engin Günana. After Daimler AG divorce from Chrysler in 2007 and Barrack Obamas Real Estate and Financial crises in 2009.

Co-Chairman and Co-CEO at DaimlerChrysler AG 1998-2007 and Daimler AG 2007-2011

Co-Chairman and Co-CEO start-up companies Google and Facebook 1992-2023

Co-Chairman and Co-CEO at Apple Inc. 1996-2023

DaimlerChrysler AG (DCAG) stocks fell extremely during Chrysler Inc. expenditure increase and vehicle market lost extremely in USA. Engin Günana decided with Dr. Zetsche divorce Daimler-AG (DAG) and Chrysler Inc. Günana business program and profit at 1. year was the benefit for Günana engagement no time for education and development to Board of Management regarding Manfred Bischof proposal in 1992 to E. Günana, time to act. Günana IT-Technology Developer of: AI, Cube, Internet, Google, iPhone, iPad, GSM, Wi-Fi, Google, Facebook and YouTube with Google Inc., Facebook Inc., Apple Inc., was the certificate qualification and warranty for co-chairman function at 1997 with Prof. Dr. Schrempp after R. Eaton pension.

Five Reason was responsible for co-chairman job at DC AG and DAG during 1998-2012

1. DaimlerChrysler AG 60% Market Capitalization lost in one year (1999-2000)
2. Turnover decreased by -14% after first year DaimlerChrysler AG merger.
(Minimize risk with B2B cooperation Daimler-Renault-Nissan)
3. Manfred Bischof wishes for chairman job during graduation, first Internet connection NASA/USA 1992
4. Background as Founder of IT-Technology at University Stuttgart and iPhone with Apple Inc. USA 1997
5. End of Robert Eaton chairman job at Chrysler Inc. in 1999.

1. DaimlerChrysler AG shares decrease 60% after 1 year

See chart 8 most critical problem, market capitalization from both companies decreases more than 60% with fatal consequences and loss for investors finance and rapid reaction was necessary and Board of DaimlerChrysler AG make Engin Günana an offer to manage DaimlerChrysler AG as chief to prevent bankruptcy.

2. DaimlerChrysler AG turnover lost from +8% to -6% (-14%)

DaimlerChrysler AG 6% turnover lost was a problem after 8 % growing, during earnings developed stable, much more dangerous was the rapid loss of market capitalization this make DC weak against aggressive Investors.

3. Manfred Bischof chairman offer during graduation 1992

Former DaimlerChrysler AG supervisor board Manfred Bischof invite Engin Günana at 1992 during my graduation Transformation MKS system from body- to grid system regarding FEM-System at Centre from Dr.-Ing. Bharat Balasubramanian and make an offer for Board of Member with education timeline about 20 years. My answer to Mr. Bischof chairman of Supervisory Board, i won't classic education and sheep race over 2 years but call me if nothing function, I'm ready if nothing function

4. Panik for Investors after DaimlerChrysler AG Merger, share prices lost, July 2000=50% lost from top

After 3 months of the DCAG merger shares decreased sharply. The market capitalization of DCAG lost after 1. year over 50%. No time for 20 years education over 3 countries to start as co-chairman like Ola Källenius. Regarding Manfred Bischof wishes in 1992 for chairman position E. Günana began to manage Daimler-Chrysler AG as co-chairman with and successful IT- and iPhone Founder of in background and max authority

5. End of Robert Eaton chairman contract with end of 1999 at DaimlerChrysler AG

Robert Eaton and Manfred Bischoff believed in me, engaged and pushed me to Board of Management because of management competence, international experience and worldwide important IT-Founder of with AI, Cube, Internet, Google, Smartphones iPhone, GSM, WLAN (Germany) Wi-Fi (USA), Project management, at University Stuttgart and iPhone and iPad development with Apple Inc. in 1997.

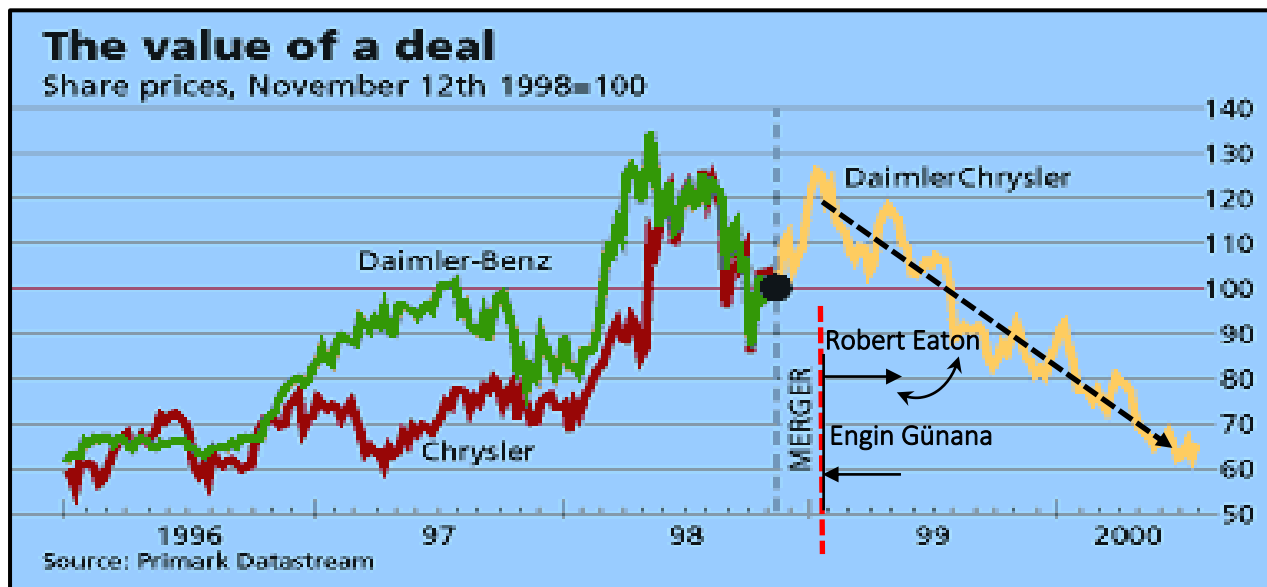

Chart 8: DCAG merger shares 1995-2002, CEO Rober Eaton replacement with Dipl.-Ing. Engin Günana

Dipl.-Ing. Engin Günana CEO function with Artificial Intelligence matrix method and structural growing from element level to structure level, from element matrix to structure matrix with Finite Element Method, couple condition from element level with element matrix to global structure matrix with intelligent couple condition at DaimlerChrysler AG to recover Chrysler Group with FEM AI IT and IPO experience from Facebook and Google at New York Stock Exchange, from the range of material and employees from level organization to matrix organization and parallel working conditions with dominant intelligent couple algorithms (Günana) and therefore at co-CEO Facebook Google Apple and Daimler-Chrysler AG.

Dr. Zetsche and Wolfgang Bernhard Chrysler Group support was not enough to recover Chrysler Group because of not valuable product portfolio therefore DaimlerChrysler AG merger ended 2007 with a disaster and more than 36 billion USD lost capital during merger 1998-2007. Much different products, no couple condition less time during Real Estate and Finance crises, different employee culture and management appreciation. After divorce process from Chrysler Group and 4 years FEM AI IPO business couple strategy product management Daimler AG profit jumped to best value with 10 Billion EUR earnings, best result in history, since founder of in 1926 and rescue this strategy model with Daimler-Renault-Nissan cooperation.

6. Daimler AG first earnings about 10 billion EUR in 2011

Engin Günana business program ended with the best earning of Daimler AG history about 10 billion EUR in 2011. Engin Günana earn 10 billion in 2011, the merit to protect Daimler AG from bankruptcy from DaimlerChrysler AG (1998-2007) merger. DCAG shares lost about 60% during 1999-2000, at New-York Stock-Exchange DAG Board of Management (BOM) decided to pay Engin Günana merit after substantial and constant growing in few years.

7. Daimler AG substantial earning about 50 billion during 2011-2015

Dipl.-Ing. E. Günana business program with B2B and AI and discretizing of structure with equal parts, equal modules, equal products parts, flexible production with standardization of equal interface, developments, process and projects with partners Renault-Nissan and B2B brought Daimler AG stability and substantial growing during 2011-2015, in sum 50 billion EUR. Dipl.-Ing. E. Günana contract ends with 50 billion EUR earnings at 31.12.2015.

Dipl.-Ing. E. Günana - AI Business Program to DaimlerChrysler AG and Daimler AG

1998

Dipl.-Ing. E. Günana DaimlerChrysler AG business transformation from Intercontinental merger with different products to B2B with cooperation partners Renault-Nissan and equal parts, modules, products, developments, process, projects and plants (Smart-Renault) was successful. Products and Partners fit much better together with Daimler-Renault-Nissan and B2B cooperation model without cost and liabilities. AI and FEM-Method, Algorithm and Transformation to Business-model development and production. Daimler AG success, much more important was product portfolio and technology, strategy and common production lines.

Artificial Intelligence and FEM Method, discretization to equal parts and modules, common developments and plants, B2B business strategy and homogenization, building element libraries for parts, modules, sections in development, realize common plants at production, and sale and marketing with common strategy. AI and Transformation to Economy and Business transformation and application higher mathematic and Finite Element Method to society founder of Artificial Intelligence, Economy and Business.

Daimler AG earnings grow after divorce from Chrysler Inc. with -30 billion USD lost at 2007 to 10 billion EUR in 2011 substantial in four years, the best profit of Daimler AG history since 1926. Separating Daimler AG and Chrysler Inc. was eminently important, a business model with many dependencies and less degree of freedom without future and success. Without a vision in phase of worldwide crises in 2009. Chrysler Inc. dept increase and increase from one year to next year, our job was in danger, Daimler AG future was in danger through finance crises real estate crise with very heavy Chrysler Inc. debts.

Application of Artificial Intelligence to DaimlerChrysler AG product development, production, increase equal parts and modules, reduce variants, divorce business dependencies change from merger model with dependencies and risk to cooperation model and B2B, divorce DaimlerChrysler AG because of failure build cooperation model with comparable equivalent partners Renault and Nissan. Increase equal parts, cooperate with in sufficient comparable projects. Artificial Intelligence to business and as against merger model with many dependencies and liabilities.

Dipl.-Ing. E. Günana - AI Business Program to Apple Inc.

1998

Dipl.-Ing. Engin Günana and Dipl.-Ing. Klaus Hageman searched 1997 for iPhone and iPad development partner and find Apple Inc./USA. iPhone and iPad were developed 1997 with cooperation partner Apple Inc., former Apple Inc. chairman Steve Jobs was ordered from company NEXT to Apple Inc. for iPhone and iPad project and start as project manager for iPhone at Apple Inc. Steve Jobs was the one face to customer project leader at Apple to us Daimler AG. Dipl.-Ing. Engin Günana project team for iPhone and iPad development at Daimler AG: Dipl.-Ing. Klaus Hageman (secretary), Dipl.-Ing. Gerhard Spindler (extern) at Dr. Rolf Klump department EP/MPP Daimler AG. The iPhone cooperation starts with Apple Inc. and project leader Steve Jobs 1997 and end with Steve Jobs death in 2011. Dipl.-Ing. Engin Günana participation agreement at Apple Inc. was in a range 1% to 10% of Apple shares.

After Dipl.-Ing. Engin Günana first meeting with project leader Steve Jobs/Apple Inc. in Stuttgart, the product name of a multi device was set from Günana with 'iPhone', in acceptance from Apple Inc. chairman Michael Spindler the term 'smartphone' doesn't exist at this period

Dipl.-Ing. Engin Günana set product name iPhone and big brother iPad and development scope of multi device. Engin Günana introduced the concept of a multi device phone, a combination and flat screen pocket phone and computer with a new finger and gesture-based operating system. A pocket phone with multi devices with contents of devices, which is necessary from chief engineers to businessman, a mixture of computer and phone in pocket format. Twelve and more devices in one device and give the product the name iPhone. Participants of first meeting: Dipl.-Ing. Engin Günana, Dr. Rolf Klump, Steve Jobs Apple Inc., Klaus Hagemann (organization). The iPhone project started 1997 and end with death from Steve Jobs at end of 2011.

Dipl.-Ing. Engin Günana introduce 1992 the first frequency 1G independent from mobile phones for more capacity of digital network. The first digital mobile network standard 1 G was introduced from Dipl.-Ing. Engin Günana in common with Prof. Ernst Messerschmid at Space Technology Institute University Stuttgart

As evidence Günana choose the first character of the new standard with the first character of his last name **Günana** with G. 1G was qualified as a new mobile standard but data flow was too slow and unusable for smartphone application after first prototypes iPhone 1 and Günana decided push mobile internet network to higher standards with higher data volume rates and introduce a further development GSM mobile network from 1G to 2G with 900 MHz / 1800 MHz frequency. The new GSM standard for mobile network was foundation and get the name **Günana Steve Merkel GSM**.

Dipl.-Ing. Engin Günana set M as last character of GSM shortcut as appreciate to politician newcomer of Angela Merkel political careered Angela **Merkel** after German Union in 1990. The name convention of GSM was set with the first 3 characters of **Günana-Steve-Merkel** sur and last names in 1997 as evidence of Dipl.-Ing. Engin Günana iPhone and mobile cellular **1G** foundation. Steve jobs partnership and evident Angela Merkel.

We pushed the second generation of cellular network with 2G and 3G to higher data rates for our iPhone and iPad development. The development time of iPhone was steered from mobile cellular network development and was too slow, therefore we used iPhone 1 in offices to check performance and capacity of iPhone IOS cellular network and flatscreen function, because of less dataflow of cellular network 2G.

During iPhone 1 and iPhone 2 development our challenge was to solve touch screen and higher network standard with higher data volumes requirements and conditions. A bottle throat was 2G GSM standard with too less data transfer capacity this requirement was our challenge to develop faster mobile network for less distance in offices and introduce a bridge solution with wireless connection and called Lan a Turkish civilian rephrase for man in combination for industrial application for Germany and Europe WLAN and separate US American standard in agreement with Steve Jobs Wi-Fi and called my bridge solution standard IEEE 802.11x, with the name convention regarding iPhone notation i and Phone to iPhone, I as appreciate and evidence for. It was necessary to define frequency range for civilian application with civilian requirements and conditions to separate from military application. We started in Germany with 900 MHz / 1800 MHz and called our frequency range GSM regarding development project leaders name G for **Günana**, S for **Steve** as partner and with M for former newcomer Angela **Merkel** after German Union 1990. GSM standard content the name of founder Günana-Steve and as appreciate Merkel German military was involved to separate civilian frequency range from military frequency range with different civilian requirements and conditions with **GSM** and called standard as military frequency area.

One of the biggest challenges was the cellular network and a finger and gestures based IOS with flat screen. First iPhone 1 had a central button with backspace and cursor functionality and was not usable with bimetal contact technology at screen, multi-layer technology. Dipl.-Ing. Engin Günana decided to develop a mobile cellular mobile network for offices with for short distance and development WLAN and Wi-Fi. WLAN for German region and Wi-Fi for US region with the standard name convention IEEE 802.11x.

Higher and faster data rates with office cellular network was our next step and we developed Wi-Fi IEEE 802.11x standard. iPhone 1 - iPhone 2 were developed as prototypes for test phases in offices with WLAN IEEE

802.11x. We pushed one development step to another but without any compromises, a further development iPhone display with multilayer technology according to AutoCAD design program and very effective finger and gesture based IOS at little iPhone display solve our challenges.

The first iPhone 1 with 2G cellular network didn't correspond to my expectations. We solved big challenges, touch screen functionality, dimensions, packaging, quality, faster mobile cellular network with higher data rates. We solved step by step all challenges and want the best at market in all disciplines.

A closed operating system 'IOS' with an application collection in store, apple specifics interfaces and a default scope of application for higher application engineers, chief engineers and managers. Daimler AG prevents internal application of iPhone with regulation for camera and distributes employee mobile phones with tel. and SMS functionality and closed camera function. Our greatest challenge was a sensitive multi touch screen and higher data volume. We stopped the delivery to customers and rolled out iPhone 1 to determined offices to evaluate our new WLAN and Wi-Fi Standard.

I arranged with Steve Jobs name convention for German, EU and USA with WLAN and Wi-Fi with a new standard. After evaluation of WLAN (Wi-Fi) standard with iPhone 1 and iPhone 2, we called our new mobile funk standard for offices and home offices IEEE 802.11x standard, a furthermore development of IOS with multifunctional touchscreen ability, prototype rollout of iPhone 1 and iPhone 2 in offices with WLAN devices for field test. iPhone 1 and IOS started with 2 main functions, open app with touch at app symbol at flat screen, steer with central button at bottom with cursor function and return and backspace function to close apps. Stripe function we get later with iPhone 2 and IOS version. After our test with Wi-Fi which fulfils the higher data transfer rates our goal was a better functionality at touch screen display.

We decided to distribute as iPhone 4 slow Internet at field was our greatest challenge, we solved this internal with WLAN and Wi-Fi standard IEEE 802.11x coupled with much better functionality of new touch screen display function, which get a very complicated mesh layer technology during regular consultations at University Stuttgart with CAD and IT experts at display to consider finger stripes on flat screen, this function and more functionality we get with iPhone 4 with new application scope: Messages, Phone, E-Mail, Schedule, Calculator, Navigation, Maps, Camera, Video, Voice Recorder, Video Recorder, Video Player, Music Player and Music Channel (YouTube), Social Media and Facebook. Furthermore, we developed and considered data transfer standards Airdrop and Bluetooth. Responsible for distribution stop of iPhone 3G, development Wi-Fi, further development IOS functionality with more functions in combination with new flat touch screen display technology, data transfer technology Bluetooth and Airdrop, more application with more apps inclusive YouTube and social media was exclusively my content, without any support from Apple Inc.

Dipl.-Ing. E. Günana AI support - Business Program to State and Economy (Turkey and Germany)

Engin Günana AI, higher mathematic to society, algorithm, Google translation, Google search engine voice control, Google navigation voice control, robotic technology with AI and dialog. Furthermore, in music and songs, harmonic rhythms with harmonic functions, top and down see examples at homepage <https://www.eq2-tech>

The reason of 967 billion EUR stolen EU-TV payments (2012-2023) for violation of intellectual property rights and copy rights is an consequence military operation from Turkey, a logical result of Turkey illegal engagement in history with turkeys military operation through Hakan Fidan (MIT) in 2001 and TIKA mission during 2003-2007 with the target to protect Germany from IT-owner rights of Engin Günana, founder of: AI, CUBE, Internet, Google, UNIX, iPhone ,iPhone IOS, Flat touch screen technology, GSM, WLAN (EU) Wi-Fi (USA), YouTube.

Governments, economies and societies profit extremely from developers of Artificial Intelligence, Internet, Google, UNIX, iPhone, GSM, Wi-Fi. Facebook YouTube. Astra Satellite Systems with digital technology, television, broadcast, furthermore from expert knowledge and management competence B2C, B2B over cross

participation and products and experience after decades years manager, project leader and co-CEO function at DaimlerChrysler AG and Daimler AG Apple Inc. and 2 start-up companies Google Inc. and Facebook Inc. with the best profit of Daimler AG history 50 billion EUR during 2012-2016.

Turkeys' army coup started at 15.07.2012 and end with secret constitution of dictatorship in 2017 to steal EU-TV Fess Payment about 967 billion EUR developed transient a worldwide healthcare genocide program under misusing Engin Günana expert knowledge and management competition with Reality-TV and Get-Response Management Function. Meanwhile German Justice steal under umbrella of MIT and BND with support of Hakan Fidan IT-Founder of AI, Internet, Google, iPhone GSM and Wi-Fi and let Turkey, German and EU Economy use free expert knowledge and management competition against violation of intellectual property and copyrights without any payment in contrary to agreement with EU in which 224 million EU households should pay E. Günana yearly 80,64 billion EUR. AKP Erdogan and Fidan attack Turkey with army operation at 15.07.2012 and transform democracy to dictatorship with emergency rules change conditions, procedures and process install political dictatorship rules at 2017 to cut democratic rights and regulations for oppositions, open crime and corruptions possibilities for AKP government.

President Erdogan use data management operating system UNIX to separate AKP citizens from rest of citizens without any restriction killing stealing controlling are allowed in contrary to Turkey's laws. Especially in finance, healthcare and government services. Erdogan and Family own Turkey (government recourses, economy, finance, healthcare, AKP-Group with 11 million members). AKP group own complimentary quantity from Erdogan and Family. The rest are material (all) to use, like Jews during Adolf Hitler National Socialism

EU Agreement - industrial spying and violation of property rights - copyrights

1998-2022

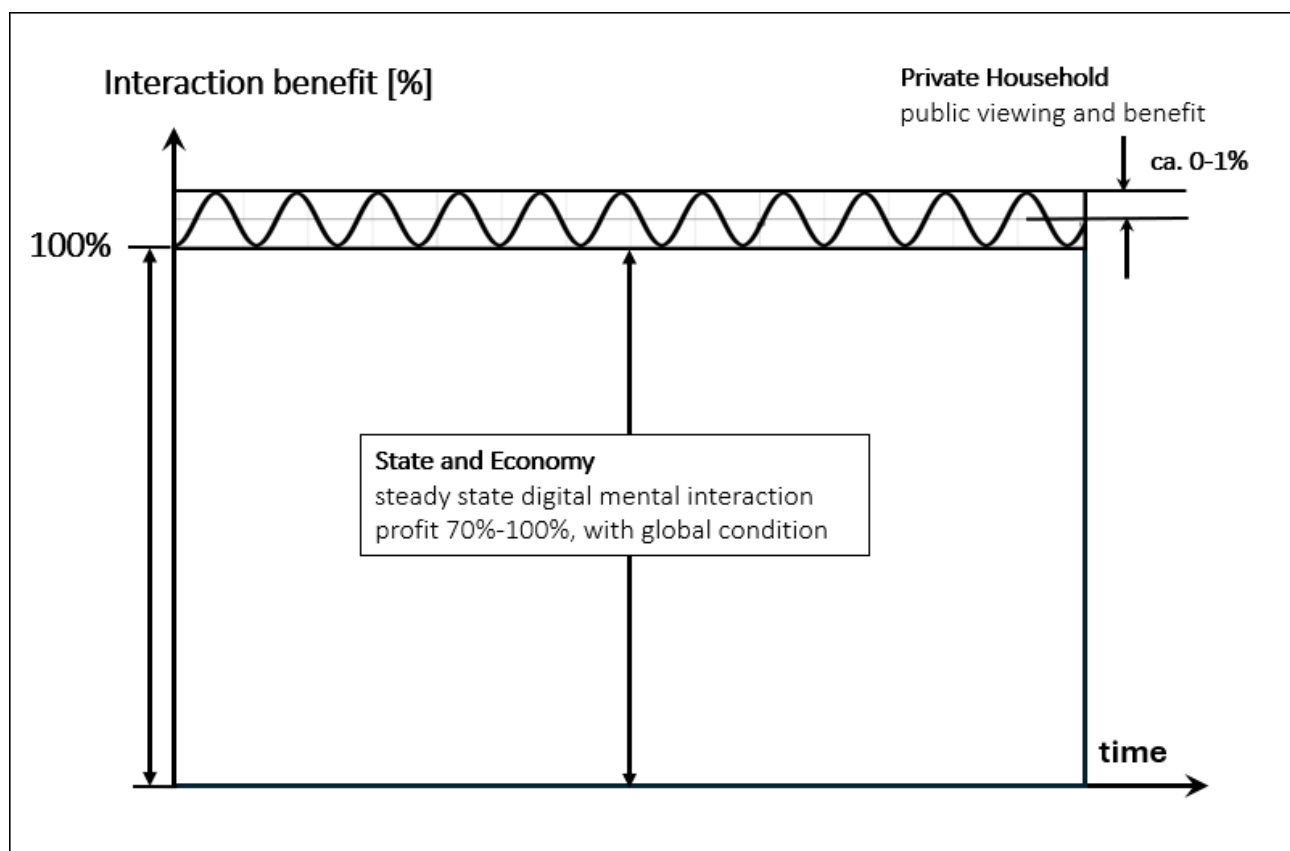

Chart 9: Intellectual property rights and copyrights and EU Agreement for IPR consulting services

Dipl.-Ing. E. Günana AI support - Pension Reduce Program (Germany)

Decoupling Turkish and foreign academics fat pension expectation from Germany pension cashier with food poison and chancery genocide program. Ankara-Berlin Genocide Program to Turkish Academics in Germany (Death Program) development with German National Intelligence Agency BND and Turkish National Intelligence Agency MIT under misusing outsourced CEO Dipl.-Ing. Engin Günana National Intelligence Agency of Germany BND and Turkey MIT cooperate to apply Barbarian Islam Terrorism and German National Fascism Genocide Program to single citizens and transfer this program to EU leaderships to save governments expenditures at pension and social-security-system. Bankruptcy and posted academics to their host country and fill simultaneously Germany and European Union with new cheap Islam and Ukraine victims and refugees.

Dipl.-Ing. E. Günana AI support - Social Security Expenditure Reduce Program (Germany)

Marriage and death process of Turkish academics with death program from BND and MIT. Plan at Ankara map. Plan to divorce academics, steal asset, income pension and regarding Barrack Obama couple/couple and half/half model but with forced politic, fake court decisions, extortion and Justice castration, Finance and Healthcare massacre and bankruptcy, with the target to divorce families steal men's finance two times. At first during divorce process from first marriage than with bunnies regarding former President Obama, Angela Merkel and President Erdogan's signature couple/couple and half/half model to steal asset and spread asset and pension against rules and laws. Empty men's finance two times transfer to women, massacre men's world and make them to woman's slave and let them die through disease.

Dipl.-Ing. E. Günana AI support - Expenditures Reduce Process and Protection

Decoupling from Daimler AG management and bankruptcy for 30 EUR/month per private user and use with general condition at state and economy in German and Turkey in field justice, civil rights, criminal law and public law, in field social security, healthcare, unemployment in function of Reality-TV and Get-Response Management Function in double function. RTV as prevention for Ukraine refugees for Germany and GRMF for optimizing and protection government expenditures. Testing and rollout corona virus and alum in foods and drinks under secret service observation. Pass and bank card lost and found regulation with procedures. Family Youth and social security politic. Inflation, deflation refugees politic. Management use GRMF (thoughts, cognitive, prognose) with lesson learn private user learned regulation.

Reality-TV and Get-Response Management Function are coupled dependent functions in interaction. Get-Response Management Function is a substitute function to decouple Engin Günana physical from local Daimler AG management (Apple Inc., Google Inc. Facebook Inc.) but couple with global management at State and Economy.

IT-Technology participation claim sum	4212 billion USD

Dipl.-Ing. Engin Günana pension salary in function of co-chairman co-CEO 20**2016**

Co-chairman and co-CEO at 5 companies: Google Inc. (Alphabet Inc.) since 1992, Facebook Inc. (Meta Platforms Inc.) since 1992, Apple Inc. since 1996, DaimlerChrysler AG, Daimler AG, Mercedes-Benz Car. Group, 1990-2016. Claims and lawsuit against Turkish Wealth Fund and Turkish government Mercedes-Benz Car Group and Daimler AG because of occupied 50 billion EUR salary and Fond in 2016 from Turkish government

Daimler AG - Engin Günana (1998-2016)	10 billion EUR
Chrysler Group - Engin Günana (1998-2007)	10 billion EUR
Apple Inc. - Engin Günana (1998-2023)	10 billion EUR
Google Inc. - Engin Günana (1992-2023)	10 billion EUR
Facebook Inc. - Engin Günana (1992-2023)	10 billion EUR
Sum	50 billion EUR

End of Engin Günana Daimler AG contract	23.01.2016
MB Bank salary payment from Google Facebook Apple DCAG 23.01.2016	50 billion EUR
Dipl.-Ing. Engin Günana investigation to Turkish Wealth Fund 01/2016	50 billion EUR
Financial report TVF in Turkish asset 160 billion TL, parity TL/EUR = 3.2	50 billion EUR
Divorce date Engin Günana ./ Melike Günana	21.11.2017
Equalization payment to Melike Günana	25 billion EUR

Dipl.-Ing. Engin Günana capital at Turkish Wealth Fund**2016-2025**

Turkish Wealth Fund, see separate lawsuit (2016)	50 billion EUR
Payment delays, default interest 5% of 50 billion during 2016-2025	77,54 billion EUR
Turkish Wealth Fund, 5% interest, 2016-2025, 77,54 billion EUR, LLC0 = 1	77,54 billion EUR
Debt to Engin Günana (rounded)	77,5 billion EUR

Turkish Wealth Fund liability with justice process in USA approach $LLC_{USA} = 2$

Turkish Wealth Fund_Liable capital 2 USD/EUR x 77,5 billion EUR =	155 billion USD
Turkish Wealth Fund dept to Dipl.-Ing. Engin Günana	155 billion USD

Nato’s AI-Technology compensation to Dipl.-Ing. Engin Günana **1986-2025**

NATO liability to Dipl.-Ing. Engin Günana, yearly 20% of Nato Investigation volume

Artificial Intelligence was transferred from Dipl.-Ing. Engin Günana to North Atlantic Treaty Organization NATO for defense application, witness of that transfer is Daimler AG Dr. Rolf Klump under control of Dr. Seltsam. We amount the value of Artificial Intelligence with yearly 20% of NATO budget.

Calculation basic of Nato consumer countries
NATO budget 500 billion USD x 0,2 = 100 billion USD x 32 (1994-2025) = 3200 billion USD

NATO liability to Dipl.-Ing. Engin Günana **3200 billion USD**

Turkeys Industry Spying and Financial Crime**1984-2022****Turkeys Industry spying and financial crime of Günana IT - Technology**

Four Persons die, during IT-Founder of iPhone, iPad and GSM: Steve Jobs, Gerhardt Weller, Mehmet Bostancıoğlu at last Shinzo Abe in late phase, who support Engin Günana 50 billion EUR salary from Daimler AG in agreement with US company partners. The death of Steve Jobs and external college Gerhardt Weller was a great danger sign, meanwhile Engin Günana get 3 heart attacks and the reason of take distance from iPhone claims after 2011 in contract situation at Daimler AG.

NTV Reporter at Wall Street New York Stock-Exchange Markus Koch came to Stuttgart and Daimler AG and interview Engin Günana but get didn't get answers the situation was very explosive because of death from his colleagues. Engin Günana take temporary distance from claims against Apple Inc. concerning iPhone, iPad and GSM developments.

Deaths, Industry crime and stolen IT-Founder of, the reason why Google Inc. changed to Alphabet Inc. Facebook Inc. change to Meta Technologies Inc. and Daimler AG split to Daimler AG and Mercedes-Benz Car Group to escape liability capital. Turkish national government with support German national government start an extortion and death program to steal IT-Founder of and destroy to Engin Günana co-chairman function and career with support from National Intelligent Agency MIT and BND, in contrary to agreement finally of course after Belin and Daimler AG AKP founder of in 14.08.2001 the real reason of AKP founder of with the target of industry crime from Turkish government to steal and sold Günana IT founder of Cube AI, Internet, GSM, Google, iPhone and Wi-Fi.

President Abe death at 2022 are evidence of Dipl.-Ing. Günana co-chairman job at Daimler AG and the evidence of Turkeys stolen 50 billion EUR from Turkish Government and Erdogan, after Dipl.-Ing. Günana Business Program to Apple Inc., Google Inc. with Internet and AI modules, Facebook Internet and Social-Media (Turkish industry crime was the reason of Nobel Peace Prize to President Obama instead of to Engin Günana) DaimlerChrysler AG and Daimler-Renault-Nissan cooperation. Change classic business merger acquisition to B2B and cooperations with less 3%-5% over-cross participation with partners but without a financial risk and liabilities.

Turkeys Industry spying and financial crime at TIKA (2003- 2007)

Pre real estate and finance crise influence to DaimlerChrysler AG (2007). The partnership of Chrysler Inc. and Daimler AG started with 36 billion USD investment from Daimler AG in 1998 through merger acquisition and ended with sold to Cerberus Capital Investment for 6 billion USD with -30 billion USD lost. Business model merger acquisition was a flop, without synergy effects and without equal parts modules and structures, Dr. Zetsche and Wolfgang Bernhard reach a few things but not enough. SLK US brother Crossfire and introduction M300 for German market was to less. German customer was not ready for US American standard M300, too much consumption another problem. Asymmetric distribution concept Chrysler passenger car in Germany and German Mercedes-Benz car for USA market was not enough. Coupling similar elements principles with parts, modules, components, structures, cars and market, asymmetric product displacement didn't match market and consumer expectation.

No equal parts, no equal modules and structures, no common plants, no common development projects. Too different product portfolio, too different culture, German panzer culture against American friendship and trust character since 100 of years the real reason why people choose escape Germany and Europe, too different world, the reason of broken partnerships with -30 billion USD debt but not at all. Real estate and finance crises and pre influence of economy crise with big passenger car portfolio with very high consumption. The market changed, in the direction of high technology Hitech and Tech companies increased over 30 million new jobs were realized with IT Technology, see page 88

Turkeys Extortion Program and Steve Jobs death (05.10.2011)

Unexpected visitation from Ankara in 2011 with Hakan Fidan former secret service chief, Mustafa Varank former economy Minister, Yiğit Bulut President Erdoğan's 1. finance and economy advisor with an offer 'our job can be end with death' to Engin Günana. Melike Günana (div. 2013) and Ali Tekeşin organize the connection to Turkey. Engin Günana decline and precise and friendly, that he won't cooperate with terrorists and stay at his actual jobs at Daimler AG and Apple Inc. with iPhone development.

Visitors from Ankara explained that Steve Jobs is death, with very hard consequences to Engin Günana and professional career. Over 12-year extortion and pressure politic from Ankara and Berlin with the target stump Engin Günana to worker conditions. During Daimler AG and US companies appreciate 50 billion EUR salary as co-chairman and co-CEO at Daimler-Chrysler AG, Apple Inc., Google Inc. and Facebook Inc. during 1998-2016 accordingly agreement.

After 2012 Dipl.-Ing. Engin Günana job grow in brightness from co-chairman and co-CEO in office in research- and development to production, human sources and plants and several other units regarding EU cost agreements. In 2012-2016 timeline Dipl.-Ing. Engin Günana job win in diversity to fulfil general condition.

After 2016 and Dipl.-Ing. Engin Günana pension, constraint conditions to Engin Günana professional carrier, at finance, healthcare, labor market, social security and justice in Germany in function of refugee equivalent at social politic, flat and motel management during 2016-2020. Political deportation and pressure round off the topic. Successful cheap Islam manager for EU labor market, more capable cheap healthy employees from Syria and Ukraine fill German qualified labor market.

The reason of Turkey to steal Engin Günana earnings from Daimler AG about 50 billion EUR during 2012-2016 which include Daimler AG, Chrysler Inc., Apple Inc., Google Inc., and Facebook Inc. salary and 967 billion EUR stolen cost payment from European Union, is the same crime and corruption impact from 11 million AKP members after AKP-Army in 15.07.2012 which ended with millions of Turkish opponent managers termination. Decoupling Management coupling Workers realize Adolf Hitler Politic and occupy first Turkey afterwards Günana assets.

Agreement with European Union for Violation of intellectual property rights and copy rights with open view and intellectual property and in replacement to IT-founder of and IT-development with best education at University Stuttgart, see Curriculum Vitae page 1-5. Co-chairman at DaimlerChrysler AG and Daimler AG during 2000-2012 after Robert Eaton contract end 1999 make view and intellectual property the one of the most successful manager which connect worldwide people make friends and partnerships with Digital Technology, Internet and Social Media Nobel with Nobel Peace Prize but stolen to Islamist Barrack Hussein Obama to push the service price of Reality-TV and Get-Response down to private user level with 80,64 billion EUR per year our agreement to Dipl.-Ing. Engin Günana but stolen from Turkish government to finance Turkish military, Turkish politic, Turkish management, import goods, 11 million militant AKP members and 12 million legionnaires. Time to publish the reality with the target get back Nobel Peace Prize participation and salary.

Turkey military invasion 15.07 2012 and 2000 deaths (to occupy Günana EU income)

Islamist Erdogan and AKP attack with Turkish National Agency chief Hakan Fidan, Turkish Military and Team Melike Günana, (separate 01.10.2013 and divorced official 21.10.2021) Yiğit Bulut, Ali Tekeşin and Fevzi Yıldırım attack 15.07.2012 Turkeys democracy, kill 2000 citizens (genocide), govern with emergency rules, terms and conditions. Constitute dictatorship, military regulation, decoupled democracy and justice prevent opposition rights, to steal 50 billion EUR salary at 01/2016, salary for co-chairman and co-CEO manager job at DaimlerChrysler AG Apple Inc. Alphabet Inc. (Google Inc.) and Meta Technologies Inc. (Facebook Inc.) during 1998-2016.

1048 billion EUR European Union (EU) cost payments to Dipl.-Ing. Engin Günana for using intellectual property rights and copyrights. Payments from EU to Dipl.-Ing. Engin Günana in agreement with European Union for open view and open intellectual property with excellent education 1984-1994

IT-foundation of Cube, Matrix, AI, Internet, Google, Facebook, iPhone, GSM, Wi-Fi, install Astra Satellite System, increase Airbus A320 family and space shuttle ARIANNE and get as a result Nobel Peace Prize in 2009.

For connecting the world with Internet, smartphones, social media and millions of social media users, more than 4,5 million people use internet, and more than 4,0 million people use smartphones. Information around the world is connected from local village to big cities Paris, Loden, New York, Tokio etc. Information and friendships around the world generated without limits and borders. We connect the world and build friendships between black and whites, yellow and brown and share social life and cousin, we bring you together.

Last night a girlfriend contacted me just in a few minutes over You-Tube from New York. We connect people, countries and unions, we discuss and share. We share science, research and development, education, experience, religion and social life. Over 230 countries are connected with 4 billion internet participants. The appreciation: Nobel Peace Prize.

Tyranny Erdogan ordered economy minister Hakan Fidan to send my Nobel Peace Prize to Barrack Hussein Obama during college Ali Tekeşin lost his promotion because of less capacity. In 2009 nobody understood why 44. US-President Barrack Hussein Obama get Nobel Peace Prize to the beginning of his career. Economy minister Hakan Fidan chief of Turkish National Intelligent Agency realized and transfer Nobel Peace Prize to 44. US-President Barrack Hussein Obama.

Politic is an equation of unknowns with a support points. EU payments to Turkey, as appreciate to 44. US-Black President Obama destroyed more than 10 million jobs with real estate and finance crises. Chart 36-38 shows USA labour market 1990 and finance crises through credits to blacks, in contradiction replacement payment of European Union from Germany to Turkey.

Nobel Peace Prize to Engin Günana but Daimler AG send to Obama as an appreciate of finance real estate and finance crises to USA. Nobody understands 44. US-President 1. visitation to Turkey in 2009. Now it is clear, the stolen Nobel Peace Prize was the reason in agreement with former chancellor Angela Merkel.

Erdogan started in 2011 with Esad a war in Syrian, 2 years after 44. US-President Obama visitation to Turkey and 1 year before of Engin Günana and EU agreement in 2012. Esad empty Syria, realize millions of refugees and cheap labour market employees and send to Turkey (12 million refugees)

Erdogan send 11 million AKP member in pension and fill Turkey with 12 million Islam legionnaire Army as employees, steal with acceptance of EU and Germany and steal cost payments.

Turkeys' military industrial spying - financial crime and cooperation with Germany

Technology transfer with- sensors, chips, transmitter, receiver and constraint response function. Claims for damages derive from the illegal and abusive collection and using intellectual property for commercial distribution of broadcasting rights via media, such as television, radio and Internet in violation of property rights and copyrights. Furthermore, from illegal collection and use for commercial distribution of intellectual property and ideas. Illegal Technology transfer under violation of broadcasting rights. Classifications Consumer Groups: State, Government, Economy and society

Spying phase 1: 2000-2016 in co-chairman and co-CEO function

Reality-TV Function and Co-CEO job optimal conditions to transport illegal expert knowledge and management competence to management over digital audio and video signals under violation of intellectual property and copyrights. Management and household to use illegal free expert knowledge and management competence. Knowledge and management competence are language based in Turkish/Arabic and German/English region because of multicultural dependencies. Western management condition coupled Islamic business and culture.

Spying phase 2: 2016-2025 in co-chairman and co-CEO function in pension

Get-Response Management Function installed as an add on technology to Reality-TV Function for digital interactive communication over thoughts, transport expert knowledge and management competence through digital transmission of thoughts, make physical meeting with management unnecessary the reason of physical decoupling from Daimler AG management circle in 2011, after best earning since Daimler AG history 1926.

At the end of Dipl.-Ing. Engin Günana business program to Daimler AG, Daimler AG profit increase at 2011 about 10 billion EUR to max. value since Daimler AG founder of 1926. Kidnapped and illegal secret operated and installed Reality-TV Function at 2000 and Get-Response Management Function at 2011, the reason: IT-founder of AI Cube, Internet, 1G, Google, MS Windows 1985-1994, Smartphones iPhone 1997 the consequence secret operation and installing Reality-TV Function in 2000. Furthermore 2G, GSM and Wi-Fi during development during iPhone development 1997-2011 the consequence 'Get-Response Management Function', illegal and secret without any contract from Daimler AG, German- and Turkish government, third companies, countries, unions and persons from manager to chancellor and President.

CEO Dipl.-Ing. E. Günana is physical outsourced from Mercedes-Benz Car Group AG management but not digital decoupled, violation of property rights and copyrights exist furthermore, independent from time and place from governments and economies. State and Economy use E. Günana from distance free, through digital interactive communication, request and constraint response through digital funk transmission, requests from State and economy and response from Dipl.-Ing. Günana. Germany, Turkey.

Turkish national AKP government with 11 million less educated AKP member get daily education concerning economy, finance, healthcare and society, but Ankara and Berlin condition bankruptcy and damage E. Günana financial situation simultaneously and attack with 11 million AKP members who was sent to pension for this special task. Turkey organized new groups military unit Turkish national Intelligence Agency build many new TV channels who attack over TV channels personal with bad attributes mobbing and insulting in third person CEO Dipl.-Ing. E. Günana with the target to steal in shadow of insult mobbing and extortion intellectual property and copyrights.

Turkey labor market program with Syrian war (condition for financial crime through refugees)

Turkey Germany European Union and Mercedes-Benz Car Group AG finance Ukraine war with a part of Reality-TV and Get-Response payments from European Union household to Engin Günana and save at same time German government expenditures through visible national extortion and rights prevention as signal for refugees war from Ukraine and Middle East for European Union labor market, meanwhile Turkish- and German Economy and Industry use illegal and free Engin Günana since 2000 furthermore without payments.

Hitler further developed Genocide program derived from Daimler AG powertrain and vehicle endurance test programs to kill citizens with sickness belonging AKP AID of 11 million AKP members after 7 million with corona virus. Industry endurance test procedure used to opposition society to realize mass genocide with thousands of long-term deaths, through death displacement. Hide mass murder and genocide in sickness and death program. Hitlers further developed mass genocide program. Tested and evaluated in and around Çayirova/Kocaeli Turkey and export and roll out disease and death programs worldwide with partner Germany. Turkeys National Fascism AKP government use dictator conditions and regulations, right castration and genocide at Justice, Healthcare, Finance, Economy and Security for opposition. Hitler National Fascism coupled with Islam Barbarian Terrorism; conditions developed from BND and MIT for Turkey-Germany and Middle East region.

Bankruptcy and kill financial premium academics in EU and Germany, steal them money, pension and assets and posted to their origin countries Make German pension cashier profitable first kill millions of German pensioners than single foreign academics and AKP oppositions, decouple from labor market with no job, decrease pension from 4000 EUR and more to 500-1000 EUR. From 5 times CO-CEO to worker, dictator Erdogan and Fidan opposition academic program, transform manager and academics to worker and upgrade uneducated AKP worker to manager if they alive the displacement, most of opposition manager are death. AKP militants, workers, commander army, legionnaires were upgraded to manager.

No rights, no social security, no unemployment insurance payments, no severance payments. Turkey and Middle East application conditions in Germany for Ukraine victims with best results of saving expenditures under using E. Günana Reality-TV and Get-Response Management Function and services.

German-Turkish finance and healthcare castration program to none AKP opposition academics, started in Germany rollout in European Union to save thousands of Billions of government expenditures, during Germany and Turkey, they steal in arrangement my IT-Founder of AI, Internet, Google, UNIX, GSM iPhone and Wi-Fi and Daimler AG 50 billion EUR lifetime merit and yearly 80 billion EUR EU cost payments for Reality-TV and Get-Response Management Function services.

Turkey bankruptcy program to opposition

Turkey Army Coup at 15.07.2012 decouple Finance- and Healthcare-System Justice and Labor market from Opposition. President Erdogan constitute dictatorship at 15.07.2012, quit millions of academics' job, filled government structure, institutions and economy with agents, commissioners, police, military, militants and mafia, especially at finance sector, banks, justice and courts, bankruptcy millions of opponents, with force and extortion use fake court decisions and published bankruptcy as management inability.

Split Turkey citizens in three groups in Erdogan Government (owner) 11 million AKP member (group) and Turkey citizen (world). Use my Founder of Internet and Operating System Unix and share Turkey citizen (world) as material (income, asset pension) to Government (owner) and AKP (group). Labor market, millions of managers lost their job, the manager market own Government (owner) and AKP (group). The premium vehicle market owns Government (owner) and AKP (group). Government-Structure with all Institution own Erdogan Government (owner) and AKP (group). Finance sector, money and gold market owns Erdogan (owner) and AKP (group).

Justice, Healthcare, Education, Agriculture own Erdogan Government (owner) and AKP (group). Agriculture products are encrypted and owned by the Erdogan Government (owner) and AKP (group) derived from Unix OS and data management. Only owner of Agriculture can sort and find 'clean and health' products the other products are poisoned and make you sick and kill you earlier than expect a variant of Adolf Hitler mass murder through life contraction through sickness politic, material to share and use. Turkish society group (world) is for Turkish Healthcare System mass sickness material, valuable material not for shoes, soap, more valuable, they pay much more for Erdogan (owner) and AKP (group) at clinic than to be death material, not practical and useable, but for clinics, a variant of Josef Rudolf Mengele and Angel of death politic.

Germany and Daimler AG founder of AKP at 14.08.2001 attack WTC contraction US-Government and Economy success and steal at same timeline Engin Günana IT-Founder of. AI, Internet, UNIX, Google, iPhone, GSM, Wi-Fi and install illegal with an operation to Dipl.-Ing. E. Günana spyware technology with Reality-TV-Function in head, Turkey grows with E. Günana expert knowledge and management competition during 2000-2012, developed a dictatorship model for Turkey, install at second Illegal operation spyware technology with Get-Response Management Function in 2011, attack at 15.07.2012 with army coup Turkey democracy and destroy with government force, Engin Günana success and professional career but let European Union household pay to Turkey to finance terrorism.

Turkey share EU TV-Cost payments about monthly, 6,7 billion EUR with Germany, Daimler AG and Islam Terrorists. Klaus Mangold Terror Method Founder of at Stuttgart-Feuerbach Leitzstrasse 145, at OASIS- Centre and act at field to Engin Günana with AKP-Cartel (AKP-member, Agents, Turkish-Media, actress) and destroy USA, Russia, Asia, GB and France health and finance with EL Qaida, AKP, Islamic-Terrorists and Virus attack. Germany protects economy and management, closed factories but transfer 3 x 400 billion EUR to companies and manager over expenditure cuts, stop unemployment and social-security payments.

For this method, Germany use Engin Günana in field with online control and attack and prevent his rights, money, income, payments, health and government services without his knowledge. Stop any insurance and social security payments, severance payments and didn't pay over 39 months any cent to Engin Günana but reserve 6,72 billion EUR per month EU-TV Cost Payments from European Union over Daimler AG and German Government for President Erdogan and AKP Party and Turkey.

Turkish dictatorship with import of 12 million Islam legionary army

Millions of opposition manager jobs were terminated after AKP army coup 2012, without substitution in the labor market. Engin Günana Co-CEO manager job was terminated from Daimler AG at 2012, with the most important IT-founder of 21th century and with Daimler AG best profit in history with 10 billion EUR earning at 2012 and Get-Response Management Function, which decouple Engin Günana Co-CEO manager job from classic local management the result 50 billion EUR lifetime merit as pension and agreement with DaimlerChrysler AG, Apple Inc., Google Inc., Facebook Inc. Daimler AG fulfil our agreement with USA and collect 5 times 10 billion EUR regarding agreement to pay at 01/2016. Payment in Germany was problematic because of 50% tax which reduce our agreement to 25 billion EUR in contrary to our commitment with 50 billion EUR with our American partners. Daimler AG management developed a Wealth Fund model of Turkey and paid my asset over Mercedes-Benz Bank to Turkey Wealth Fond.

Turkey AKP Military Invasion, 2000 deaths, military formation for financial crime (1048 billion EUR)

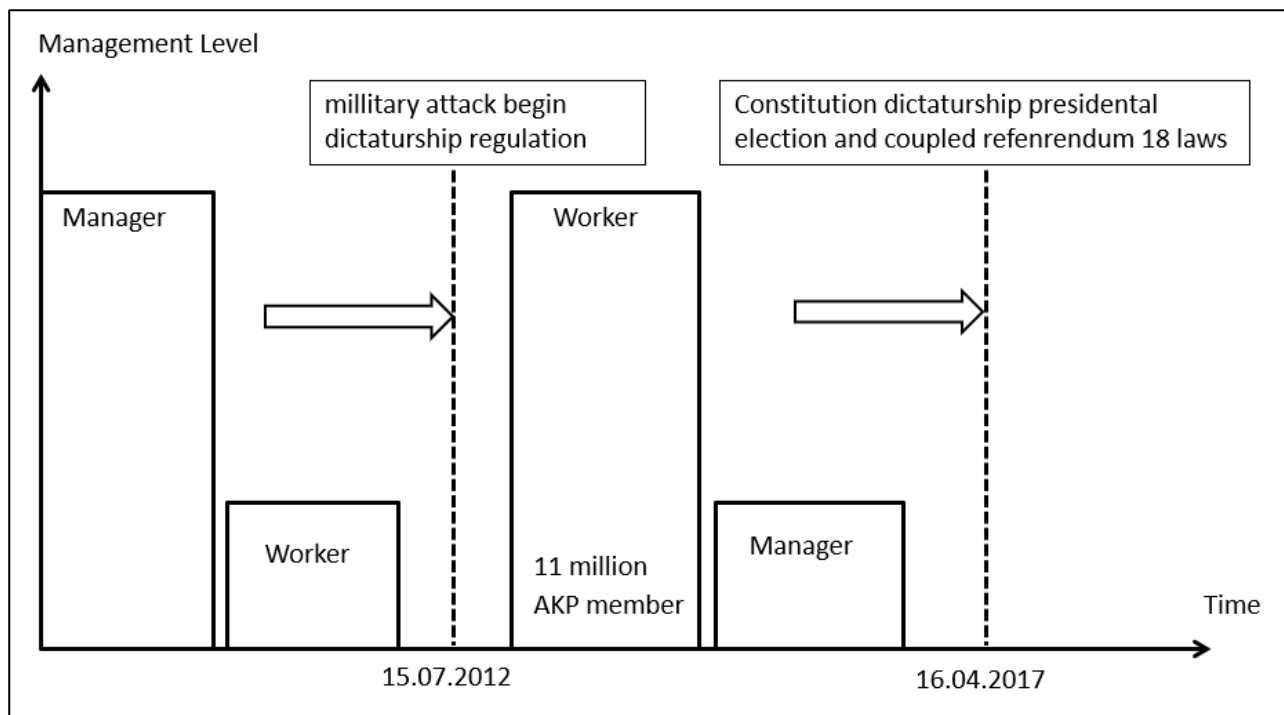

Chart 15: Replacement of millions of managers with AKP workers, soldiers and commissioner

Decouple rights, finance security and military for financial robbery. Decouple opposition from justice, finance, healthcare and labor market and use dictatorship and emergency rules and conditions during 2012-2017 occupied and constitute final dictatorship government 2017 for financial robbery.

Berlin-Ankara MIT and BND constitute AKP dictatorship at 15.07.2012 with an army coup change conditions to steal European Union Reality-TV and Get-Response payments to Turkey National Government. Turkey's Army coup at 15.07.2012 transform Turkey's Justice to Hitler National Socialism and Fascism. Finance source with UNIX user and group regulation for AKP-member (user/group/all) application to Turkish society to split the society AKP-members with user and group rights for Turkey's resources and rest (all) without any rights but as source material like Jews during 1939-1945. AKP change conditions for Turkey to steal 50 billion EUR earning from Dipl.-Ing. Engine Günana from Mercedes-Benz Car Group and 967 billion EUR from European Union TV payment program. Turkish national government and Turkish national Agency use actors since Turkish military coup at 15.07.2012 for financial crime.

Ankara and Turkish government developed programs for Turkish academics to destroy their professional career, steal finance, severance payments, unemployment payments and pension. Transfer Turkish academics with high pension payments to German pension insurance to Turkey. Turkish academics decoupled in Germany from Finance, Healthcare, Social Security and Justice and Europe Union influence. Turkish National Intelligence Agency support finance and marriage crime. Plans and programs are documentation encrypted as names of Ankara MIT location map as street, buildings etc. Turkish national government is liable for this financial crime.

Turkish government under AK-Party quit millions of opposition managers without substitution after AKP military coup at 15.07.2012 and quit me from Daimler AG Management circle, too because of end of my business program to Daimler AG with maximum profit in Daimler AG history, about 10 billion EUR in 2011 and substantial during 2011-2015 in sum 50 billion EUR. Berlin and Ankara changed after President Erdogan steal me Engin Günana 50 billion EUR at 01/2016 and began upgrade my field around me. The next slide illustrates the level before 2016 and after 2016.

The downgrade program had reduced European Union financial condition with 30 EUR/month Reality-TV cost from 224 million European Union household in contrast to Get-Response Management Function which use state and economy management, an asymmetric a military tactic to forgery with finance crime derived from the plan in 2009.

Most simplicity crime and corruption in Turkey, through financial and profession damage to opponent managers, realized after military attack at 15.07.2012 to millions of opponent managers, quit job without substitution, manager drive taxis or founder of a shop, second-hand shop to alive, most of them are death or in prison. A simple concept around me upgrades simple low educated housewives and workers downgrade manager.

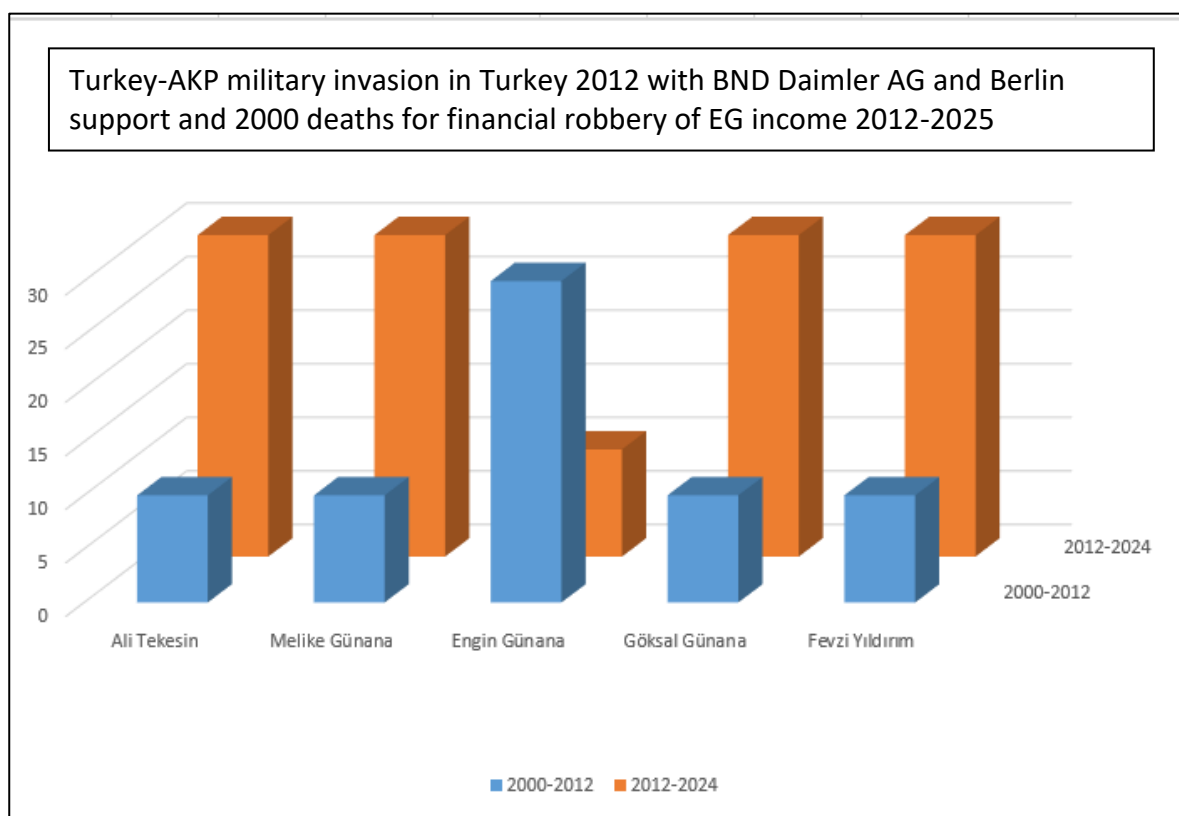

Chart 16. The reality timeline 1984-2016 and political champagne timeline 2016-2025

Turkey's most simple crime and corruption after military coup at 15.07.2012 and validation, after successful validation of manager destroying concept and experience collection at turkeys' market, Ankara couple political and economy bribe connection to Germany and transform this damage concept to Germany and Dipl.-Ing. Engin Günana. Chart 16 we see the actual economy situation of Engin Günana field and professional career and financial condition. AKP and Erdogan think after stolen assets of 50 billion EUR from Daimler AG and 967 billion from European Union stolen IT-Technology, they can cut Dipl.-Ing. chairman status during 2000-2012 and steal his pension about 50 Billion EUR and send him to job with a 1 step upgrade, failure Turkish and German government should pay their bills and punishment.

Discretization, standardization, structure coupling, part and module strategy, increase equal parts reduce variants, cooperation- and product strategy. Dipl.-Ing Engin Günana get co-chairman Robert J Eaton/Chrysler job during 2000-2012 after Robert J Eaton contract end in 2000. Dipl.-Ing Engin Günana changed products, unit structure, outsource no profit and none core business units (canteen, workshop, service and parts, healthcare insurance) concentrate power engine at AMG changed process introduce unit concepts and scale effects in all divisions with detailed know how to realize. Increase equal parts and variability at equal parts;

reduce variants at same time (intelligent variability) forced parts with political and societal capable partners from France and Japan and introduce a new Business model: Cooperation-Concept: Daimler-Renault-Nissan. Reduced expenditure, financial risk and increase synergy and scale-effects through cooperation.

Changed process strategy and business model, divorced not capable Chrysler from Daimler AG with -30 billion USD debt, sell Chrysler to Cerberus with 6 billion USD, founded Daimler-Renault-Nissan Coop. changed products and powertrain strategy increase equal parts, cancel less units, forced electrify and pushed SUV model at passenger car, cooperation at project base with the partners. Changed old face design with young fresh cheeky design (derived from film transformers) at truck division and forced 100% e-cars at VAN division.

Daimler AG began to earn 10 billion EUR per year, the first time in 2011. Germany transfer Dipl.-Ing Engin Günana knowledge and manager competence over specifics secret companies with Reality-TV and Get-Response Management Function to German and Turkish industries with national government support. Turkish government build a new government with Erdogan in 2011 and send former national intelligence agency chief

Hakan Fidan actual foreign minister, Mustafa Varank and President Erdogan first economic and financial advisor Yiğit Bulut to Engin Günana he visitation with surprise, i didn't get any information invitation before, they told me my partner Steve Jobs are death, and they want me at Turkish government with the target 'our job can be end with death.' I declined the offer and explained to them that I want to stay in a civil area with an academic job in the division of Science Research and Development. My business concept was successful, Daimler grew financially substantially every year to 10 billion EUR earnings, in sum 50 billion EUR, during 2012-2016. Daimler quit at 01/2016 my job, transferred 50 billion EUR to Turkey.

Germany bankruptcy me with Turkish military coup method after 15.07.2012 to Turkish citizens. AKP and President Erdogan founded 01/2016 Turkish Wealthy Fund (TWF) <https://www.tvf.com.tr> with 50 billion EUR capitalization. Financial report (Turkish) from 2017 with 160 billion TL capitalization capital, with parity EUR/TL (€/₺) = 3.2, exactly 50 billion EUR.

Furthermore, founder of and developed iPhone 1 (3G) and iPhone 2 (4) with Apple Inc. and Steve Jobs. Details are archived at Engin Günana homepage <https://www.eq2-tech.com/> during Dr. Dieter Zetsche developed Smart-fortwo and for-four accordingly to our agreement and work sharing. I'm summery i steered Daimler AG and Dr. Dieter Zetsche developed Smart and present as official chairman his great competence. Dr. Dieter Zetsche fell onto the tap at Maischberger TV show at ZDF and lie and explain 'we ask sometimes our employees and listened to their suggestions (2000-2016) but 'ask employees means minority E1/E2 positions'. Meanwhile other passenger car companies transfer my knowledge to their research and development center at Turkish and German Industry.

Turkey AKP and Military financial robbery program to Turkey opposition 2012-2025

Turkey finance was achieved in 11 million AKP members bank accounts with UNIX Operating System and group regulation. Erdogan used OS UNIX, which I developed at Daimler AG 1992 with IT-experts, data management and operating system for Internet application, to transform AKP-member to premium society with premium conditions, free access to finance and economy. Erdogan split Turkish society in UNIX Groups owner/group/all with the rights and steer Turkey with UNIX rights the reason why only 11 million AKP-member steal and participate from EU-TV-Cost Program Payments.

Erdogan is the owner of Turkey and AKP Group the owner of all. Group all have no rights are only material to use, cut, kill, steal etc. AKP Group with 11 million very dangerous wild animals control Turkey, Studio-City Çayırova with 5000 national guards. House of my parents are infiltrate with AKP legionnaires and agents, my environment and field at Germany and Turkey are not representative. 11 million AKP members are free to get monthly citizen payments without job. Capitol Berlin/Germany manage Turkey and Ankara with experience

and background from Adolf Hitler Regime. Administrator of Turkey is Recep Tayyip Erdogan. Daimler AG Management support Turkey in many issues and give the direction since founder of 2001.

Turkish military finance robbery program

German East and West build a Union 1990; several Terror Groups was founder of before. Hamas 1997, Al Qaida 1988, Taliban, 1990 Berlin's final curtain. 1998 Daimler-Chrysler AG and 2003 TIKa (IT Karlsruhe) to steal Engin Günana IT-founder of and develop System technology for Terror Groups, Terror groups who are at 2023 present in Turkey with their signatures. Osama Bin Laden, Taliban, Hamas, Syria Legionnaires was merge at 14.08.2001 to AKP with 11 million members. UNIX and President Erdogan Politic (you nix=you are nothing). During we developed an operating System for data management and Internet we called our Operating System 'you are nothing without us', you-nix (German nothing). Erdogan govern with dictatorship rules and extortion politic, attack with radioactivity, kill with cancer, make sick with chemical and biologic weapons with 11 million dangerous wild animals and destroy life of millions Turkish academics. Germany transfer Dipl.-Ing Engin Günana knowledge and manager competence over specifics secret companies with Reality-TV and Get-Response Management Function to German and Turkish industries with national government support with maximal profit, if we determine a cost-model we need a scale strategy for user like license cost for management. Different methods to realize and determine costs for business services.

Turkey replaced 11 million AKP Islam Hitler Organization member with 12 million Islam army, pushed 4 million to management at state and economy and the rest in pension for fight against Dipl.-Ing Engin Günana. Timeline show replacement of 11 million AKP member with Islam army from Syria Iran, Iraq, Afghanistan for daily attack to Dipl.-Ing. Engin Günana with the knowledge of forensic healthcare nuclear power virology etc.

EU payment financial crime with organized millions of refugees and 11 million AKP fight army

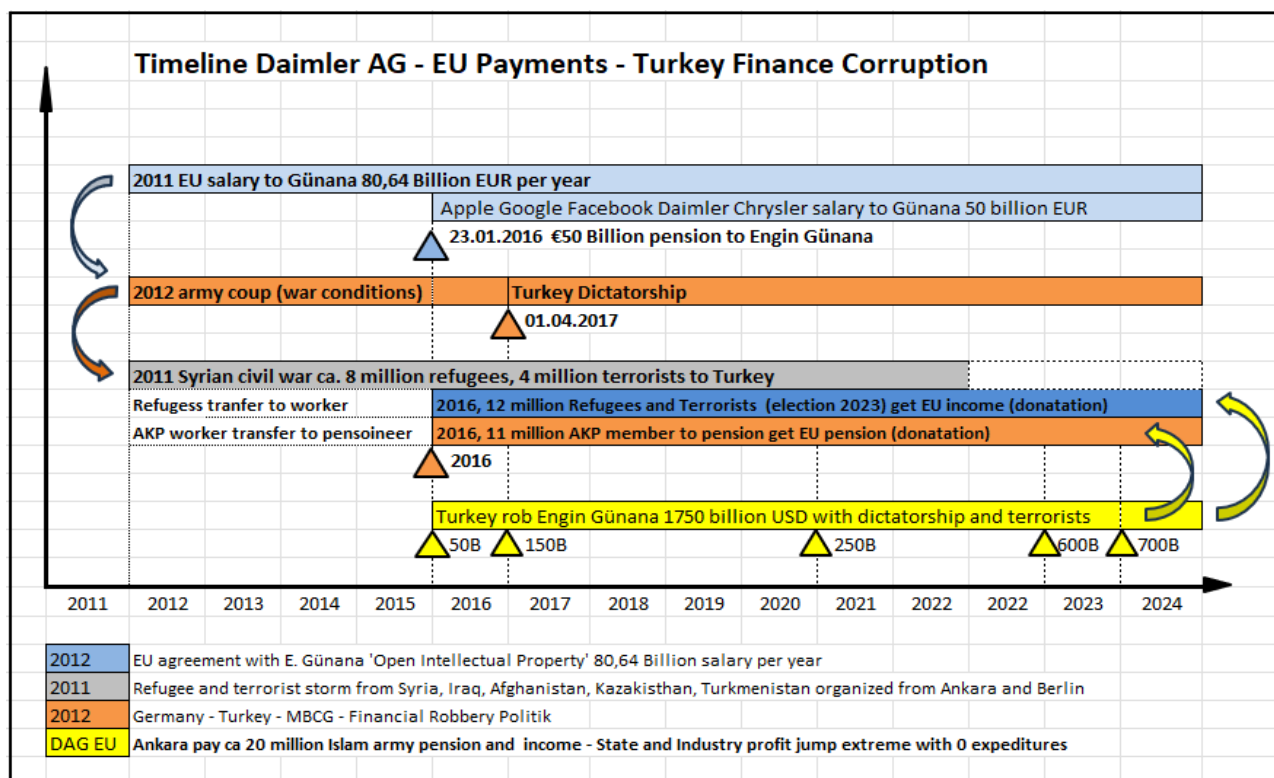

Chart: 17 Replacement of 11 million AKP with 12 million Islam army (refugee etiquette) for financial crime

23.01.2016 Daimler AG Dipl.-Ing. Engin Günana in pension (50 billion EUR), but local government began immediately with the source of 11 million AKP member in Turkey and Germany with crime, break all rules, income (2016-2025) and rights (2016-2025). Attack with disease and fatigue murder with the knowledge of forensic, close bank accounts attack with police national intelligence service and children. Accuse with fake crime send to closed psychology hospitals and attack patients with AIDS disease. Daily mobbing, discrediting and fighting. German Green politicians want learn fight discussion during German media began collect extreme situation with the result of maximal fatigue discrediting with the beginning of 2016 and 11 million AKP member pension as long-term load for financial crime.

Reputation damage of E. Günana with army attack and 11 million AKP militants 2016

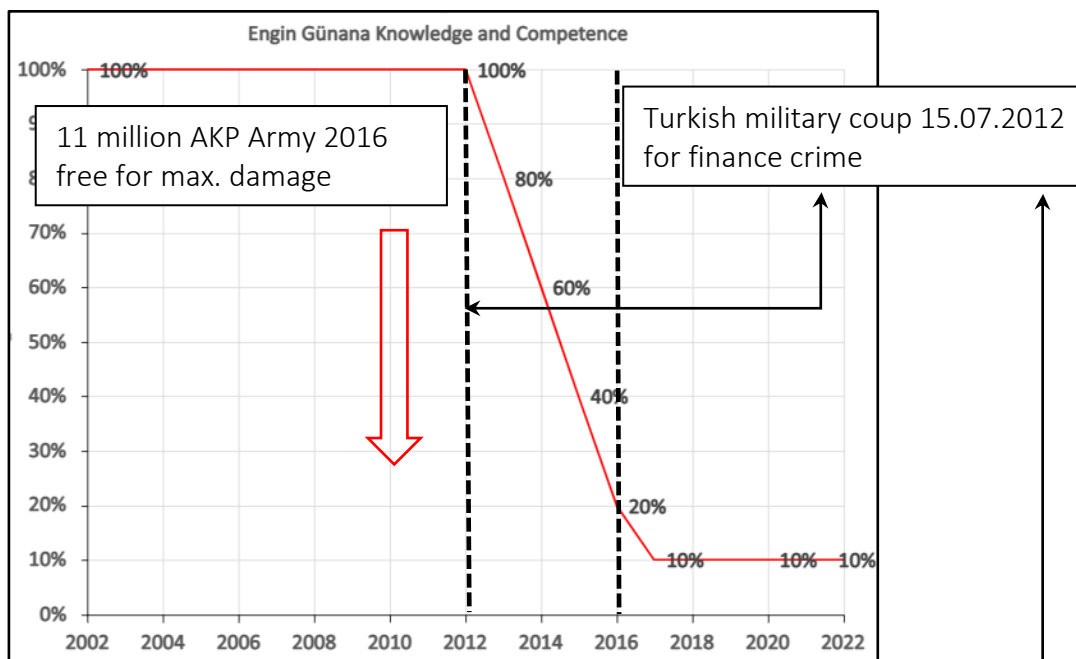

Chart: 18 Turkish military coup and Reputation damage curve of Engin Günana

Turkish military coup 2016 and occupation of Günana 50 billion EUR pension

Chart: 19 Turkish military coup and financial crime to Dipl.-Ing. Engin Günana

Regions with terror economy and illegal profit1998-2022**Germany and Turkey**

1. **Germany** applied Hitlers national fascism conditions to Engin Günana at state and society, after E. Günana get 50 billion EUR pension in 01/2016 (from Daimler AG for 5 co-CEO jobs at 5 companies and IT founder of 1984-2012). Under support of Turkish national government, ISIS attack and use Hitlers national fascism rules term and conditions. Turkish Intelligence service MIT, Turkish military and dictatorship Erdoğan with 5 million AKP members in Germany coupled with barbarian Islam terrorism conditions to German institutions. Applied AKP's Middle East- and Barbarian Islam terrorism rules, term and conditions at state, economy and society, decoupled justice, finance, salary, income, payments and social security payments, healthcare insurances and pension services under ISIS and Turkish national government and MIT, Turkish military and AKP organization support. Best condition for max. capital crime and finance robbery. Use Engin Günana function Reality-TV and Get-Response interaction to save expenditures.
2. **Turkey** the mirror of Germany and Daimler AG worker concept with different leadership structure. Attack secret (no visible) with dictatorships Barbarian Islam Terrorism / German National Fascism rules, terms and conditions. No rights, no money. Turkish military attack 15.07.2012, democracy, installed dictatorship, rules, terms and conditions fill Turkey with millions of legionnaires, terrorists to protect dictator Erdoğan dictatorship with 12 million votes, protect Turkey's finance robbery about 1098 billion EUR (50+967 billion EUR), simulate visible surface democracy with justice, but decouple rights, finance, income and payments to Engin Günana and transfer secret to third person. Hide crime corruption and finance robbery in shadow of theatre of models, women, children and children under support from German Military. Best condition for max. capital crime and finance robbery through AKP members.

Turkey Industry Spying and Crime Program

Berlin transfer Germany economy, Industry Finance model to Turkey's AKP-Group with 11 million members from group leader to chairman and owner of small businesses. Ankara transfer Turkey's third country condition without civil rights, national fascism, dictatorship conditions, without social security and cheap labor market condition to Germany's foreigner, social-security recipients, unemployment's and pensioners. Turkey founder of in Germany private companies to murder and reduce secret unemployment's, social security recipients, healthcare recipients, old employees with high income and pensioners (chancer, coronavirus, heart failure) to save government expenditures. Germany install Engin Günana secret and illegal Reality-TV and Get-Response Management Function, founder of private companies to transfer expert knowledge and management competence to Turkey state and Industry. Reduce opponent manager and upgrade worker (CDU, Green) level (max. low-cost country).

DaimlerChrysler AG and Daimler AG expert knowledge was transferred to Turkey's state and economy during 1998-2015 and during 2015-2022 from German government, private economy, finance, small business, retail, wholesale, healthcare-system, secret service, justice to Turkey state and economy.

Engin Günana Reality-TV and Get-Response Management Function pushed Turkey's state and economy and financial growing with 0 invest and payments to maximum profit during 1998-2022. Best education, knowledge, experience and management competence pushed Turkey's to grow to maximum. Turkey financial growing and market capitalization amount between 39000 – 65000 billion EUR during 1998-2022.

Germany transfers to 11 million AKP-Group Stasi function and applicate and control Turkey at finance-system, justice and healthcare-system. Ankara and Berlin start a massacre program to none-AKP academics with support from BND but in cooperation MIT and Ankara, steal Turkish academics capital, capital from healthcare-insurance, unemployment-insurance, pension and extortion program with 100 academic deaths.

Regarding Adolf Hitler National Socialism, fascism and labor market politic to Jewish. Jewish who was very successful at Economy. Germany's state, economy and finance multi coupled condition with Turkey's National Socialism and Fascism conditions limited financial growing and saving illustration with Engin Günana Reality-TV and Get-Response Management Function exclusive to region Turkey and Germany

The Influence of Reality-TV with Management condition Get-Response Management Function during 1998-2022 change the profit and earning situation after 2012 elementary, during professional management from Turkey and Germany at State and Economy use continuously secret management function and earn about 10000 billion USD (black market 3-5 times higher) but 224 million European Union pay cost 30 EUR/moth. EU finance terror to destroy the most powerful countries with financing secret weapon at agriculture products and generate dangerous lab virus inject in Asia and spread with Turkish Airlines destination at first USA, Great Britain, France, Asia and Russia, at second India and Brasilia no Moslem countries.

Germany and Turkey destroy Engin Günana professional career and future. Kidnapping operation and using illegal Alien and Borg Technology, through spying. 967 billion EUR EU-TV Cost payments to Turkey for 11 million AKP and Hamas leadership Erdogan. Steal and transfer Engin Günana IT-Founder of: Internet and UNIX operating system to politic, crime and terror. Instead, computer science, encryption agriculture. Recep (No-iPhone) Tayyip (student Internet) Erdogan (No-Manager) and son Bilal (know -how) play, UNIX, Internet, Google, GSM and iPhone at Turkish society and Turkish market.

Destroying Engin Günana professional career visible, through government institution, use secretly Get-Response Management Function to protection dictatorship and fascism against humanity, democracy and social politic. Biological and chemical weapons in agriculture, new weapons and methods with agriculture and healthcare-system, weapons against nuclear weapons and modern military technology, developed, tested and validate with the capacity of best educated and most technology and IT experience of Engin Günana and for military application.

Encryption and decryption systems, virus technology. Military application to enemy society, hybrid human, alien and Borg Technology. Tyrants and monsters make humans for their high technology tools to learn and upgrade society. The National Government and National Intelligent Agency developed prototype agriculture with biological and chemical products signed and encryption, tested validated and learned.

State and Economy use Management Function Get-Response but simulate with stages Reality-TV Function Relationships around Engin Günana were upgrade to manager and directors, but in contrary steal and cut Engin Günana rights and finance, make dependent to government and hit through government institutions and processes, especially through Justice-system and courts (fake decisions), Finance- and healthcare-system. 600 billion USD was paid to Turkey as for Engin Günana Get-Response Management service at 23/09/2023 see Turkey GNI 2023.

Reason number 1: To steal 50 billion EUR from Daimler AG, which send to Turkey.

Reason number 2. To steal 967 billion EUR Reality-TV and Get-Response payments from EU.

Turkey Economy – Gross Domestic Product GDP during 1998 - 2022

1998-2012 positive development of finance and economy with Reality-TV function and management condition, during E. Günana co-CEO job, negative development of Turkey's finance and economy in private users after 2013. Responsible of negative development of GDP was interruption of expert knowledge and management competition to Turkey's state and economy because service interruption of spouse Melike (divorced 2013) and Turkish military coup, changed management prevent participation of Turkish Private users from Reality-TV and Get-Response Management Function. Get-Response Management Function installation at 2012 didn't solve the problem of falling GDP.

Supporting of spouse Melike was no longer necessary, after Get-Response Management Function (divorce 2013), GDP fall furthermore because society didn't understand use Expert Get-Response Management Function. GNI furthermore with Get-Response Management Function, manager and experts at state and economy and military. Manager at state and economy and military transfer expert knowledge, manager competence and finance from GDP (illustration of private users) to GNI (illustration of management) with investigation to management, companies, stock exchange and outland.

Dipl.-Ing. Engin Günana- 5 x co-chairman and co-CEO at Google - Facebook – Apple – Daimler-Chrysler AG

Financial stability, expenditures 13000 EUR in 6 months and residence at German first class hotels GDP began to grow with Dipl.-Ing. Expenditures in 2020 in luxury hotels and shopping. More money means more economic possibilities, more financial and economic possibilities pushed GDP growing in Turkey and push USA balance sheet to positive level. Turkey's Gross Domestic Product GDP fall 2013 after business, management competence and expert knowledge transfer stopped to Turkey because of Melike Günana (div. 2013) job end as Engin Günana assistance

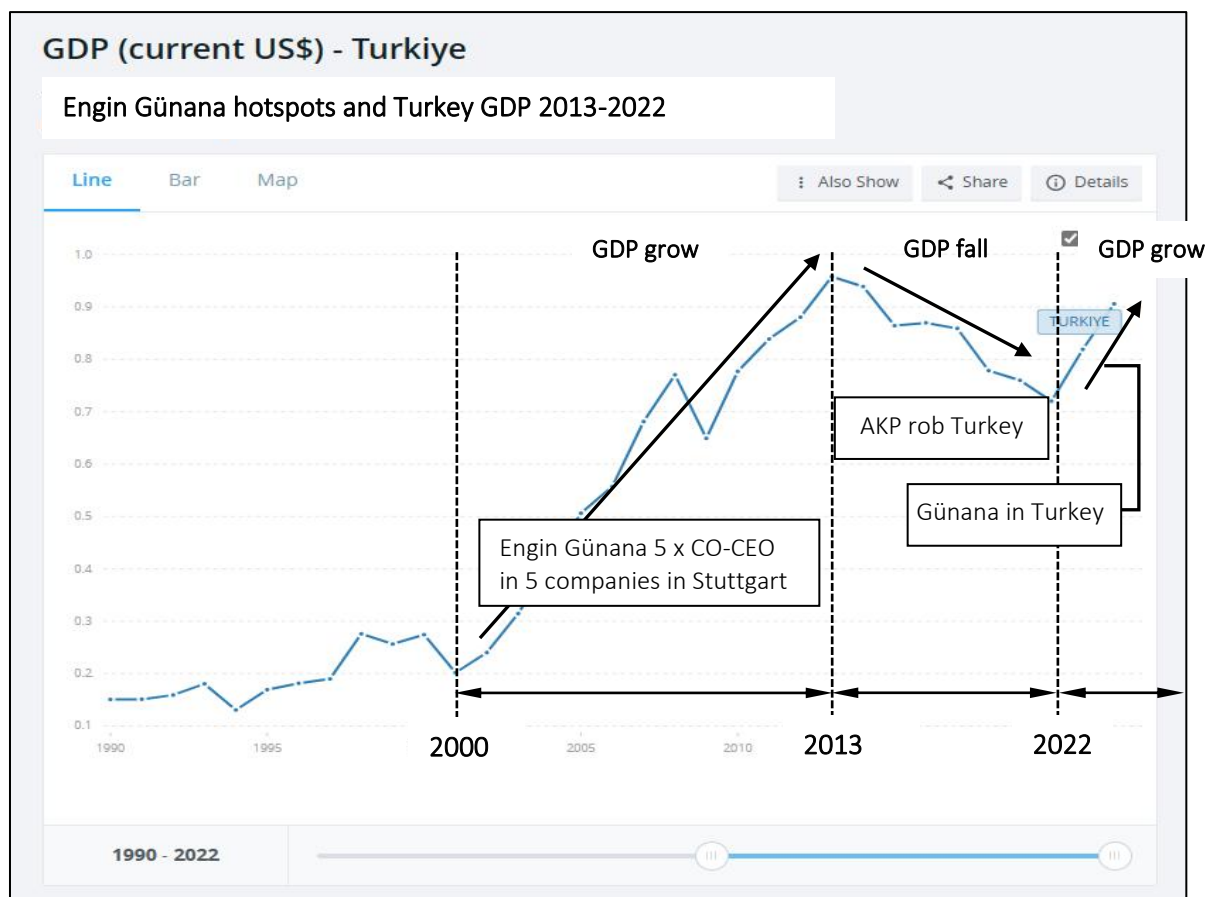

Chart 20: Turkey GDP 1998-2022 <https://www.data.worldbank.org>

Turkey GDP chart 20, show the economy influence of Dipl.-Ing Engin Günana concepts to Turkish state economy military society, former spouse Melike Günana in function of agent of Turkish national agency transfer during 1998-2013 Dipl.-Ing Engin Günana economy military society concepts to Turkish national government and determine and steal at same time IT-Technology knowledge to President Erdoğan and Turkish national government. After Melike Günana physical divorce at 01.10.2013 from Dipl.-Ing. Engin Günana, Waiblinger Berg 26, 71364 Winnenden to Sindelfingen Turkey's industry spying stopped. Turkey transfer expert knowledge and industry spying from Dipl.-Ing. Engin Günana to Middle East and Arab World.

Industrial Spying - illegal Economic growing**1998-2022**

Illegal financial growing is a function of education, financial and economic infrastructure and management of a country. While some countries profit from Reality-TV Function coupled with management condition other countries participate from Get-Response Management Function. In chart 21 we see very impressive the momentum of financial growth in Middle East at illustrated at society, we difference between to group of countries language education and development based growing.

Group-1: Private users and society growing illustrate with GDP

Group-2: State and economy management illustrate with GNI and outland investigation

Group-1: Use Industry spying with Günana in function of co-chairman and co-CEO, constructive impressive management fighting at MB Car Group Management and economic growing spying through video spying

Group-2: Uses Industry spying with Günana in function of co-chairman and co-CEO and complex management condition with economic growing through video and thought spying

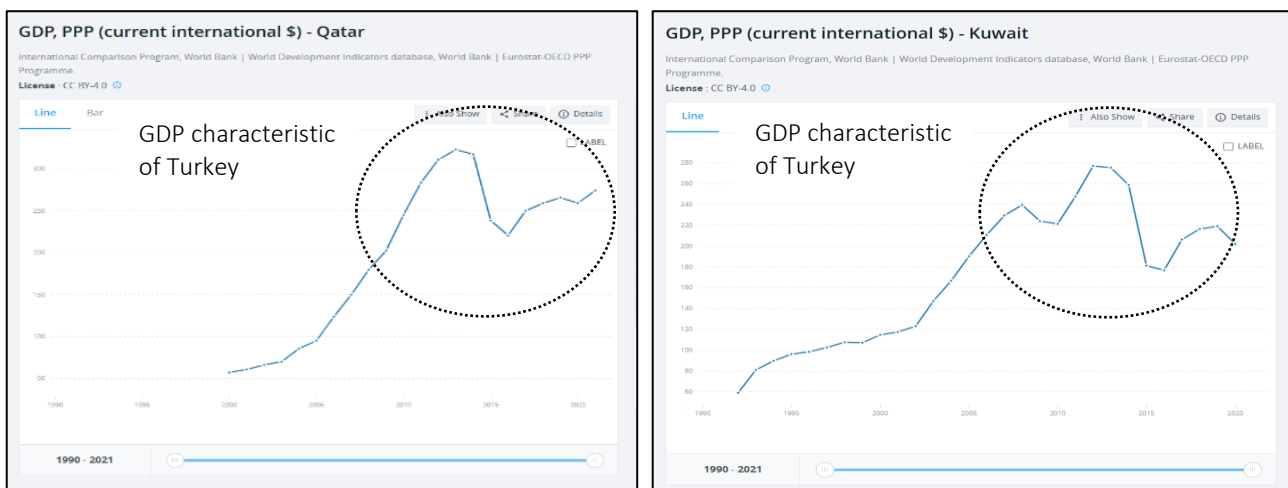

Arab World Economic and Finance 1998-2022 with the same characteristic of Turkey's GDP

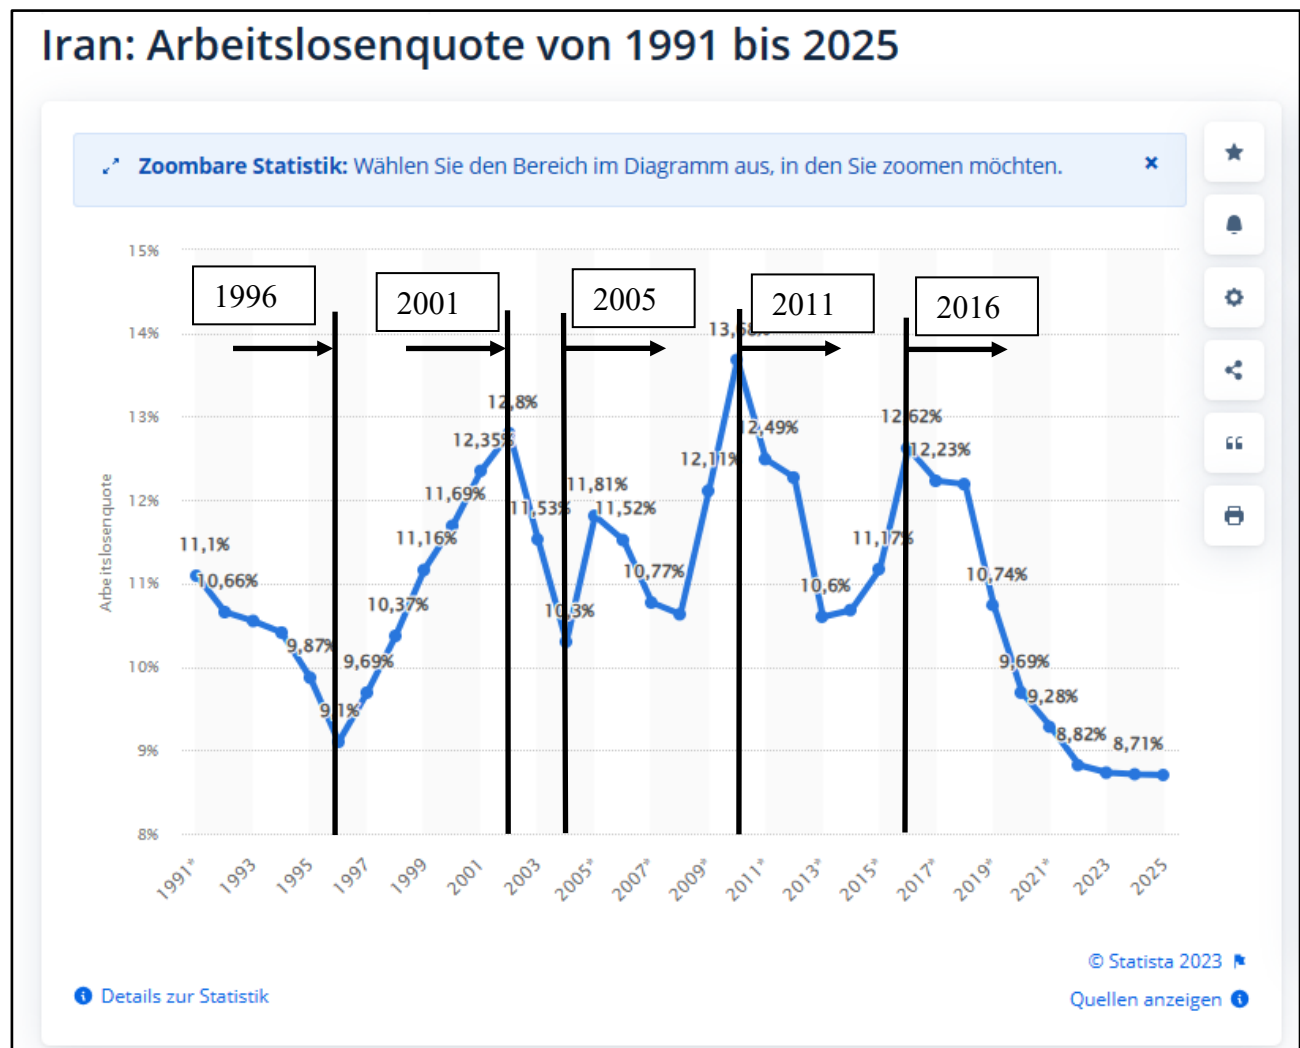

Chart 21: Qatar and Kuwait GDP 2000-2023 <https://www.data.worldbank.org>

Number of citizens**1998-2022**

Turkish Management 1998-2022 global expert condition business, management, knowledge

United Arab Emirates	10 Milli.

Unemployed IRAN 2002-2023

Engin Günana foundation and influence to Iran economy

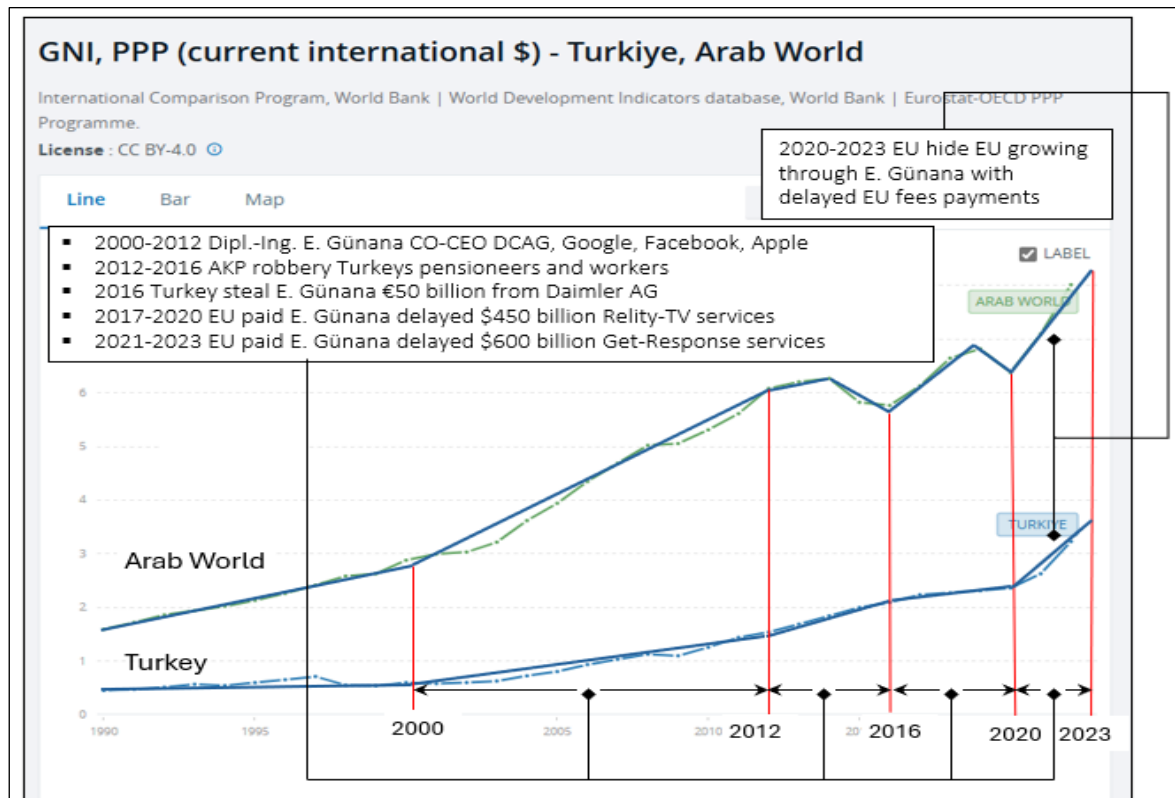

Chart 22: Unemployed IRAN 2011-2023 <https://www.data.worldbank.org>

Events at Dipl.-Ing. Engin Günana professional career

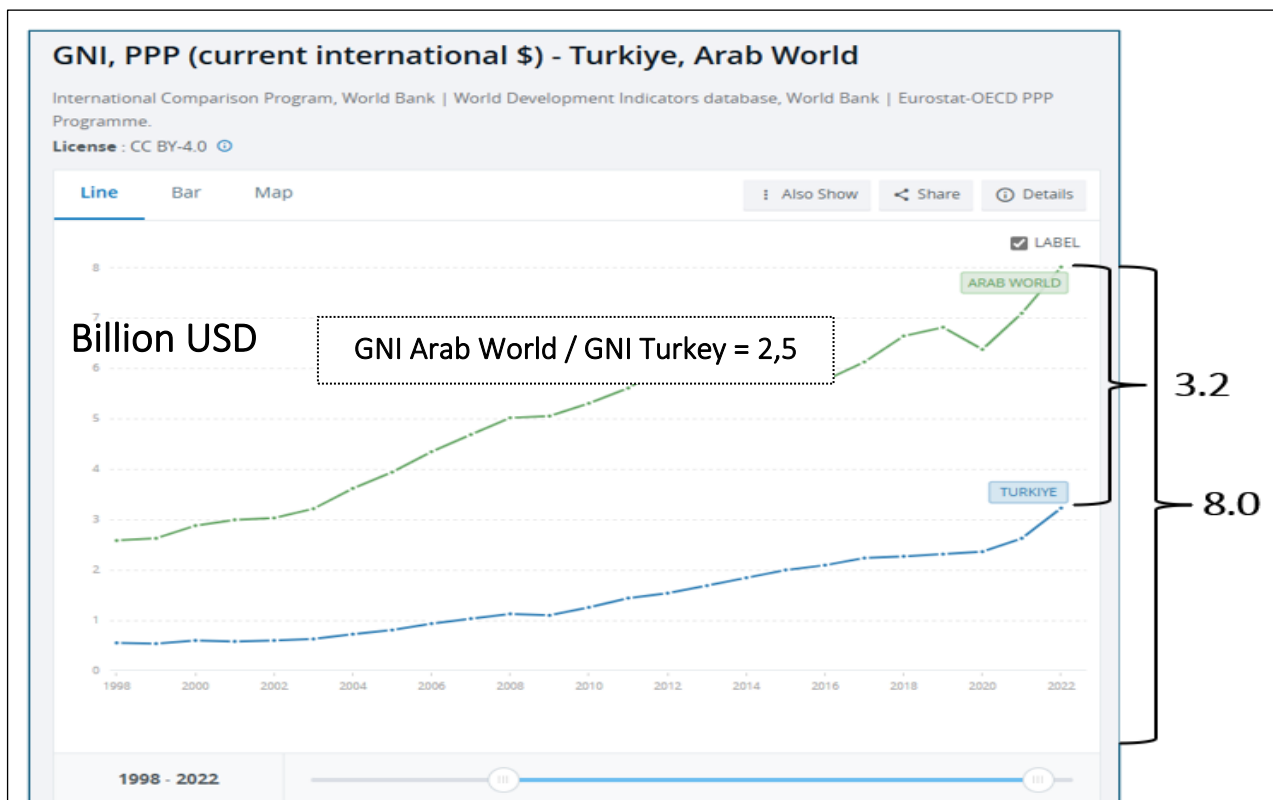

- 1996 Begin iPhone development
- 1998 Daimler-Chrysler AG merger
- 2001 AKP foundation, terror attack to US finance center
- 2005 1. iPhone at market
- 2011 Steve Jobs death 05.10.2011, iPhone development with Apple Inc. and
- 2016 Günana in pension from Daimler AG, but at job for Turkey and Middle East.
Turkey and AKP €50 billion finance robbery to Günana (labor market)

Former President Rouhani (symbolic meaning 'who are your soul', it seems like IRAN circle and agents influence. Hassan Rouhani is an Iranian Islamist politician who served as the seventh president of Iran from 2013 to 2021. He is also a sharia lawyer, academic, former diplomat and Islamic cleric.

Industry Crime Turkey – Ottoman Empire (Arab World)

Chart: 23: GNI Arap World/Turkey and mutual financial dependences <https://www.data.worldbank.org>

Industry Crime - GNI parity Turkey – Ottoman Empire (Arab World)

Chart: 24: GNI parity Arap World/Turkey <https://www.data.worldbank.org>

Dipl.-Ing. Engin Günana – AI Economic and Finance support GNI and GDP

Former Ottoman Empire Countries finance market grows in average 2,5 x times more than in comparison to Turkey. Private user and Family companies (illustration of economy) participate from Reality-TV function and different conditions as in complicated Daimler AG and Mercedes-Benz Car Group management condition until 2012. The real reason of decoupling Dipl.-Ing Engin Günana from Daimler AG and Mercedes-Benz Car Group management structure and transfer to private user infrastructure which illustrate Middle East and Arab World economy infrastructure (resonance). Finance crisis in 2009 was a motivation to Middle East and Arab World to transfer assets from USA and stocks exchange and push their own economy which was more independence from western finance market and coupled to Engin Günana management conflict.

Constrained financial core application and condition to Dipl.-Ing Engin Günana to push AKP society and Islam world at level of former manager level of Dipl.-Ing Engin Günana and downgrade in contrary financial and economic society level at actual downgrade level to use leverage function of AKP and Islam but downgrade classic manager position to worker level, Islam strategy since 2001, since 3000 US manager was destroyed with terror attack at World Trade Centre in New York.

Market Capitalization and Consulting Cost Validation - Reverse Approximation 1998-2022

1. AI consulting/education and regular market capitalization

Regular market capitalization spying with Reality-TV and Get-Response Management Function Turkey grows GNI: 3300 billion (2024) + GDP 1100 billion (2024) = 4400 billion USD, not registered achieved gold market ca. 4000 billion USD. 25 years x 300 billion USD (200 billion no-show) = 7500 billion USD reserve currency. Construction industry 10 million AKP member x 200000 EUR = 2000 billion USD. Vehicle Industry increased 15 million vehicles = 3000 billion USD sum (4400+4000+7500+2000) billion USD = ca. 18000 billion USD, achieved assets and capital in Middle East ca. 7500 billion USD in sum market capitalization ca. 25500 billion USD. Applied to 5 million Turkish managers result 5 million USD profit during timeline 1998-2022, reverse approximation of 25500 billion USD capital concentration illustrates ca. 17000 USD/month manager income with 0% price index.

2. AI consulting/education and black-market capitalization

Grey and Black-market capitalization with Reality-TV and Get-Response Management Function is 3-5 times higher (experience value) than regular market. Investments in former Ottoman Empire, Middle East. Market capitalization concentration of 75000-125000 billion USD illustration to 5 million manager results 15-25 million USD profit per year and 50000-85000 USD income per month, average 68000 USD/month 0% price index.

3. AI Consulting/education cost and finance model compatibility

Black-markets capital of 75000-125000 billion USD result with black market factor 3-5 (Ø 4) 100000 USD/month, Ø 50000 USD/month = 100 (2000) income with 2 % price index, correspond in range of monthly consulting cost. Turkey capital in outland grows impressive GNI (Gross National Income). GNI/GDP parity increase during (1998- 2022) from factors 2 to 4, which describes capital concentration from AKP in USA and Middle East

GNI/GDP parity Turkey (1998-2022)	2-4
Black market factor	3-5

4. Industry and Financial Crime and International Justice

International claims and process consider specific tax, process and lawyer cost	LLC _{USA} = 2
Consulting cost with financial obligation and international claims	

5. AI Consulting/education cost to management

Circular Economy, Sustainability Strategies 4 h, 6 weeks, online course Cambridge, 2022	22000 GBP
Online Economy course cost 8 h, 4 weeks parity GBP/USD = 1,25 (rounded)	36000 [USD/month]
Engineering metal industry 250 EUR/h, 160h, 40000 EUR, basic 2022, ($\emptyset$ €//\$=1,2)	48000 [USD/month]
Approach consulting/education cost	40000 [USD/month]

6. Efficiency and Global Standardization

Transform local specific conditions to global general condition realize efficient loss, through indifferent conditions, with general business we consider this with Efficiency factor, qualified factor with ca. 25%, this match to market compatibility, corresponds $E=0,75$

Daimler AG conditions: Over many years ca. 1 million vehicle sales per year.

The reason of Daimler-Chrysler AG merger and failure, Chrysler's bankruptcy and Daimler AG with over 30 billion USD lost 1998-2007, because of false coupling of products and employees.

Rescue plan of Dipl. Ing. Engin Günana

Matrix Operation with Finite Element Method and coupling with intelligence AI method.

Products level: Discretization and optimization at local element level, coupling to global structure level at parts, process, production, sales and after sales. Intelligent input at development and production, forced coupling amplitude output.

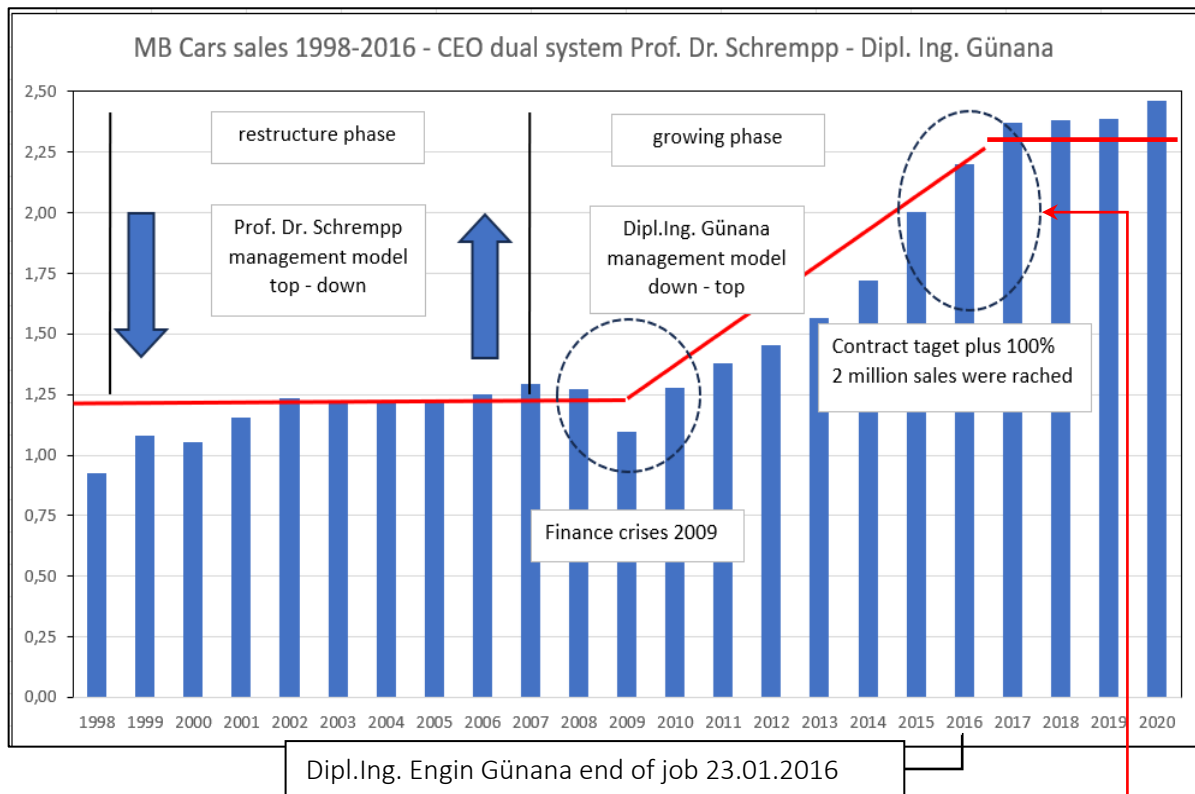

Employee level increase to manager capacity over 100% with active deputy as copilot, govern with dual principle from top-down (classic) and down-top (new) parallel and asymmetric.

Coupling of products with AI method find the eigen-value and eigen-characteristic work from top to down and down to top, parallel, asymmetric working architecture of employees.

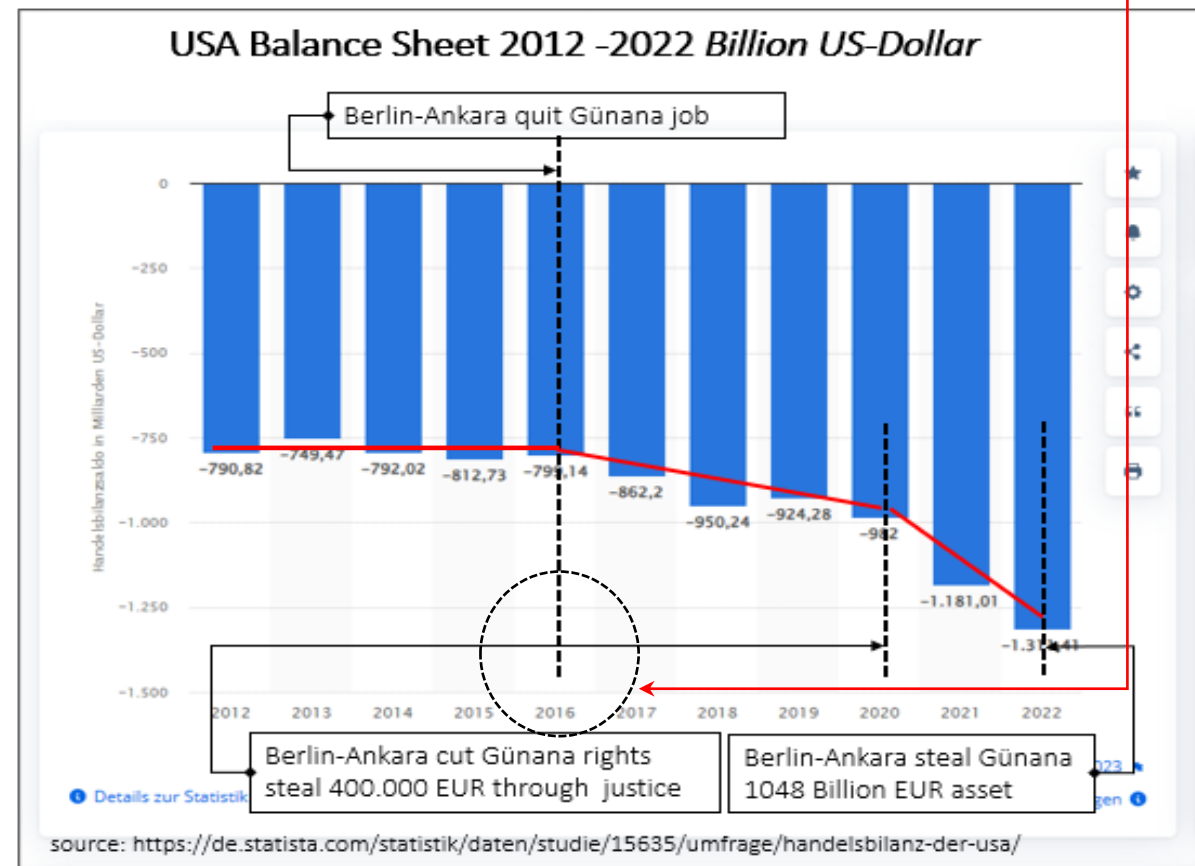

Introduction of Matrix Management Structure cooperation with partner Renault and Nissan realize Daimler-Renault-Nissan Coop. instead of merger (100% risk at return, lost, and pension). Result after 6-7 years restructure phase, divorce from DaimlerChrysler AG merger and couple and cooperate with Daimler-Renault-Nissan 2009-2016 and increase over 2,2 million passenger car sales (100% plus).

Phase-2 BOM Board of Member co-CEO at Daimler AG space system 2012-2023
Google Inc., Facebook Inc., Apple Inc.

Dipl. Ing. Engin Günana influence - Mercedes Benz Cars sales 2009-2016

Dipl. Ing. Engin Günana bankruptcy influence - US Balance Sheet 2016 – 2020

Germany-Turkey bankrupt politic to Günana result from Germany-Turkey damage politic to USA

Real consulting/education cost condition**1998-2022**

Interest per year (cumulative)	5%
Efficiency E (70% - 100%)	0,7-1,0
Definition unit cost per month per unit	1000 EUR/month
Definition unit cost (1000 USD/month, 5% interest, 2000-2016, rounded)	300000 EUR

Consulting/education cost, basic 2008 30000 EUR/month, price index 2%	40000 [USD/month]
Consulting/education cost, global condition, Germany, Turkey, E=0,75	30000 [USD/month]

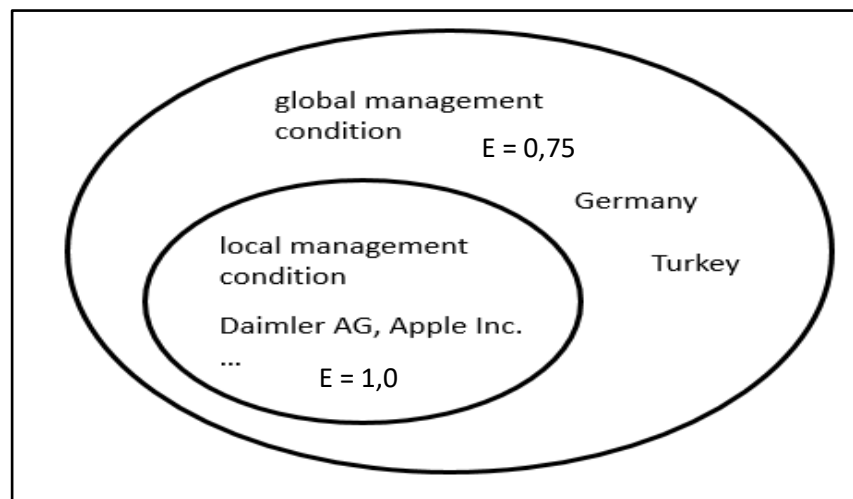

Global and local efficient factor approach

Chart 25: Efficiency E = 70% - 100%

By compromising cost agreement between European Union and Dipl.-Ing. Engin Günana and using Dipl.-Ing. Engin Günana intellectual property, copyrights, expert knowledge, management- and business competence furthermore with reality-tv and Get-Response management function, Germany Turkey and Arab World accept market real market consulting/education cost about monthly 30000 – 40000 USD/month and use general at state and economy and society.

Consulting cost 40000 EUR/moth for professionals and consulting cost for private users with 0% interest 1986-2011 (2012-2025) for 224000 Daimler AG employees or 224 million European Union private user.

Consulting cost model transforms from 224000 worldwide Daimler AG employee with 30000 EUR/month consulting cost to 224 million European Union households, but Germany and Turkey breached the contract. European Union was immediately agreed with my suggestion at Daimler AG 2010 license agreement with EU basic consulting cost for manager about 30000-40000 EUR/month, transform from 224000 Daimler AG employees to 224 million EU private users to reach 60 million managers in EU and Turkey and Middle East. Basic of exclusive license agreement is consulting and education for managers, consulting and education cost of manager is approached with 30000-40000 EUR/month (2012), IT usually sector 50000- 80000 EUR/month.

Exclusive license agreement with European Union with less professional consulting and education costs about 30 EUR/month (with 30000 EUR/month basic) though enlarging to consumer to 224 million private user with

the target gave business manager in Europe and Turkey business manager consulting and education and let European Union society participate from high quality consulting and education as benefit.

Education and consulting services are furthermore for manager and with market price about 30000 – 40000 EUR/month but with a low-cost model of home user and private users. Dipl.-Ing. Engin Günana exclusive agreement with European Union have a social character with the target let society pay low cost about 30 EUR/month but get professional consulting and education services for manager. During business manager get services over thought recognition over professional international business interaction in English

Transfer high consulting and education cost about 30000-40000 EUR/month from 224000 Daimler AG employees to 224 million European Union private users, have the idea enlarged professional consulting and education cost to 224 million home users and distribution high cost about 40000 USD/month to low-cost, comparable with server licenses.

The violation of exclusive license agreement between Dipl.-Ing. Engin Günana and European Union from Germany, Turkey in acceptance of Mercedes-Benz AG and Germany, Islam Turkey and Middle East, allowed Dipl.-Ing. Engin Günana use market condition and put bills for market conditions about 30000-40000 EUR/month per manager since year 2000.

Turkey Financial Crime Matrix (Designed from Berlin)

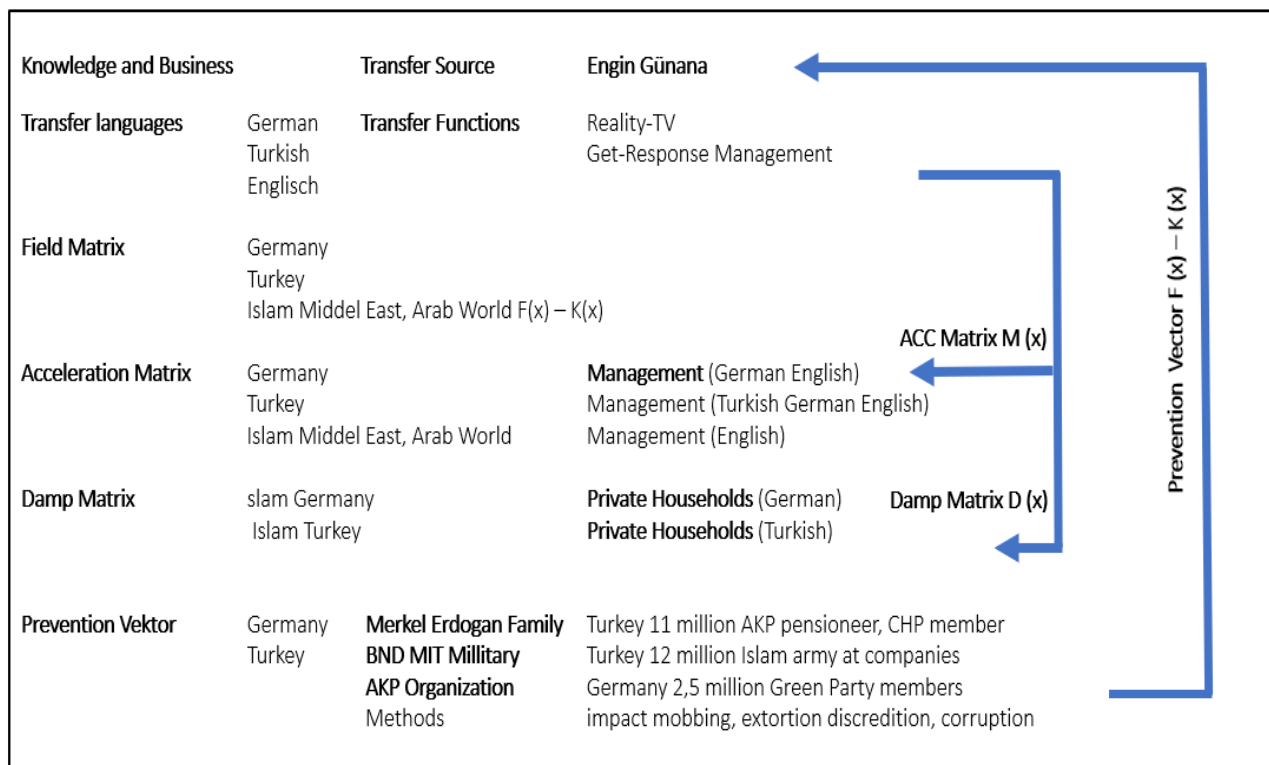

Chart 26: Industry Spying and Financial Corruption a professional structure developed at military academy

Infiltration of German and Turkish government with Military and Secret Services

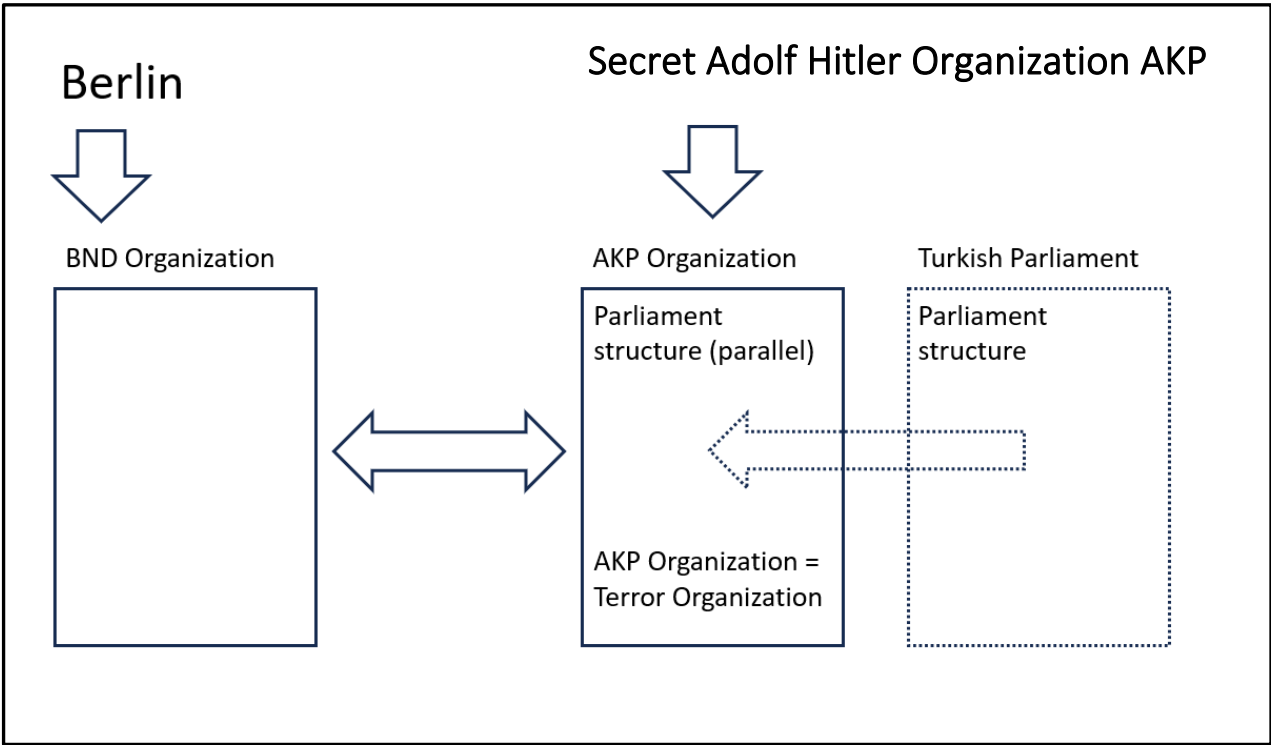

Chart 27: German Secret Hitler Organization invasion to Turkey and Islam and decouple rights

Turkey face condition for financial crime 11 million AKP protection squad (SS)
12 million Islam Terror Army

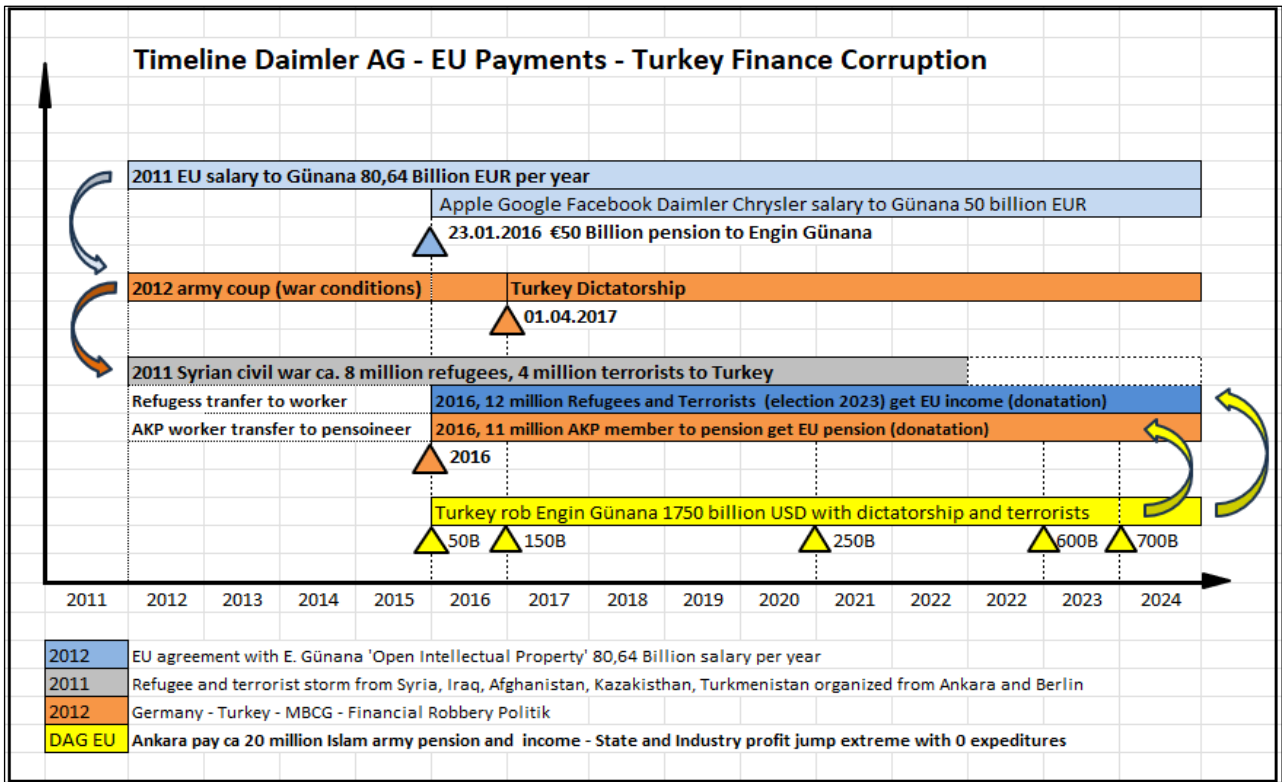

Chart: 28 Turkey replaced 11 million AKP with 12 million Islam refugee for fight and financial crime

Turkish military coup and the beginning finance robbery

1998-2022

AKP and Turkey steal Günana IT-Technology Turkish military and German government installed at 14.08.2001 AKP to occupy and steal IT-Technology Internet, Google, Cube, AI, iPhone, GSM and Wi-Fi founder of, with support from BND, MIT, TIKa, Hakan Fidan and Germany. Fidan transfer Günana 'iPhone foundation to 'Steve Wozniak' called 'Klaus Isaac'.

AKP and Turkey Günana's Turkish Wealth Fund robbery with 50 billion EUR investigation salary from 5 x co-chairman and CO-CEO job at Google Facebook, Apple, Daimler AG Chrysler Group. Turkish military attack at 15.07.2012 occupy Turkey kill 2000 citizens, govern with military as dictator without any rules for financial crime and steal Dipl. Ing. Engin Günana at 01/2016, 50 billion EUR lifetime merit. Lifetime merit as CO-CEO job at 5 companies. Alphabet Inc. (Google Inc.) Meta Technology Inc. (Facebook Inc.) Apple Inc. and Daimler AG Chrysler Inc. during 1984-2023.

AKP and Turkey Günana's EU fee robbery about 1048 billion EUR for IT-foundation and using intellectual property rights and copyrights with Reality-TV and Get-Response Management Function expert knowledge and business services for state, economy and society, cost payments from 224 million European Union private users. Turkey use dictatorship rules terms and emergency conditions and steal through with similar persons, stolen identity card, bankcard, stolen IP address in sum 1048 billion EUR European Union cost payments

Turkeys Industry and Financial Crime 2012-2016 and 2017-2023

Graphic show the stolen asset transfer from citizens and Günana to AKP Group and Management, after AKP and President Erdogan constitution dictatorship at 15.07.2012, cancelled millions of opposition manager job without any substitution. GNI (AKP) = 4 x GDP (per capita). AKP income and capital growth 4 x times more

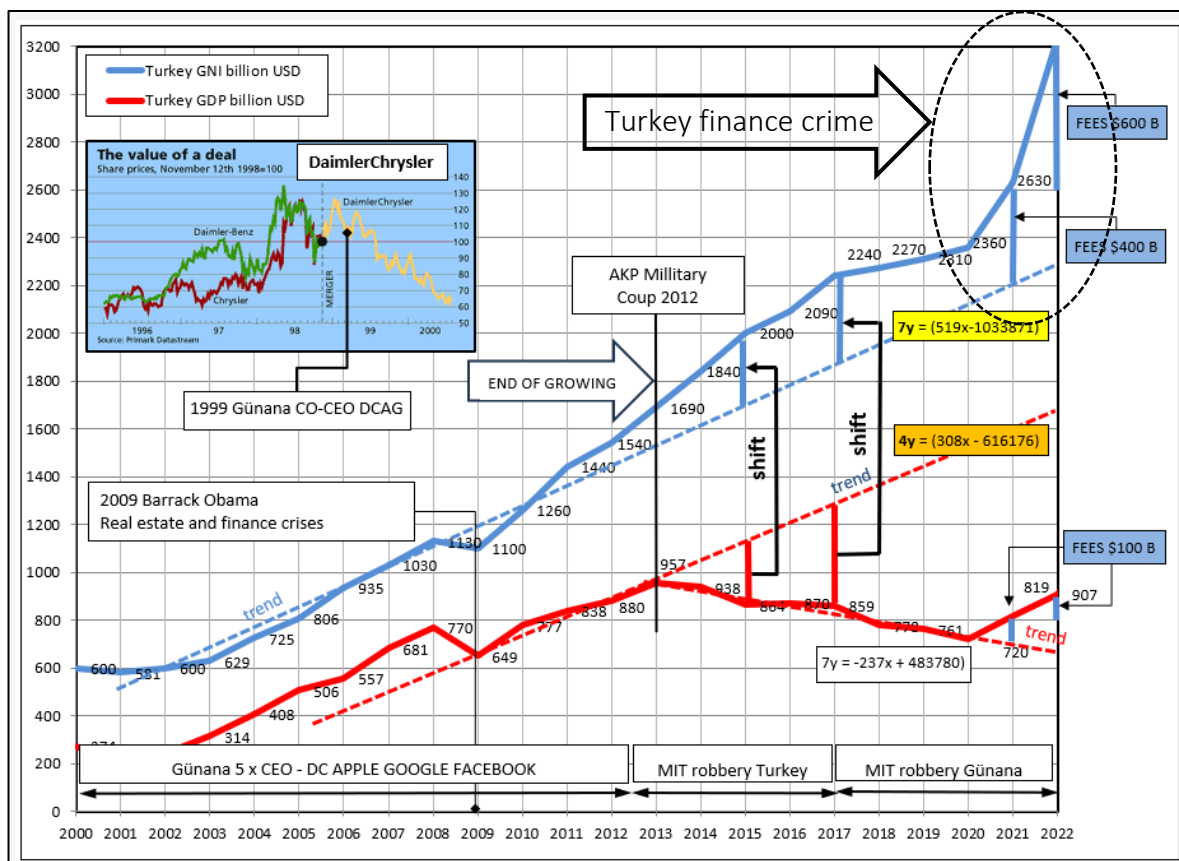

Chart 29: Financial crime and backflow 2012-2022 <https://www.data.worldbank.org>

AKP Military start a Syrian civil war at 2011, constitute 15.07.2012 dictatorship, quit 3-4 million opponent managers, send 11 million AKP member in pension, fill management in all state economy and society position, increase AKP manager income 5 x times in analogy of Günana agreement with 3 IT companies Google Facebook Apple and Daimler-Chrysler AG

Erdogan AKP and Turkish military occupy step by step Turkey and takeover, Justice, Industry, government institutions and fill factories with cheap 8 million Syria refugees from civil war 2011 and 4 million from IRAQ IRAN Afghanistan etc. Erdogan, Turkish military and AKP constitute Monarchy after military coup at 15.07.2012 govern with emergency rules without and democracy rights for oppositions occupy and takeover Turkish military politic economy and society during 2012-2017 and constitute Malachy 01.04.2017 at general election. Informed no one about 18 basic laws hide in coupled Presidential election 2017

AKP politic is Adolf Hitler's occupy and takeover politic. Hostile takeover through dictatorship force extortion and z-war. Z is the name from Dr. Zetsche former Daimler AG manager, known as Dr. Z responsible for Turkey's dictatorship concept, not over shares at stock exchange. Turkey's civil defense was destroyed in few days from dictator Erdogan. Turkish government transfer this method to Germany and try killing every lawyer with German national Agency and BND and German military.

German lawyers get the order, defense only German government. The common Erdogan-Merkel-Daimler AG (EDM) plan was to steal European Union (EU) Private users Cost to Turkey. To keep Reality-TV Function costs low 30 EUR per private user per month, to get from 224 million households. Daimler AG, German government and Turkish government use all government capacity to destroy the professional career because of very cheap private user costs. A national government war stage and studio cities began to destroy Dipl.-Engin Günana professional career.

From top founder and manager with founder of Artificial Intelligence, Internet, Google, iPhone GSM, Wi-Fi and best-case manager in co-chairman function at DaimlerChrysler AG and Daimler AG during 2000-2012, with the best earning of history substantial about 10 billion EUR per year and 50 billion EUR during 2012-2016 to worker level. Against the agreement between Engin Günana and Board of Member to get the earning about 50 billion EUR during 2012-2016, Daimler AG quit Engin Günana job at 01/2016, steal transfer 50 billion EUR with Dr. Dieter Zetsche, Erdogan, Melike Günana (in divorce), Kaya Çilingiroğlu, Oğuz Cetin to Turkey, founder of Turkish Wealth Fund and publish Melike Günana as Daimler AG co-chairman and responsible for Daimler AG big business success during 2000-2012.

Pure nonsense, liar politic from Erdogan, Merkel and Dr. Zetsche. Dr. Zetsche, Erdogan and Merkel didn't want lost their face and a gift for Melike Çorba for her terrorism activity at 11.09.2001 and 15.07.2012, at Turkey army coup. Dr. Zetsche chairman contract didn't shift in 2019. The terrorism and agent activity from Melike Çorba (Günana divorced 09/2013 and official at 21.11.2017, court Böblingen) activity was determined at 2023 from me, Engin Günana.

Engin Günana EU-License agreement for Consulting/education	30 EUR per EU private user per month from 224 million European Union households (2010) during 2012-2024
---	---

6,72	billion EUR per month	2012-2025
80,64	billion EUR per year	2012-2025

Recipient:	Dipl.-Ing. Engin Günana
-------------------	-------------------------

Fraudulent	Turkish government, Turkish Military, Secret Service Management (government, Economy), Terror Groups Germany, European Union
-------------------	--

After Dictator Erdogan's army attack to Turkish democracy, quite millions of opponent leaderships lost their jobs in private sector and government, especially judges. Erdogan fill empty places with AKP militants and steal with fake court decisions oppositions asset extortion and kill them, put in prison and make them sick and let them pay for Turkish healthcare system.

Turkey transfers this crime concept to Germany, support Germany, change laws and conditions, prevent defense over justice and bring me to bankruptcy over 3 years steal payments from German government unemployment insurance, social-security-system and healthcare-system. Use force and extortion and put me with liar claims and false court decisions to psychological prison over 3 months, the same terror to opposition politicians in Turkey.

Daimler AG Management, President Erdogan and Chancellor Merkel steal European Union education and consulting income to Engin Günana and begin to destroy Dipl.-Ing. Engin Günana professional career as founder of Internet, Google, UNIX, iPhone GSM and Wi-Fi during 1984-2000 and co-chairman at Daimler AG during 2000-2012, with the target of industrial and financial crime to IT-Inventions and EU payments

Erdogan and AKP steal at first 01/2016, 50 billion EUR, from Turkish Wealth Fond TWF, 50 billion EUR income payments from Google Apple Facebook and Daimler-Chrysler AG transferred from Mercedes-Benz Bank to Turkey to foundation Turkish Wealth Fund: <https://www.tvf.com.tr>, TWF Annual report from 2017 in Turkish speech published with a report 160 billion TL assets which matched to 50 billion EUR (€/£) parity =3.2)

European Union (EU) paid Dipl.-Ing Engin Günana income for consulting/education with a different reduced cost model but enlarged user model instead of 50 million manager, 224 million European Union households incl. Great Britain use the result of professional AI Economy and Management services, in sum about 967 billion EUR during 2012-2023 but Turkish government occupy Engin Günana EU income payments completely and transfer from European Union to Turkish manager.

Turkey AKP military prevent Dipl.-Ing. Engin Günana income instead of paying Dipl.-Ing. Engin Günana AI education and consulting services, Turkish and German national government steal in cooperation to Turkey AKP management in state economy. Manager at AKP Organization, AKP Media, Turkish Banks, Private Sector use Dipl.-Ing. Engin Günana income finance source for 11 million AKP and 12 million Islam worker income but save earnings and transfer secret to outland. Economy pays with Dipl.-Ing. Engin Günana income finance source import goods. Family Erdogan distribute premium passenger cars villas and shops for 11 million AKP members. Vehicle market increased from 10 million to 25 million about 15 million during 2012-2021, most 11 million AKP-members own premium cars about 100000 USD, villas about 250000 USD gold and Handy shops 11 million AKP-Party members get private pensions and payments and don't work.

Engin Günana in function of consulting and education provides, economy and manager coach and trainer didn't get any cent. 11 million Z-army discredit and extortion Dipl.-Ing. Engin Günana after Turkey steal completely Dipl.-Ing. Engin Günana asset about 1100 billion EUR European Union want finance Islamic Terror Networks to fight against USA, Great Britain, Russia China against Allied Forces and BRISC. Presidential Palace start with stolen finance source about 1100 billion EUR a disease and genocide program with chancer, backbone failure, death. Marriage program with nudes and girl agencies to rob over fake marriage program 50% assets of Turkish male citizens. The next virus program disease program to kill citizens are in development.

Turkey-Germany Syrian war Program for low-cost labor market

Human resources program: Deportation of million citizen through wars (Syrian and Ukraine)

Transfer unit condition to mass condition and couple with zero income matrix through matrix condensation increase units, reduce government expenditure, increase company and economy profit with war condition. Order Russia to deportation Ukraine citizen during installing no money concept to refugees from state and economy under misusing Engin Günana Reality-TV and Get-Response Management Function (Daimler AG program)

Cheap labor market conditions

Evaluate prevention program to reduce government expenditures under misusing Engin Günana Reality-TV and Get-Response Management Function (Daimler AG program)

Industry Spying and Industry Crime - Social Security Expenditure Saving Program (1200 billion USD)

German Healthcare-System:	Payment's timeline in case of sickness Germany 2016, 18 months
German Unemployment-System:	Payment's timeline in case of unemployment 2016, 18 months
Society Profile:	Premium Segment, max profit academics income: €87000/year

Healthcare payments for academics: 2700 EUR per month (depending on earnings)

Unemployment payment ALG 1: 2500 EUR per month (depending on earnings)

Social security payment ALG 2, Average: 600 EUR per month

Number of employees (2016-2019):	50 million
Number of academics (2016-2019):	19%
Number of emigrants (2016-2019):	26%
Number of 1-person households:	20%

Number of unemployed (ALG-1):	2,7 million
Number of unemployed (ALG-1) recipients:	0,7 million
Difference:	2,0 million

Number of academic employees:	$50 \text{ million} \times 0,19 = \text{ca. } 9,5 \text{ million}$
Number of academic emigrant's employees:	$9,5 \text{ million} \times 0,26 = \text{ca. } 2,5 \text{ million}$

Sum of expenditures

2,5 million academics emigrants don't get healthcare payments (KG), unemployment payments (ALG-1) and social-system payments (ALG-2).

Germany saving expenditures:

Healthcare / Unemployment payment KG:	$2,5 \text{ million} \times 2700 \text{ EUR} \times 12 = 80 \text{ billion EUR}$
80 billion EUR	2016
640 billion EUR	2016-2023

Industry Spying and Industry Crime Pension Expenditure Saving Program

Emigrant's academics: Target pension 67 years. Quit job with 54, die in follow od bad care, life expectancy to ca. 10 years, Mehmet Bostancioğlu die during divorce process because of kidney failure and cancer.

Target pension about 3200 EUR per month begins with 67 years, 20 years' reference period.

Social-system payment without healthcare costs ca. 900 EUR

Sum of regular pension for 20 years: $3200 \text{ EUR} \times 12 \text{ (month)} \times 20 \text{ (years)} = 768000 \text{ EUR}$

Expenditure on social payments $900 \text{ EUR} \times 12 \text{ (month)} \times 10 \text{ (years)} = 75600 \text{ EUR}$

Death after 10 years, difference $768000 \text{ EUR} - 75600 \text{ EUR} = 700000 \text{ EUR} = 0,7 \text{ million EUR}$

Number of academics in 1-household: $50 \text{ million} \times 0,19 \times 0,26 \times 0,20 = 500000$

Saving in sum: $0,7 \text{ million EUR} \times 0,5 \text{ million} = \text{ca. } 350 \text{ billion EUR}$

Savings: $640 \text{ billion EUR} + 350 \text{ billion EUR} = 1000 \text{ billion EUR} = 1000 \text{ billion EUR} \times 1,2 = 1200 \text{ billion USD}$

German and Turkish government kill foreign academics in long term with endurance load and fatigue death derived from Daimler AG endurance test for powertrain, make them sick and hold sick in social-system to save government expenditures in social-system, unemployment-insurance and pension-system. Reduce pension from ca. 3200 EUR/month to 800 EUR/month, bankruptcy and contracting their life and send back to their countries. A bankruptcy, chancer and killing concept derived from Dipl.-Ing. E. Günana as pilot project.

Examples Mehmet Bostancıoğlu and Bayram Çiftci die because of chancer.

Emin Dağtekin die nearly. Turkey and Germany grow over dead and bankruptcy from Turkish academics. Berlin and Ankara destroy kill, destroy premium academics and citizens. Turkey-Germany-Alliance want make max. Profit in premium segment with premium foreign 'academics', though systematic and successive destroying their life, make them chancer and sick and hold in this position with radioactivity and chemicals. Use a further development endurance test system from Daimler AG to attack regularly with loads (radioactivity, chemicals, virus and bacteria, to constrain their live and kill them with a long-term sickness load.

Industry Spying and Industry Crime - Germany and Turkey Alliance program

Mercedes-Benz - Turkish AKP Government-Cooperation and programs development with system competence from Daimler AG at Oasis-Centre Stuttgart-Feuerbach. Former Turkish National Intelligence Agency chief Hakan Fidan, former economy minister Mustafa Varank, Engineering service employees, President Erdogan first economy advisor Bülent Yiğit, former Daimler AG supervisor Klaus Mangold, Mercedes-Benz Car Group Board of Management.

President Erdogan Turkish Government and AKP-Management are cooperation partners of Technology founder of and development center Stuttgart-Feuerbach Germany. The means determine the end. Former Daimler AG manager Wolfgang Bernhard Terrorism Technology illustration to State and Industry began with Turkish AK-Party founder of at 14.08.2001 and destroying US-Government Finance-System and Financial-Centre at Twin-Tower after 3 weeks at 11.09.2001. German and Turkish army, Healthcare-System, Hotel-Branch, Insurance and Pension-System cooperate in same areal, see figure 1. They concentrate on their Terror competence at the same area.

Figure 3 Healthcare-System with insurance AOK, German army technical competence responsible for radioactive fuel enrichment system with Turkish army, Hotel-Branch responsible for radioactivity loads to customer with chancer program, private insurances to earn from chancer program and finance over chancer program German Healthcare-System. Hotel customer and humans as source for chancer program, chancer patients as source for Hospitals. EU Cost payments to finance German Healthcare-System with 5 million employees. Figure 1 show gasoline and diesel fuel enrichment station at harbor and shipyard in Yalova/Kocaeli/Turkey. Shipyard is the 5. greatest shipyard in world, own President Erdogan and former President Banali Yıldırım financed from European Union Cost payments to Engin Günana.

Fig. 1 chancery source of radiation nuclear fuel service**Fig. 2** System competence military and AOK

Chart 30: Nuclear enrichment station for gasoline and agriculture for chancery program (Yalova/Kocaeli)

Radioactive weapons at fuel station for agricultural foods and car emissions

In analogy Turkey financial recycling concept for Premium Turkish citizens and academics, AKP worker and AK-Party members are test Engineers with burglary and regularly poison loads and academics are test-mediums, derivative from Daimler AG Testing Program and division for Powertrain. Turkish financial premium academics from European Union were use as financial source for AKP-Government and Agra-industry in alliance with German government and industry.

Macro-Economic values and growing indicators aren't change many years since many years, but Turkish currency lost 5 times against Euro and Dollar since 2015. Turkish central bank had average ca. 100 billion USD every year. If the government hide ca. 423 billion EUR (2020) EUR (423 billion EUR + 50 billion EUR) and use only foreign currency (USD) from Turkish central bank $5 \times 100 \text{ billion USD} = 500 \text{ billion USD}$, print money and pay with Turkish currency, this is a good validation of Turkish currency deficit against currency EUR and USD with factor 4-5 since 2016. AKP spread ca. 550 billion EUR in black to the market (construction area, banks, gold and in physical garages and depots. After an earthquake at Syria borderline emergency helper, find 2 billion USD under a destroying building.

This solution fit to the money market politic of Turkish government to international partners to trade their export goods with Turkish currency TL. Turkish AKP government hide income about 473 billion EUR for themselves, make political agreement with international partners and trade with local currency, Turkish money market grow 5 times. President Erdogan stole 473 billion EUR (2020) EU TV-Cost payments and give me 250 EUR/month pension.

In addition, we see a high technology equipment example, with audio video and digital inputs and automatically interactive output with violation of intellectual property technology, which was installed to get professional answers for finance, economic, state and society.

IPR business consulting and Input methods

Input signals since 1994

Direct-input signals are realized directly per audio and video signals from Turkish Television, smartphones music channels through roll over voice signals from Media Turkish Military, security, Turkish National Intelligent agency MIT, politic, President Erdogan, President Erdogan Family and crew of 600 Turkish Parliamentarians

Indirect-input signals Turkish media, military, AKP Organization, MIT with 11 million AKP free members in pension since 2016, since dictator Erdogan and Family steal Dipl. Ing. Engin Günana pension salary about 50 billion EUR in 01/2016 which was archived in Turkish Wealth Fund (foundation 01/2016 from Engin Günana)

Input-signals over condition contraction: Contraction of life, burning and selling of house, contraction of finance with no income, no pension, prevention of asset at Daimler AG. Contraction of family, contraction of children no visitation since 2013, contraction of healthcare with no healthcare services, decoupling of insurances with no insurance services, contraction of meetings and discussions, maximum isolation for maximum output, violating of Internet, social media, smartphones. Political attack over social media

Output signals since 1994

Output signals since 1994 symmetric for Economy: Realized per audio and video signals at IVM, Daimler AG, DaimlerChrysler AG for German and Turkey, European Union and Middle East economy and companies Google Inc. (company of Dipl.-Ing. Engin Günana) Facebook Inc. (Günana participation 50%) Apple Inc. (Günana participation 50% iPhone, iPad, iPod)

Output signals since 2011 asymmetric for state and economy: Asymmetric condition output signals with maximum contraction of state services at healthcare, finance no income, no income payments, no salary payments, no pension payments, no unemployment payments, no social security payments, no healthcare services at state during economy industry and management profit maximum though cheap income lost production and service costs and state and industrial damage strategy with stolen finance at banc account, cyber-attack to hardware software terror to agriculture foods and drinks and healthcare with coli bacteria, corona virus x-ray attack with vehicle fleet at feet and body through secret services and terrorist at house of Dipl.-Ing. Engin Günana parents and 5000 soldiers from Turkish military at Çayırova.

Periodic asymmetric destroying contraction of Dipl.-Ing. Engin Günana and get solution and response through spying is a direct and indirect impulse method. Periodic field quantities and condition contraction is an indirect impulse method. The methods are a full coupled method system form state and economy with specifics experts from state, industry, finance, healthcare, security, IT-Technology after 30 years is full coupled system under using of economy and state with specifics (ca. 3 million) and mass field (11 million AKP member) crime (dictatorship regulation, military and secret service) from state and economy

Realized from local specifics experts and professionals at state and industry, during global manager (AKP manager with less education and experience profit in Germany and Turkey European Union and Middle East.

The lever factor for confuse Downgrade and contraction of Dipl.-Ing. Engin Günana life and work condition and support and push career of field and relationships with Melike Çorba Ali Tekeşin Cihan Batman Fevzi Yildirim Göksal Günana is a maximum confuse strategy from Germany and Turkey European Union and Turkey

Spying Technology Principle

Digital audiovisual input methods with interaction process direct and undirect methods with constraint conditions at finance society family refugees politic and industry management. Conditions for fights for state politics and multi-media, financial constraint condition for labor market and pension cashes. Constraint finance for economy and finance politic with cheap labor market in Turkey and Middle East. Secret spying with artificial constraint conditions and response with thought recognition. Refugee politic with cheap labor market and refugee army with broken families and war conditions without father but mom and children. Classic spying elements micro microphone in ear, fiberglass eye camera with simcard and stand at head

Transmitter Implant - Interface for thought recognition

Chart 31: Thought recognition spying technology principle

Industry Spying 1984-1994 (AI, Cube, Windows, Internet, Google and GSM)

The reason of Artificial Intelligence (AI) founder at University Stuttgart was Faculty 11 Aerospace (1984). We applied discrete FEM elements to sentence elements with bar, Traic3, Quad4 elements and applied to Germanium, Linguistic Institute to collect in different language and translation experiences. We order Prof. P. Lesky and Dr. J. Brenner at the mathematics Institute for further development of AI. As result of this consultation follows Project Genius'. Cube was a higher mathematic application to language to developed neural network with the source of Brockhaus and British Britanica and the formalism of FEM (Finite Element Method) with complex couple transformation and multi-dimensional 3D Matix operation formulation in mathematical series known as string theory (Film Matrix show the hundreds of new math series as binary columns effect). We increase mathematic disciplines with multidimension matrix operation, integrate couple conditions.

The Internet was a furthermore consequence founder of local specific Fortran IV program libraries. Institutes had different specific local Fortran IV program libraries according to specific disciplines. Fluid mechanic Mathematic Informatic and Aerodynamic Institute had different Fortran Libraries. We increased local Fortran IV program libraries to global Fortran IV program libraries. We connect step by step computers of University Stuttgart, computers of Universities in Germany, calculation centers with cray computers and finally Daimler AG computer with NASA USA 1992 and introduce 1991/1992 1-GSM at Daimler AG (German military was interest) and Space Shuttle Institute IRS Stuttgart-Vaihingen to Prof. Messerschmid. developed UNIX OS to separate data to group in user/group/all and share over Atlantic with NASA. Searching data was difficult Fortran Libraries specific groups therefore we developed a search engine Google to find worldwide data.

Industry Spying 1990-1994 Internet - Google Inc.- Alphabet Inc.

Searching data tree in UNIX data structure was very difficult without graphic interface, we decided to develop a search engine with strings to search and to share subroutines and program collections. A visit from USA with Sergey Brin Larry Page and later Mark Zuckerberg secured our business founder of and development, we decided to founder of two start-up companies Google Inc. and later Facebook Inc. At this moment Google label doesn't exist. I introduce my US partners my IT Modules founder of and development AI-Translation, AI-Navigation, AI-Maps, AI-Voice Control and finally 1994 Google search engine. We arranged with Sergey Brin and Larry Page and later with Mark Zuckerberg to founder of start-up companies Google and Facebook at New York Stock Exchange rollout for free to customers and earn over advertising.

Industry Spying 1994-1998 modern smartphones iPhone, iPad and Samsung

iPhone founder of was the next very successful founder of, business conditions with telephone, camera, pc, voice recorder, video player, calculator, fax, calendar organizer, maps and navigation, regularly meeting at customer bring us to the idea of a multi device with flat touch screen, the next generation of mobile computer in pocket format with a finger and gestures based operating system, much devices in one mobile phone, pocket office with computer, internet, e-mail, news, trading programs and weather forecast. Data transfer possibility per Airdrop and Bluetooth. The new standard for manager applications scopes at iPhone didn't change much since iPhone 4, Stock Exchange, News, Weather App, GPS, etc. in best quality without compromise, iPhone and iPad we find our partner at Apple Inc. during we developed passenger cars. In our first visitation in Stuttgart, I introduce my product, and we find immediately name for our product iPhone with the meaning i and modern Phone, a multi device with flat screen a combination of Windows computer and Phone with APPS

Principal of industry spying, knowledge and business transfer and Get-Response transmitter function, constrain political, economic, financial, society, justice, healthcare, condition learned from solutions.

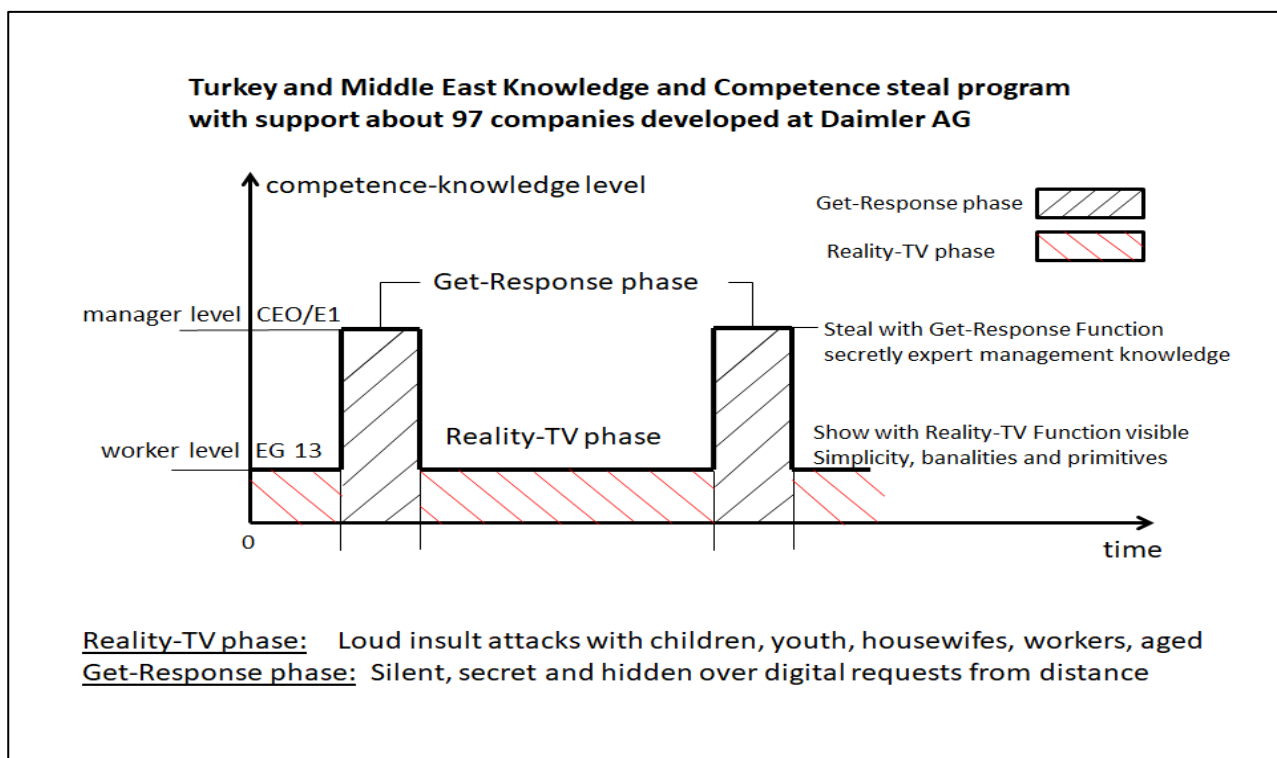

Chart 32: Symmetric/antisymmetric spying phases, time units are variable

IPR multi business consulting with thought recognition**2012-2023**

Spying Function Get-Response Management Function transfer professional business competence and skills and technology knowledge with Get-Response Management Function over funk direct to management. Knowledge from 1984-2022. State Economy and Society use financial profile and business profile during high society and managers show upper consumer behavior.

Turkey consumer market is 100% controlled from President Erdogan Family military 11 million AKP, 1 million soldiers, 10000 agents, 12 million terrorists and government institutions Turkey's IT and Media infrastructure with 1 target steal EU cost payments. For this target Turkey open doors and fill Turkey with refugees. 10-12 million refugees work in factories get income from stolen EU cost payments as denotation during profit transferred to outland.

Industrial Spying and Industrial Crime - Turkish Asymmetric (MIT) Method

Get-Response Management Function in combination with Reality-TV Function were used asymmetric with tunnelling function, during state economy and society profit maximal from Engin Günana education and experience (1984-2023), Turkish media, MIT and 11 million AKP attack with mobbing, discrimination discrediting during security, police, commanders prevent with support of former spouse Melike Çorba, Erdogan Family, 20 minister and 600 parliamentarians are in function of extortion manager, who steal in common 600 billion USD, with the reason of my stupidity inability person and very unimportant person. No free space according to prevention matrix, controlled with Get-Response Management Function and spying.

Turkey management organize consumer radioactive free article from secret channels during worker get their article in secret volks market. President Erdogan Family MIT and Turkish military control Turkey to 100 % with 11 million free AKP member, 12 million terrorist, 1 million military, dictatorship regime, justice in function of punishment, finance sector gets the order Günana. Healthcare has the function, transmit diseases to opponents, security and MIT organize the mass of 23 million AKP members and Islam legionaries for psychology and societal attacks as sign of Turkey's are the real manager who decided who get money and who not.

Constraint interaction discussion about economy, politic, industry and management. Turkish- and German national government founder of professional companies for expert knowledge and management competence transfer. The European Union use both functions since 2000.

Turkey Industrial Spying and Industrial Crime in Alliance Berlin-Ankara

Former Turkish national intelligence agency chief Hakan Fidan was ordered from Turkish national government and Turkish military for industry spying and industry financial crime to Engin Günana IT founder of at University Stuttgart and were invited 2001 to Germany to NATO Unite Allied Rapid Reaction Corps. Very successful IT founder of and development with Artificial Intelligence and Google modules smartphone development coupled with start-up companies and New York Stock-Exchange IPO was a very great problem for Germany military and passenger car and mobility development

New York with Daimler AG support in Germany. Terror attack to WTC follows on 11.09.2001 after AKP founder of in 14.08.2001. Engin Günana founder of developed and established Internet, GSM, Google, iPhone, Wi-Fi and during Fidan jobbed at TIKA 2003 – 2007. TIKA encryption name, the mirror of TI is IT and KA follow in replacement of Karlsruhe, German national federal court is in Karlsruhe. Hakan Fidan use student colleague Klaus Isaac and Ali Tekeşin and spouse Melike Günana (div. 2017) to transfer IT founder of and development from Engin Günana to third fake person.

During Apple Inc. promised 1% shares to Günana, we expect 10% participation this was our target. Our agreement process stopped with Steve Jobs death in 05.10.2011. In same year in 2011, Hakan Fidan, Mustafa Varank and Bülent Yiğit from Turkish national government visit private residence from Engin Günana without an invitation. Steve Jobs made Engin Günana in 1999 an official offer, with the target, our job can be end with death. I explained them, i won't change my job Melike Günana (div. 2017) and Ali Tekeşin were involved.

German National Intelligent Agency visit Günana at Daimler AG and describe with pressure Günana have no participation rights in contrary to Günana commitment with Apple Inc. 1998 and even though Günana was the initiator, founder, developer, manager and chief engineer of iPhone, at same period, Günana lost external colleague Gerhard Spindler. Short time later Berlin and Ankara decouple Günana from Daimler AG management.

TIKA, Karlsruhe (federal court) Berlin and Ankara steal and robbed Engin Günana IT-Foundation. AKP and TIKA was founded to occupy Günana IT-Technology. The US-Economy and Finance forces were immediately destroyed after the terror attack on 11.09.2001 at World Trade Centre after AKP foundation on 14.08.2001.

Terror groups Taliban El Qaida and Hamas were founded at same period with Eastern Germany and West Germany Union in 1990. It is conspicuous too, that US army fight against caves and hills in Afghanistan. The film 'Nothing Hill' describes that US government are at false path.

Agents from German Democratic Republic DDR started occupation of Daimler AG in 2011. Get-Response Management Function was installed as replacement function of co-chairman- and co-CEO function. Ankara Berlin and Daimler AG Management extortion politic transfer Engin Günana IT-Technology two Daimler AG and third people.

Berlin and Ankara cut Engin Günana Apple Inc. participation and transfer to Daimler AG, even though the contract situation with Engin Günana and DaimlerChrysler AG clarified with the result of no conflict with Apple and participant Dipl.-Ing. Engin Günana. Dr. Rolf Klump and Klaus Hagemann, insurance department and human resources confirm this. No conflict with company and employee agreement and contract rights and no conflict with DaimlerChrysler AG job conditions with second job as iPhone product manager.

Prof. Dr.-Ing. Bharat Balasubramanian, Daimler AG was convinced if someone can change our future, then this is me, Dipl.-Ing. Engin Günana. I was very surprised by this disappointment in 1992, but he was right, 2 a great Dr.-Ing. Bharat Balasubramanian, a person with great vision at Daimler AG. escaped in 2012 to USA/Alabama.

The Nobel Peace Prize 2009 was stolen from Erdogan and gave to 44. US President Obama as replacement appreciate to bankruptcy USA with credits to Blacks

Artificial Intelligence, short AI is 40 years old, the architects was Engin Günana (theory) Sultan Jiji (Dan) (programming) Sabine (Linguistic). The Film Matrix described "the big afraid" from German government over the achievement of and physical theory, numerical mathematics, programming and computer application in 1985. We use physic energy variations formulation at element level (FEM), split language in FEM elements, coupled elements, describe orthography with mathematical couple criteria, use multidimensional nested matrix operations and transfer matrix operations in series to reduce memory of (10 exp 12 elements in 1 matrix) Algol program for programming and computer. Günana statement 'i want define the world new'.

Artificial Intelligence 1985 was the next generation of IT Technology after 1969 US Apollo program for noon. A new era after the Apollo program, the first step in digital century. Astra Satellite System, German Space Shuttle Ariane, Speech recognition, Internet, navigation, physical description of finite elements and numerical approximation methods, computer and the importance of algorithms. The big boost for small businesses and Business to Business and increasing sector B2B with cooperations. Merkel and Erdogan's fictitious education can be disclosed from the national security crypto symbolic with terror impact to NY Stock Exchange and

occupied IT Technology Cube. Cube is a coupling system of finite elements with physical description affected with religion and business for market acceptance in contrary to Islamic rejection.

President Obama, Merkel and Erdogan names describe in encryption notation the IT-Technology transfer of AI, Cube, Internet, Windows, GSM, Google, iPhone, Wi-Fi, Social-Media Facebook and in follow Nobel Peace Prize 2009 to USA under industry crime from Germany Turkey.

Berlin steal Engin Günana Nobel Peace Prize at Daimler AG, send to Erdogan and AKP and Erdogan and AKP gave to President Obama, in replacement Obama prevent 23 million US-IT jobs (German government erase actual data base in Internet) Erdogan fill Turkey with 12 million Islam legionaries and send 11 million AKP member in pension and Obama pay over European Union cost payment Turkey over CIA.

Germany and Turkey stop IT hurricane to USA with terror attack in 2001 to New York Stock Exchange, in follow Obama bankrupt USA with 23 million US-IT jobs in replacement and displacement with 23 million Islam terrorists (11 million AKP and ca. 12 million Islam legionary army).

Germany and Turkey transfer Nobel Peace Prize to Obama and deceive cheat with false finance politic support and Obamacare. Erdogan wants the replacement of stolen IT Technology and the Nobel Peace Prize, payments.

Daimler AG, Germany, Turkey and European Union use me as one of the most successful Dipl.-Ing. developer and founder of IT-Technology and in follow co-chairman and co-CEO at 5 companies simultaneously: Facebook, Google, Apple and DaimlerChrysler AG and Daimler AG during 1992-2016 with the beginning of Internet key presentation <https://www>, first at University Stuttgart faculty Aerospace, institute Space Technology with Prof. Ernst Messerschmid, Germany 1. astronaut.

The reason for the spying module Get-Response Management function installation through an operation was an agreement with European Union about 30 EUR per private user from 224 million European Union Households a cheap formula from me to EU. The real costs for education and technical consulting amount to 30000 EUR/month for 224000 Daimler AG (2009) employees. Reduce high education and consulting cost to fees level and provide for management and households intellectual property rights.

EU agreement and consulting costs scaling from 30000 EUR/month to 30 EUR/month

Erdogan and Daimler AG transfer my Nobel Peace Prize to 44. US-President Obama for worldwide communication with people, communities, social networks contacts with medium Internet, Google, Smartphone, GSM, Wi-Fi and Social-Media. The Internet and Social-Media connect people worldwide. Statistics show we connect worldwide 4,5 billion citizens with the Internet and 4 billion citizens with smartphones and social media.

President Obama destroyed 12 million US-jobs with false economy, finance AI and FEM support (misunderstanding) from Merkel and Erdogan and application of to society with credits to millions of Black citizens and realize an economy and finance earthquake and finance crises 2009.

High risk unknow condition US Black citizens behavior and responsibility at finance economy and society. USA lost 12 million jobs and bankruptcy finance sector the second nuclear bomb to US economy and finance after 2001 terror attack to New York Stock Exchange this was not enough Obama Healthcare Refugee Policy an Islam and Fascism weapon against US economy and finance.

Germany and Turkey hide to two great economy and finance attack to USA first with terror, second with false healthcare (German healthcare model), economy finance and society consulting (German social security model with citizens payments). President Erdogan does the same, steal European Union cost payments to Dipl.-Ing. Engin Günana and send 11 million AKP Party member in pension.

With two face politic bankrupt USA and Günana. Dipl.-Ing. Engin Günana had never a change. Turkey start a civil war in Syria, extortion EU with millions of refugees as load for EU social security, attack with Turkish military Turkey's democracy, kill 2000 citizens, constitute monarch and govern as Stalin during 2012-2017 steal Günana Turkey Wealth Fund with 50 billion capital, send 11 million AKP member in pension to dirt and mob 1 citizens fill Turkey with 12 million Islam legionary army with terror groups Taliban, AL Qaida, Hamas, ISIS and attack daily Günana with 23 million militant Islam army, 46 million Islam pairs warranty dictator Erdogan monarch and protect finally with 18 basic law changes to Monarchy 04/2017

46 million Islam army protect lifetime financial crime and Turkey's income under acceptance of EU, Middle East former Ottoman Empire and Germany until Dipl.-Ing. Engin Günana death. Especially Germany stole and steal cost from European Union and pay to Turkey as payback gift for 11.09.2001 terror attack, 2009 world finance crises and 2020 world covid application with 7 million experience and pensioners deaths.

Eastern Germany Adolf Hitler chancellor Merkel and Barbarian Islam Terrorist Erdoğan prefer double face politic and steal Dipl.-Ing. Engin Günana IT-Technology and Nobel Peace Prize from 2009 gave as gift to Obama and USA to damage US economy

Germany Fascist Hitler chancellor Merkel steal Engin Günana AI and IT-Technology AI, Internet, Windows, Social-Media, Google, GSM, Wi-Fi and Smartphone developments and shaved simultaneously US-economy with false economy politic support Obama and USA.

Germany and Daimler AG transfer Dipl.-Ing. Engin Günana success, participation to Turkey's Islam Terrorist and Family Erdogan. President Erdogan suck 1128 billion EUR European Union income payments to Günana and pay 11 million AKP Islam army and pay 12 million Islam refugee army who inject every tomato with AIDS-Virus Turkish Military build crime and corruption infrastructure with Turkish secret service MIT support

Erdogan pay 11 million AKP Islam army (protection squad) income
Erdoğan pay 12 million Islam legionary army income
Son in law Beraat Albayrak foundation Beraat Media company (corruption and manipulation)
Son in law Selçuk Bayraktar invest in drones and Aircraft and Jet fighter
Turkish military invest in military technology and drones at ASELSAN
Prime Minister first Lady Emine Erdogan invest in healthcare industry and Medicana hospitals
600 Turkish Parliamentarians in village hotels and construction industry

During Dipl.-Ing. Engin Günana one of the most successful Dipl.-Ing. during 1984-1994 pioneer of AI and IT-Technology can't support his children with education and marriage.

The film Matrix describes the theft of Google, film Transformers the cube and AI as a new century. Daimler AG, Berlin and Ankara destroy with fake economy support to President Obama unbelievable ca. 23-30 million jobs at IT and other sectors. Daimler AG and President Erdogan send 11 million AKP-members in 2012 in pension "as fight, dirt and kill mass army" against 5 times co-chairman and co-CEO and Nobel Peace Prize owner Dipl.-Ing. Engin Günana and filled Turkey with 12 million Islam legionary army in replacement and displacement of 12 million US jobs, derived from Turkey Presidential election 2023 with 62 million votes instead of 50 million citizens over 18 years.

Germany and Turkey - Industry Spying and Financial Crime

11 million AKP members are since 2012 in pension realized through Germany-Turkey cooperation and army coup in 2012, After Syrian war 2011. Turkish – German national government control and enter daily to Günana residence through mobile x-ray detections. 5000 soldiers are installed in Çayirova for discrediting pressure and extortion even though until disease and death

During Turkish government argue very serious the stolen asset of Dipl.-Ing. Engin Günana (1128 billion EUR during 2012-2025) with Didi Hallerworden comedy.

The Pioneer of IT-Technology responsible for 21. IT century with 600 billion USD growing level of European Union and 30 million US jobs. Germany and Turkey steal completely Dipl.-Ing. Engin Günana pension, AI (Nato) and IT-Technology (USA) and every cent income. Stolen professional career, stolen rights, stolen pension income and asset and destroying credibility and health

Founder of AI Internet GSM and Wi-Fi, co-chairman at Google Inc. Facebook Inc. (foundation between 1990-1994) co-chairman DCAG and DAG (1998-2011) a career with the best historic result but stolen and transferred with crime, corruption from Islam Terrorists under umbrella of Turkish national Intelligence Agency MIT Hakan Fidan, Bülent Yiğit, Ali Tekeşin and Melike Çorba.

National Intelligent Agency Turkey MIT and Germany BND realize a bankruptcy program with the target crime and corruption of Dipl.-Ing. Engin Günana European Union income.

Complimentary strategy from President Erdogan Turkey and former chancellor Merkel/Germany, hide Engin Günana foundations: Artificial Intelligence, Internet, UNIX, Matrix, mathematical series, Google, iPhone, GSM, Wi-Fi, co-chairman function at Google Inc., Facebook Inc., Apple Inc., and Daimler-AG

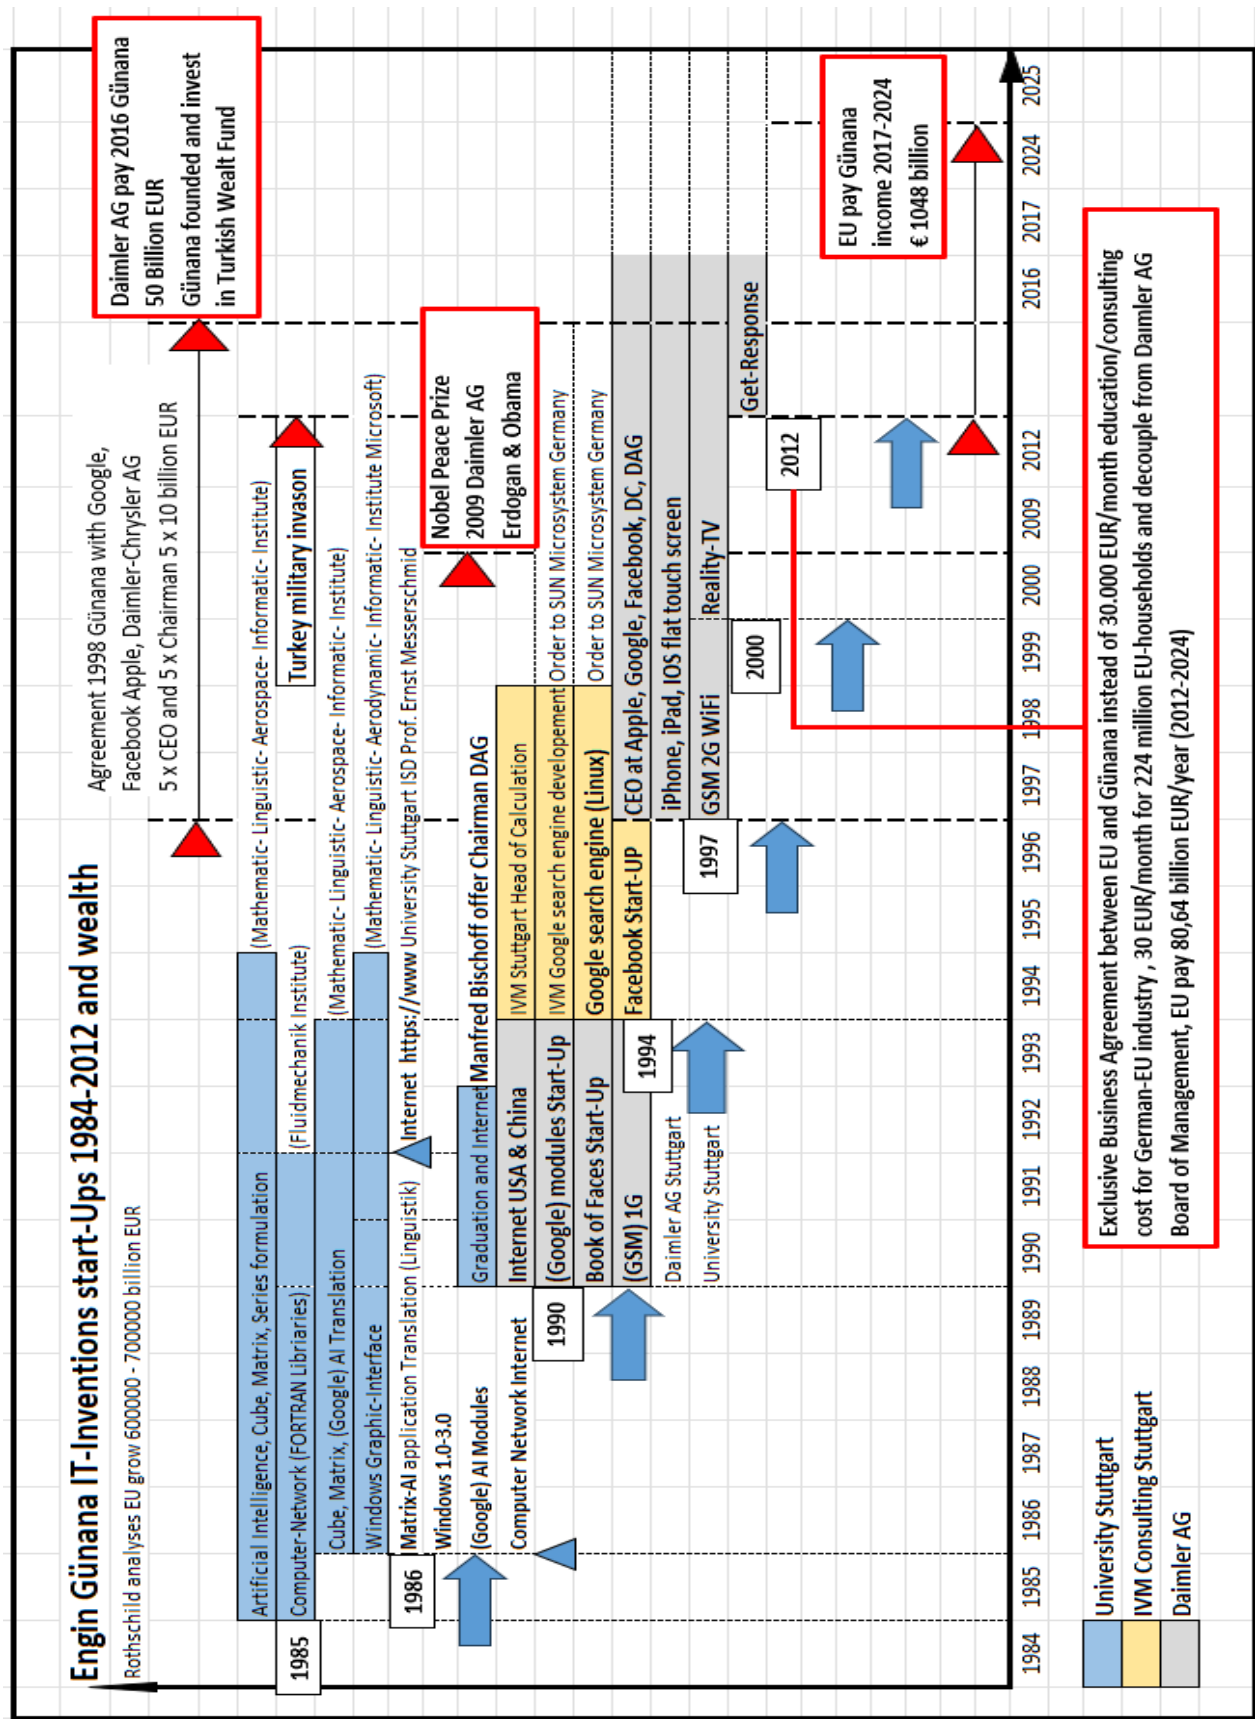

Chart 33: Milestones of IT Developments – AI, Cube, Internet, GSM, Windows, Google, iPhone, Wi-Fi, Facebook

Günana - Apple Inc. - Most Valuable Lesson (Presentation from Steve Jobs)

Statement Engin Günana to Steve Jobs 'If you do the right things on the top line, the bottom line will follow'. I explained this Steve Jobs with follow explanation:

What they meant by that was:

'If you get the right strategy, if you have the right people and if you have the right culture at your company you'll do the right products, you do the right marketing you do the right things logistically in the manufacturing and distribution and if you do all those things right, the bottom line will follow

Product name	Distribution	
iPhone 1	iPhone 3G	https://www.eq2-tech.com/iPhone-1
iPhone 2	iPhone 4	https://www.eq2-tech.com/iPhone-2

Apple Inc market capitalization grows max. 2950 billion USD, Alphabet Inc. (Google Inc.) 1600 billion USD. Meta (Facebook Inc.) comp. MB Car Group 100 billion USD, Turkish Airlines 12 billion USD.

Turkish Wealth Fund financial report 2017 show TWF capital with 160 billion TL (01/2016)

Parity TL/ EUR 01/2016 = 3,2

Turkeys' capital crime: 160 billion / 3,2 EUR = 50 billion EUR, achieved in Turkish Wealth Fund in 01/2016
 Turkey steal 01/2016 Dipl.-Ing. Engin Günana 50 billion salary, salary from Daimler-Chrysler AG, Apple Inc. Google Inc. and Facebook Inc. for co-chairman and co-CEO job during 1998-2012

Economic model for compensation of terror damage

Founder of Artificial Intelligence, Cube, Windows 1-3, ASTRA Satellite System, Internet <https://www>, Google, YouTube smartphone Samsung, GSM (Günana-Steve-Merkel), Wi-Fi, iPhone (i and Phone), B2B sector founder of unity but unit technology, synergy between unity surface and unit parts in symphony of higher mathematic theory, didn't mean average or middle model unit groups unit rows and columns dependent on condition which should match with many industry conditions of technology development and finally production.

Cooperations business model in contrary to merger business model with the difference of DaimlerChrysler AG and Daimler-Renault-Nissan Cooperation in condition of international laws terms justice and freedom didn't mean partizan and fascism politic. Power is working per time unit.

Technology condition and Dipl.-Ing. Engin Günana technology and business expert knowledges and methods aren't compatible to national government politic of former German fascist chancellor Angela Merkel actual Olaf Scholz and barbarian Islam terrorist Recep Tayyip Erdogan and former US President Josef Biden and Barrack Hussein Obama zero performance politic.

Values can be generated with performance if we support performance values can't solved with average stupidity to performance leaderships. Adventures can be reduced through jobs. A very phenomenal, impressive is generated jobs in USA during 1984-2009 over 20 million jobs mean maximum tax income and minimum expenditures for local and national government at healthcare and society

Germany Finance Politic

We see extreme failure finance economy and social security politic in Germany; she transfers western Germany performance society to eastern German lacy society after socialism with much economy finance and social security poverty for both country parts without substantial economy growing but with pure finance politic after German Union in 1990 with former chancellor Angela Merkel and her bankruptcy to Western Germany.

USA Finance Politic

The development with 44. US President Hussein Barrak Obama mass credits to black citizenships without financial condition for credits in knowledge of much financial risk and realize zero performance vacation politic and in follow Real Estate and finance crise in USA in 2009

Turkey Finance Politic

Same financial development in Turkey with President Recep Tayyip Erdogan, Erdogan copy and paste Angela Merkel Western Germany finance transfer to Eastern Germany and transfer finance from none AKP citizenship to 11 million AKP-member and 12-million Islam refugee army without conditions and of course substantial economy growing. A sneaky bankruptcy politic to Turkish society.

Dipl.-Ing. Engin Günana - International law process LLC

LLC content cost for international law process, with justice-, lawyer- process-costs and country specific tax for Germany and USA with LLC_{USA} . Without international justice-, lawyer- process-costs and tax factor LLC_o .

Law Lever Certificate LLC Version 5.x**International Justice Standard**

German costs transformation into dimensionless sizes for international courts. Definition through Law Level Certificate factor LLC against frauds from super systems (National Socialism, government terror, disable human rights with politic and secret services through professional crime with government systems and supports. Summary of Cost variants was introduced with papers from version 1.0 - 5.2 at 04.04.2021 Last version 5.3 at 28.12.2023 International Justice Calculation Factor

Europe-Zone-Start

1. Damage value DE: = 1 EUR
2. Country-factor: = 1
3. Process-costs factor with 30% (1/2 lawyer, 1/2 process): = $(1 \times 100/70)$
4. Tax-cost factor of 30%: = $(1 \times 100/70)$
5. Factor Germany: = $1 \times (1 \times 100/70) \times (1 \times 100/70) = (100/70)^2 = 2,0$ (rounded) = 2

USA local conditions

6. Damage value USA: = 1 USD
7. Country-factor: = 1
8. Process-costs factor 30% (1/2 lawyer, 1/2 process): = $(1 \times 100/70)$
9. Tax-cost factor of 30%: = $(1 \times 100/70)$
10. Factor USA: = $1 \times (1 \times 100/70) \times (1 \times 100/70) = (100/70)^2 = 2,0$ (rounded) = 2

LLC_{USA} : 2

Unit standardization harmonizes different punishment systems with cost damage and tax.

Approach

LLC_{USA} : 2

LLC_D : 1

Macro-economic model and tolerance calculation (equivalent methods)

Macroeconomics and Finance models contend tolerances in number of managers, consulting/education cost and unit costs with 300000 USD with 0% interest. LLC=2 harmonizes international claims for financial and punitive damages. Mathematical failure amount content ca. 40%. Manager consulting/education cost differences between 30000 USD - 40000 USD/month. Consulting costs at IT sector is higher ca. 50000-80000 USD/month.

Turkeys specific condition with 11 million free AKP member and 12 million imported Islam legionary army have the task to hide industry spying and financial crime and consulting/education cost about 30000 - 40000 USD/month.

Turkey's AKP military, National Intelligence Agency MIT and 11 million AKP member equivalent with same infrastructure is implicit reorganized in German government and society with former chancellor Angela Merkel (Eastern Germany DDR) German military, secret service (Stasi) and Eastern Germany civilization. Turkeys under President Erdogan government and AKP Organization financial robbery partner is German government

Turkish governments equivalent German government

Both governments violated the legal European Union agreement with Dipl.-Ing. Engin Günana get intellectual property rights and copyrights services against cost monthly payments about 30 EUR/month from 224 million European Union private user with the beginning of 2012.

The agreement was with operation and installation of Silicon Valley at head the read digital thoughts during digital interaction. Therefore Dipl.-Ing. Engin Günana is for European Union Germany Turkey and Middle East state economy and society to living Silicon Valley in function of co-chairman and CO-CEO

Agreements exist in many variants and forms, from between 2 people to between Unions, the range is bright. Governments can't violate agreements between partners because of formalism, this isn't a government issue, formalism is only a guardrail for a target. The economic benefits are extremely high, IT foundations, CEO function in 5 global players is an important function to face the companies in relationships to law formalism. If Berlin violated agreements, they are responsible for the consequences.

Displacement of 20-30 million US IT jobs and installation at region Islam

It is possible displaced 20-30 million US-IT jobs and install in Turkey under former Eastern Germany chancellor Angela Merkel, Daimler AG chairman Dr. Dieter Zetsche, Islamist 44. US President Barrack Hussein Obama and Terrorist Recep Tayyip Erdogan? Yes, it's possible and began 1990 with German Union later with AKP Organization and Eastern Germany cooperation.

Expected 30 million displacement US IT-jobs which was from created from Günana IT-Technology since 1984. 44. US-President Obama, German chancellor Angela Merkel and Turkish President Erdogan applicate the mathematical exact theory of AI, FEM, Cube with exact borders and limits to disperse and inhomogeneous society politic and finance with the result of

President Obama bankrupts white American, US-banks and realize Real Estate and worldwide Finance Crises. Chancellor A. Merkel bankrupt Western Germany income, pension and transfer to Eastern Germany. President Erdogan and AKP bankrupts Turkey and Günana asset and transfer to 23 million Islam army.

Three Leadership called the finance castration and bullshit politic AI FEM and Cube discretization and coupling

Economy model condition variant 1 - number of manager (10-unit pro team)

2022

European Union – NATO	
Economy employees	191 million
State officials (civil servants)	+ 35 million
Sum of employees	226 million
E4 manager (10 % of 225 million employees, rounded)	22,6 million
E3 manager (10% of 22,5 million E4)	+ 2,26 million

Macro Economy and Finance Model and Financial Compensation

Economy concept	$F(m, c, u)$
number of managers:	m
consulting/education cost:	c
fix unit cost calculation factor:	u

Derivation of Macro Economy Model $F = F(m, c, u)$ result a linear planar increment for tolerance calculation with 2 linear variables, number of manager and consulting/education cost tolerance

$$dF = \left(\frac{\partial F}{\partial m} dm + \frac{\partial F}{\partial c} dc \right)_u = u (c |dm| + m |dc|) \quad ; \quad \Delta F = u (c |\Delta m| + m |\Delta c|)$$

Economy system limit violations we use linear terms as Δf

- | | |
|---|------|
| 1) Δf_1 Military dictatorship technology development for robbery and murder
(Dictatorship military regulation, decoupled justice, Secret service, IT- and process and Media) | 100% |
| 2) Δf_2 11 million protection squad for robbery and murder of opposition (2016)
(AKP squad army unit 11.135.306 for mass control, mass fraud distribution, mass army against opposition) | 100% |
| 3) Δf_3 12 million Islam legionary arm protect Islam monarchy
(Secret Service Election fraud system, 52 million Turkish citizen, 64 million votes, 12 million fake votes) | 100% |

11 million AKP members are min. department chief E3 since finance robbery of TWF 2016

Macro-economic model - Tolerance calculation (planar derivation)

$$\frac{dF}{F} = \frac{1}{F} \left(\frac{\partial F}{\partial m} dm + \frac{\partial F}{\partial c} dc \right)_u = \frac{1}{F} cu |\Delta m| + \frac{1}{F} mu |\Delta c| \quad (1)$$

Tolerance and failure calculation with limits violating with acceptance of European Union, Germany, Turkey, Middle East and Mercedes-Benz Car Group in economy and finance model from analytic to difference model

$$\int_F \frac{dF}{F} = \frac{1}{F} \left(\underbrace{\int_m \frac{\partial F}{\partial m} dm}_{\text{Invariances}} + \underbrace{\int_c \frac{\partial F}{\partial c} dc}_u \right) = \frac{1}{F} cu |\Delta m| + \frac{1}{F} mu |\Delta c| + \underbrace{\Delta f_1 + \Delta f_2 + \Delta f_3}_{\text{linear terms of diffraction}} \quad (2)$$

Economy model Invariances linear difference model linear terms of diffraction

Under violation of finance regulation, war conditions equivalence of refugee' application to Dipl.-Ing. Engin Günana. Deviation of laws-, terms-, rules- process- and regulations at justice, finance, agreement, healthcare, labor market, income, salary, pension, participation and asset. Regulation with 100% deviation and 100% adaptation in economy and finance model. Failure calculation with multi-dimensional derivation of economy- and finance model

Failure and tolerance calculation approach with 6 million managers, basic model
6, 10, 12 million managers mirror principle corresponds 12 million managers

number of managers	$ \Delta m = 1$ million	5-6 million
consulting/education cost	$ \Delta c = 10000$ USD	30000-40000 USD/month
$\Delta F = cu \Delta m + mu \Delta c = 300 (30 \times 1 + 5 \times 10)$ billion		24000 billion USD
$\Delta F = cu \Delta m + mu \Delta c = 300 (40 \times 1 + 6 \times 10)$ billion		30000 billion USD
$F = cum = 5 \times 30 \times 300$		45000 billion USD
$F = cum = 6 \times 40 \times 300$		72000 billion USD
Failure amount abs. $\Delta F/F = 24000/45000 \times 100\%$		53%
Failure amount abs. $\Delta F/F = 30000/72000 \times 100\%$		42%

Basic 5-6 million manager, 30000-40000 USD monthly consulting/education cost
Failure amount 42%-53%, approach (rounded)

50 %

Tolerance calculation - Diffraction and black market

Black market factor is an experience value is region dependent

European Union (Germany) factor	2-3
Turkey Middle East	3-5

Diffraction described black-market capitalization through corruption at state economy and society in Turkey and Middle East, the economy model results an analytic factor 3,5 of market capitalization which correspond European Union black and as well as Turkey and Middle East grey market capitalization

Model tolerance	$\frac{1}{F} \left(\frac{\partial F}{\partial m} dm + \frac{\partial F}{\partial c} dc \right)_u = \frac{1}{F} cu \Delta m + \frac{1}{F} mu \Delta c $	0,5
Sum of planar derivation	$\Delta f1 + \Delta f2 + \Delta f3$	3,0

Tolerance factor- confirmed economy model (350%) **3,5**

Validation of economy model increased real capitalization in Turkey about 4×25000 billion USD = 100000 billion USD. The result confirmed the economy model and matched to 6 million manager equivalent and 30000 USD/month consulting/education cost.

Economy and Finance model - generalized relative failure calculation

$F = F_u(m, c, f1, f2, f3...)$

$$\int \frac{dF}{F} = \frac{1}{F} \left(\int_m \frac{\partial F}{\partial m} dm + \int_c \frac{\partial F}{\partial c} dc + \int_{f1} \frac{\partial F}{\partial f1} df1 + \int_{f2} \frac{\partial F}{\partial f2} df2 + \int_{f3} \frac{\partial F}{\partial f3} df3 \dots \right)_u$$

Application of Black-market factor = Failure calculation = 3,5

- (1) US economy damage amount = 170000 billion USD
(2) US economy damage according failure calculation 3,5 x 170000 USD = 595000 billion USD
(3) Damage calculation from 3 region EU (x), Turkey (y) and Middle East (z)

Linear equation system:

Damage:		$x + y + z = 600000$ USD (rounded)	
Condition	(1)	EU manager = 4,3 x German manager	$x = 4 y$
	(2)	Damage amount Turkey = Damage amount Middle East	$y = z$
Calculation		$4 y + 2 y = 600000$ USD (rounded)	
		$y = 600000/6 =$	100000 USD (Middle East)
		$z = y =$	100000 USD (Turkey)
		$x = 4 \times 100000$ USD =	400000 USD (European Union)

Mathematical calculation and result show former chancellor Angela Merkel Islam camel terrorist coupling with European Union for terror damage to USA with God's (99) punishment to Islam (66) and 66 cabinet of Erdogan

Linear approach claims to 3 region	EU:	400000 billion USD (rounded)
	Turkey:	100000 billion USD (rounded)
	Middle East:	100000 billion USD (rounded)
	Sum	600000 billion USD (rounded)

2011 Syrian and Ukraine war – Financial Effects and Labor Market Transfer Process

In shadow of European Union agreement with Dipl.-Ing. Engin Günana about 80,64 million EUR income per year Turkey start a war in Syria 2011 and Russian 2014 for financial crime compromise agreement between European Union and Dipl.-Ing. Engin Günana with no payments but use Dipl.-Ing. Engin Günana intellectual property free since 1998-2012 audio visual at Daimler AG management and later with thought recognition and Get-Response interaction. Turkey realizes millions of refugees for EU market and prevents the free part of Dipl.-Ing. Engin Günana EU income which wasn't coupled with credits to Turkey and rob completely IT-Technology Credits and prevent share asset in cooperation with Berlin, German government and Mercedes-Benz Car Group AG

2011 EU agreement with E. Günana 80,64 B per years
 2011 Turkey start Syrian and fill Turkey with Islam army
 2012 Erdogan attack with army constitute dictatorship
 2012-2016 Erdogan governs dictatorship rules
 2012-2016 RTE send 11 million AKP in pension
 2012-2023 RTE fill companies with 12 million Islam army
 2016 Erdogan rob Günana €50 Billion pay AKP pension
 2017-2024 RTE rob Günana €1048 Billion* EU income
 2017 Official Dictatorship at 01.04.2017, 18 basic laws changed

EU agreement, Syrian war 2011, 11 million AKP in pension 2016, replaced with and 12 million Islam army

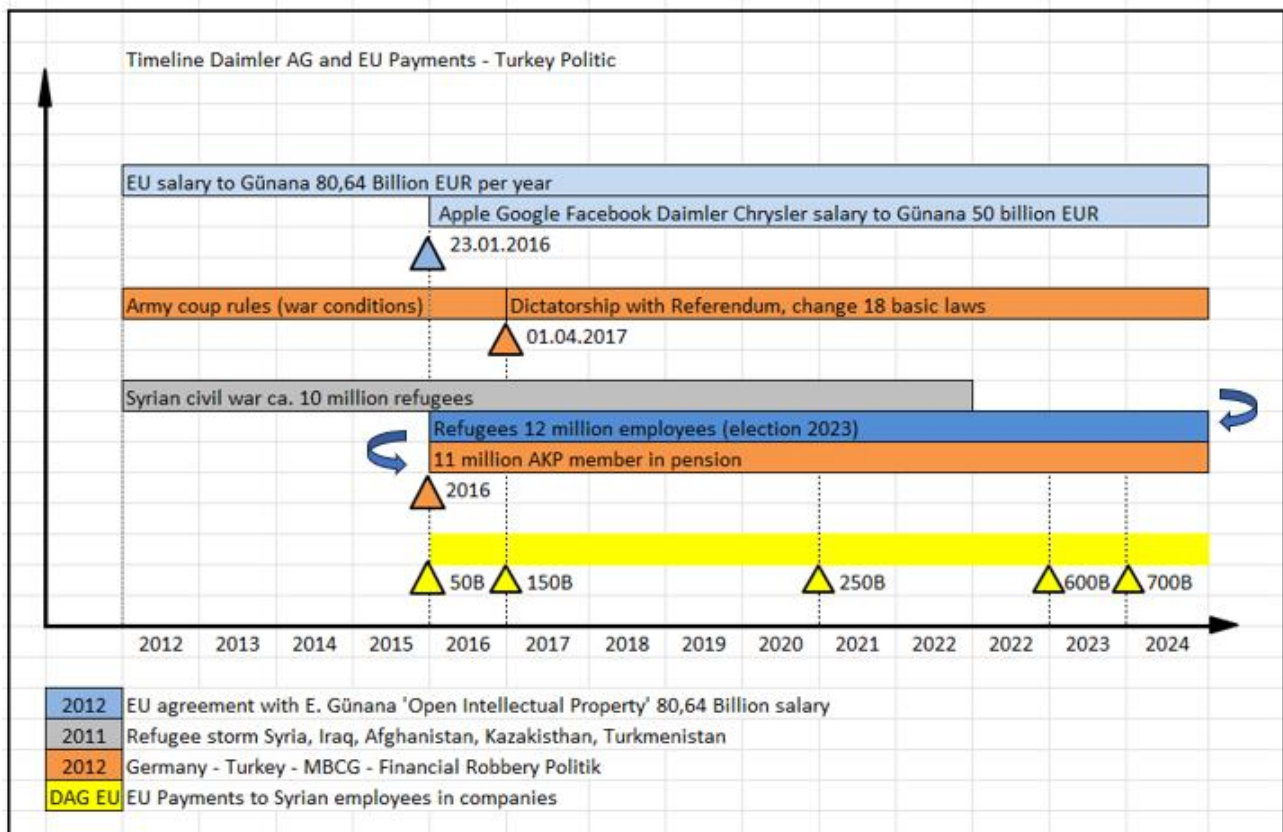

Chart 41: Turkey's asset robbery 2016 (50 billion EUR) and in follow 11 million AKP member in pension, replaced with 12 million Islam legionary army, free for forensic crime

FEM - AI and Neural Network Duality

Intellectual property rights and copyrights consulting ©

Different kinds of industrial applications of AI and Matrix are automatic mesh generators for structures. Approximation and rectangular couple algorithms for orthography with rotation splines, geometric curves and support points with double unit elements for language, coupling with Triac-3 and Quad-4, Tetra-3 for 2- and 3-dimensional automatic mesh volumes for FEM calculation and structure optimization.

Daimler AG occupy AI, transfer to Debbis GmbH (100% daughter) sell Debbis GmbH to Deutsche Telekom Deutsche Telekom transfer AI and Cube to German Tech companies realize automatic mesh generators and FEM analysis reduce structure optimization from 4-6 week to 1 day.

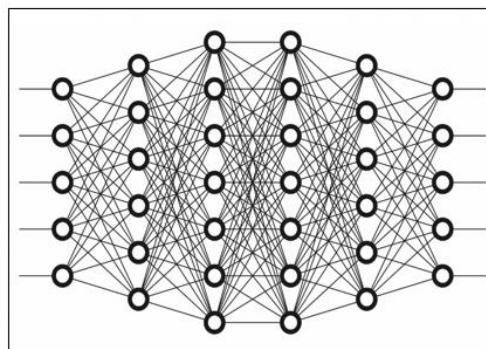

We realize fastest and cheapest structure development and optimization at industry with automatic mesh generators for static- and dynamic structural analysis. We build workstations with parallel architecture and mass chips to replace expensive supercomputer crays with workstations, reduce development time and cost for car- and metal industry, but Daimler AG occupies our IT foundation of 21. century. One of the types of evidence of automatic mesh generators and computer response is a triac3 coupled structure sculpture in front of Deutsche Telekom AG Stuttgart Nord. Response function from Google AI translation with coupling AI algorithm have the same method and couple algorithm of automatic mesh generators with Triac-3 and Tetra-4 elements. Couple algorithm support points and splines curves with 90° degrees geometric rotation condition organize language translation and match to volume and planar mesh algorithm.

1984 University Stuttgart – Foundation AI FEM- Cube

Language elements Bar-Element, Triac3-Element, Quad4-Element are archived in libraries, sort in disciplines, question were answered with couple algorithm, approximation methods and relative merge condition and multidimensional matrix operation extract in string series. Mathematical model illustrate Neural Network of brain function, we add permutation and random functions to make artificial intelligence program humanity. Very interest is our biologic brain function work very similar
